For those frequencies in the band 126,100 to 127,100 kc, wherever W or N appears after a frequency, it is the understanding that the Civil Aeronautics Authority may use such frequency only on the basis of non-interference to present or future Army and Navy stations which may employ them.

1. Such frequencies as are herein assigned to classes of stations for use in the Canal Zone are approved in conformity with section 305 of the Communications Act of 1934 as amended, or other applicable laws or treaties.

2. The symbols used in this Executive Order have the following meanings:

f. Foreign rights recognized in accordance with international agreements in force.

g. May be authorized for non-Government assignments provided no interference to Government assignments, present or future.

j. May be authorized for both Government and non-Government assignments.

n. May be authorized for Government assignments provided no interference to non-Government assignments, present or future.

s. Used continually for Government navigational aids for protection of life and property.

t. Not to interfere with assignments conforming to international treaties, regulations, or arrangements in force.

3. In this Executive Order the abbreviation "ACS" is used to indicate the Alaska Communication System.

4. In this Executive Order the term "United States" shall be understood to include the forty-eight states, the District of Columbia, the territories and the possessions, except the Canal Zone.

5. In this Executive Order the term "outside the continental limits of the United States" shall be understood to include any United States area, such as Alaska, which is not within the forty-eight states and the District of Columbia.

6. In this Executive Order the term "Day Only" is defined as follows: From two hours after local sunrise until two hours before local sunset.

7. In this Executive Order the word "priority" means "not to cause objectionable interference."

8. In this Executive Order, unless otherwise indicated, when more than one agency is assigned the same frequency, relative priority between agencies, if existing, is indicated by the order of listing the frequency repeated on separate lines. When two or more agencies have equal priority the frequency itself is listed only once.

9. The Classes of Stations used in this Executive Order are defined as follows:

of Definition in
Cairo Regulations*

for such period as the Committee may deem necessary, provided that such station shall cease such operations upon receipt of notice of interference from the Interdepartment Radio Advisory Committee. The Interdepartment Radio Advisory Committee may also authorize interim operation on any frequency, pending issuance of a new Executive Order, with the same proviso.

16. Any frequency authorized by the Federal Communications Commission for ship service may be employed by Government mobile stations when communicating with non-Government stations.

17. Any mobile station may operate on a frequency assigned to a Government station in the mobile service when directed to do so by the latter.

CHAPTER IX

RELATIONS WITH OTHER DEPARTMENTS

ATTACHÉS

IX-1. Assignment and commissioning of attachés. Attachés shall be assigned by the Secretaries of their respective departments and commissioned by the Secretary of State to reside at the seats of the various missions as the public interests demand. A diplomatic representative shall promptly inform the Foreign Office of the country to which he is accredited of the designation of an attaché to his mission.

IX-2. Duties of attachés. The duties of attachés are such as may be assigned to them by the heads of their respective departments, from whom they receive their instructions and to whom they shall report. These duties, while not under the direction or control of the chief of mission, shall be subject to his supervision.

In ceremonial matters, attachés are subject to the direction of the chief of mission, and are responsible to him for their personal conduct. The diplomatic representative shall report to the Department of State any conduct of the attachés which he considers unbecoming or embarrassing to the mission.

RELATIVE RANK

IX-3. Relative rank. The rules of precedence to be observed as between officers of the Department of State, officers of other departments, and other officials of the Government of the United

States assigned abroad shall be such as are prescribed by the President.

NAVY

IX-4. Classification of visits of American naval vessels to foreign ports. The term "visits of courtesy" shall be used to designate visits of a more or less formal nature of naval vessels to ports in foreign countries in which there is an exchange of official entertainment.

Visits in which formalities are restricted to the usual salutes and customary calls shall be designated "informal visits".

Unless specifically designated as visits of courtesy, all visits of United States naval vessels shall be regarded as informal visits.

IX-5. Official calls between naval officers and officers of the Foreign Service.

(a) *Calls between naval officers and diplomatic officers.* Upon the arrival of a naval vessel of the United States in a foreign port where there are diplomatic officers of the United States, the following procedure in regard to official calls shall be observed:

(1) A flag officer will pay the first visit to a diplomatic officer of, or above, the rank of chargé d'affaires.

(2) A commanding officer will pay the first visit to a diplomatic officer of, or above, the rank of chargé d'affaires.

The senior naval officer present shall, if necessary, arrange to furnish a suitable boat to enable a diplomatic representative to pay official visits afloat. Official visits shall be returned within 24 hours.

(b) *Calls between naval officers and consular officers.* When a naval vessel visits a port where there is a consular officer, the procedure in paying official calls shall be as follows:

(1) A flag officer receives the first visit from a consular officer regardless of the latter's rank.

(2) A captain commanding a vessel pays the first call to a consul general and receives the first call from other consular officers.

(3) A commanding officer below the rank of captain pays the first visit to a consular officer in charge of a consulate.

When the consular officer pays the first visit, the commanding officer shall send a boat ashore with an officer on

board to call on the consular officer and tender him a passage to the ship at such time as he may select. The consular officer shall accept the invitation to visit the commanding officer within 24 hours, and shall tender to him his official services.

When the commanding officer pays the first visit to a consular officer, the latter shall return the visit within 24 hours.

IX-6. Services for the Navy. Foreign Service officers shall cooperate with officers of the United States Navy to the fullest possible extent. However, in matters involving the expenditure of funds they shall be governed by the provisions of section V-45.

Consular officers shall extend necessary relief and assistance to personnel of naval vessels left under their care by reason of illness, injury, or for other causes, or who desert or straggle in foreign ports, *provided* that the consular officer has first received such express written authorization from a commanding officer of the Navy or the Navy Department as will enable him to obtain reimbursement from the Navy Department for any outlay made.

IX-7. Presence of naval force in foreign port not to be requested except in public emergency. Diplomatic representatives and consular officers shall not request the presence of a naval force in a foreign port unless a public emergency so necessitates. The request may be addressed to the officers in command of the naval force, in which event responsibility of action rests with them, or it may be addressed to the Department of State. In either case, the request should contain detailed reasons for its submission.

TREASURY

IX-8. Quarantine laws and regulations. Consular officers shall familiarize themselves with and shall perform the duties prescribed for them by the provisions of the Quarantine Act of February 15, 1893, as amended (42 U.S.C. §§82, 92, 93, 94), and by the regulations promulgated thereunder by the Secretary of the Treasury, appearing in the current edition of the pamphlet entitled "Quarantine Laws and Regulations", as amended, or elsewhere.

IX-9. Relief extended personnel of Coast Guard stranded in foreign ports. Consular officers shall extend relief to members of the Coast Guard on active duty (not on leave status) who become stranded in foreign ports as follows:

(a) When a vessel of the Coast Guard is based in a foreign port, relief shall be afforded until the arrival of a Coast Guard cutter in port, when the person concerned shall be delivered to the commanding officer of the vessel.

(b) When a vessel of the Coast Guard has permanently cleared from a foreign port, relief shall be afforded, and the Department of State shall be immediately notified and instructions awaited relative to the disposition to be made of the person concerned.

Expenses incurred for the relief of Coast Guard personnel shall be included as a separate item supported by proper vouchers in the regular accounts of the office extending relief.

VETERANS' ADMINISTRATION

IX-10. Duties of consular officers in connection with Veterans' Administration activities abroad. Consular officers shall perform such duties for and submit such reports through the Department of State to the Veterans' Administration as may from time to time be required of them. They are also charged with the general supervision of Veterans' Administration activities abroad and in connection therewith shall report immediately through the Department of State any information which may assist the Veterans' Administration in the efficient discharge of its responsibilities to its beneficiaries who reside in foreign countries.

The following provisions of the Foreign Service Regulations of the United States are hereby cancelled:

PART I

Sections IV-1 to IV-7 inclusive.

EXECUTIVE ORDER 8197

REGULATIONS PERTAINING TO THE ADMINISTRATION OF THE ACT OF MAY 3, 1939, PUBLIC NO. 63, 76TH CONGRESS, 1ST SESSION

By virtue of the power vested in me as President of the United States and by the act approved May 3, 1939, entitled "An Act to amend the act entitled 'An Act authorizing the temporary detail of United States employees, possessing special qualifications, to governments of American republics and the Philippines, and for other purposes', approved May 25, 1938", I hereby prescribe the following regulations pertaining to the administration of the said act of May 3, 1939:

1. Requests of foreign governments for the services of United States Government officers and employees having special scientific or other technical or professional qualifications shall be made through diplomatic channels to the Secretary of State.

2. If the United States is unable to comply with the request of the foreign government because of lack of facilities or qualified personnel, the Secretary of State shall so inform the foreign government.

3. If the United States is able to comply with the request of the foreign government, but the Secretary of State, after consultation with the department or agency concerned, concludes that compliance therewith would not be in the public interest, he shall submit the request to the President with his recommendation and reasons therefor. If the Secretary deems compliance with such request to be in the public interest, he shall submit the matter to the department or agency concerned, indicating in his submission the nature of the services to be rendered, the probable length of the detail or assignment, and such other relative information as may be available, and requesting such depart-

ment or agency to furnish the names of the officers or employees available, together with information as to their previous experience and special qualifications (including language qualifications), their basic salaries, their family status, and such other information as may in the opinion of the Secretary of State be necessary or desirable.

4. Upon receipt of the requested information from the department or agency concerned, the Secretary of State shall submit, with pertinent information and data, the request of the foreign government to the President with his recommendations, which shall include recommendations as to (1) length of detail or assignment, (2) amount of additional compensation, if any, of officer or employee detailed, (3) amount of monthly allowances to detailed officer or employee for quarters and subsistence, (4) amount of reimbursement for travel expenses of detailed officer or employee to and from the place of detail, and (5) acceptance from the interested foreign government of reimbursement, in whole or in part, of the cost involved. If the President determines that the request of the foreign government shall be granted by the United States, the Secretary of State shall so notify the foreign government, and shall in his discretion inform it as to the cost involved and request it to indicate whether it desires to reimburse the United States in whole or in part for such cost.

5. The Secretary of State shall establish for administrative purposes such forms as may be necessary for the maintenance of uniform records which shall include full information with respect to each detail or assignment. Upon completion of arrangements for each detail, the Secretary of State shall furnish a copy of the completed form to the agency lending the services of the officer or employee concerned.

6. The Secretary of State may prescribe such regulations not inconsistent herewith as he may deem necessary or desirable for carrying out the provisions of this order.

EXECUTIVE ORDER 8198

SUSPENSION OF EIGHT-HOUR LAW AS TO CONSTRUCTION OF CERTAIN EMERGENCY AIR BASES

WHEREAS the act of April 25, 1939, Public, No. 43, 76th Congress, 1st Session, authorizes the Secretary of the Navy to establish, develop, or increase naval aviation facilities at or in the vicinity of certain places mentioned therein, including Midway Island, Johnston Island, Palmyra Island, Kodiak, Alaska, and Sitka, Alaska; and

WHEREAS it appears that the interests of the national defense require the establishment of naval aviation bases at such places at the earliest practicable date; and

WHEREAS it further appears that it will be impossible to accomplish the work required in the establishment of such naval aviation bases at Midway Island, Johnston Island, Palmyra Island, Kodiak, Alaska, and Sitka, Alaska, because of the isolation of such places from sources of labor supply, within the time required by the interests of the national defense unless the provisions of law prohibiting more than eight hours labor in any one day of persons engaged upon work covered by contracts with the United States are suspended as to such work; and

WHEREAS the act of March 4, 1917, 39 Stat. 1168, 1192 (U. S. C., title 40, sec. 326), provides "That in case of national emergency the President is authorized to suspend provisions of law prohibiting more than eight hours labor in any one day of persons engaged upon work covered by contracts with the United States"; and

WHEREAS I find that by reason of the foregoing a national emergency exists:

NOW, THEREFORE, under and by virtue of the authority vested in me by the above-quoted provisions of the said act of March 4, 1917, I hereby suspend the provisions of law prohibiting more than eight hours labor in any one day of persons engaged upon work covered by contracts with the United States as to all work authorized and performed under the said Act of April 25, 1939, at or in the vicinity of the following places: Midway

AMENDING THE FOREIGN SERVICE REGULATIONS OF THE UNITED STATES

By virtue of and pursuant to the authority vested in me by section 1752 of the Revised Statutes of the United States (22 U.S.C. § 132), it is ordered that the Foreign Service Regulations of the United States be, and they are hereby, amended by prescribing the following as Chapter II thereof:

CHAPTER II

**DIPLOMATIC AND CONSULAR BRANCHES OF
THE FOREIGN SERVICE**

II-1. Diplomatic officers. (a) *Definition.* The term "diplomatic officers" shall include ambassadors, ministers (whether plenipotentiary or resident), diplomatic agents, *chargés d'affaires*, *chargés d'affaires ad interim*, counselors of embassy or legation, and secretaries of embassy or legation.

(b) *Functions.* Diplomatic officers shall perform the following functions within the countries to which they are accredited:

(1) Establish and maintain friendly relations between the Government and people of the United States and the government and people of the country to which they are accredited

(2) Keep the Government of the United States informed regarding political and economic developments abroad, particularly those affecting its interests

(3) Extend protection to American citizens and promote just American interests in every proper manner

(4) Interpret faithfully the viewpoint of the American Government in any question at issue.

II-2. Diplomatic representatives. The term "diplomatic representatives" shall denote the following classes of diplomatic officers:

(a) Ambassadors extraordinary and plenipotentiary, and special and high commissioners with the rank of am-

bassadors extraordinary and plenipotentiary

(b) Envoys extraordinary and ministers plenipotentiary, and special and high commissioners with the rank of envoys extraordinary and ministers plenipotentiary

(c) Ministers resident

(d) Chargés d'affaires commissioned by the President as such and accredited by the Secretary of State to the Minister for Foreign Affairs of the government to which they are sent.

II-3. *Preliminaries before departure for post.* After the appointment of a diplomatic representative and the filing of the prescribed oath of office, he shall be given his commission, furnished with his credentials and other necessary papers, and given such general and special instructions as the Secretary of State may deem necessary for his guidance.

II-4. *Presentation of credentials.* Upon the arrival at the seat of mission, the newly appointed diplomatic representative shall request, through the actual incumbent of the mission, an informal conference with the Minister for Foreign Affairs, or such other officer of the government to which he is accredited as may be found authorized to act in the premises, in order to arrange for his official reception. He shall at the same time, in his own name, address a formal note to the Minister for Foreign Affairs, communicating the fact of his appointment and requesting the designation of a time and place for presenting his letter of credence and the letter of recall of his predecessor.

When the representative is accredited by the President to the Chief of State, he shall, on requesting audience for the purpose of presenting the original sealed letter of credence in person, communicate to the Minister for Foreign Affairs the open office copy thereof accompanying his original instructions.

If the diplomatic representative be of the rank of chargé d'affaires, bearing a letter of credence addressed to the Minister for Foreign Affairs, he shall, on addressing to the Minister the formal note, convey to him the office copy of his letter of credence and shall await the Minister's pleasure for presentation of the original.

A copy of each letter of credence shall be prepared and placed in the files of the mission.

II-5. *Entry upon official duties.* The official duties of a diplomatic representative begin on the day of his formal reception by the Chief of State, or in the case of the chargé d'affaires by the Minister for Foreign Affairs. If the formal audience of reception is delayed, the Minister for Foreign Affairs may arrange for the transaction of diplomatic business with the new representative pending such reception.

II-6. *Procedure to be observed when visiting a neighboring capital.* When a diplomatic officer of the United States abroad visits the capital of a third country, he shall at once make his presence known to the representative of the United States by calling on him. If his stay is to be more than transitory, he shall call on the representative of the country to which he is accredited.

Any calls upon officials of the country, except those of a purely personal character, shall be made only upon the recommendation of the resident American representative.

II-8. *Consular officers.* The term "consular officers" shall include consuls general, consuls, Foreign Service officers commissioned as vice consuls, language officers, vice consuls, and consular agents.

When obtained, the exequatur, together with the commission, shall be transmitted by the diplomatic representative to the consulate to which the officer is assigned through the supervisory consulate general, if there is one.

If there is no diplomatic representative of the United States stationed in the country of assignment, the Department of State shall make other arrangements for procuring the exequatur.

(b) *Provisional recognition.* Upon the receipt of telegraphic or written instructions from the Department of State, the diplomatic representative shall request the government to which he is accredited for provisional recognition for either principal or subordinate consular officers. The date on which the request for recognition is communicated to the Foreign Office and the date of final recognition shall be communicated to the supervising consul general, if there is one, and to the consular office of assignment.

II-10. Entry on duties. A consular officer may enter upon his official duties upon the receipt of his exequatur or, when directed by the Department of State, without an exequatur upon the receipt of provisional recognition from the proper authorities.

Such regulations shall be in effect when approved by the President and shall remain in force until changed by new regulations approved by him. The President will prescribe regulations governing the conduct of the business of the division of The White House Office.

V

The Director of the Bureau of the Budget shall prepare a consolidated budget for the Executive Office of the President for submission by the President to the Congress. Annually, pursuant to the regular request issued by the Bureau of the Budget, each division of the Executive Office of the President shall prepare and submit to the Bureau estimates of proposed appropriations for the succeeding fiscal year. The form of the estimates and the manner of their consideration for incorporation in the Budget shall be the same as prescribed for other Executive departments and agencies.

The Bureau of the Budget shall likewise perform with respect to the several divisions of the Executive Office of the President such functions and duties relating to supplemental estimates, apportionments, and budget administration as are exercised by it for other agencies of the Federal Government.

now accommodated in the State, War and Navy Building, it then will be possible to bring into this building, close to The White House, all of the personnel of the Executive Office of the President except The White House Office.

EXECUTIVE ORDER 8267

AMENDMENT OF EXECUTIVE ORDER NO. 7242 OF DECEMBER 6, 1935, PRESCRIBING REGULATIONS GOVERNING HIGHWAYS, VEHICLES, AND VEHICULAR TRAFFIC IN THE CANAL ZONE

By virtue of and pursuant to the authority vested in me by sections 321 to 323 of title 2 of the Canal Zone Code, approved June 19, 1934, and by section 2 of the act of July 10, 1937, 50 Stat. 510,

Executive Order No. 7242 of December 6, 1935, prescribing regulations governing highways, vehicles, and vehicular traffic in the Canal Zone, is amended as indicated below.

1. Subdivision F of Article 5 of the said Executive order, consisting of a subdivision heading and sections 161 and 162, is hereby amended to read as follows:

"F. REGULATIONS APPLICABLE TO VEHICLES TRANSPORTING INFLAMMABLE LIQUIDS OR COMBUSTIBLE LIQUIDS IN BULK

"161. *Vehicles transporting inflammable liquids in bulk.*—Every motor vehicle used in the transportation on the highways of inflammable liquids in bulk, by which is meant any liquid in bulk which gives off inflammable vapors at or below a temperature of 80 degrees Fahrenheit, shall be equipped with the safety devices specified, and conform to the regulations prescribed, in this section:

"(a) *Bumpers.*—Every tank truck shall be provided with properly attached steel bumpers. The rear bumper or chassis extension shall be so arranged as to protect adequately the draw-off valves or faucets in case of collision.

"(b) *Vents.*—Every tank compartment shall be provided with a $\frac{3}{4}$ -inch vacuum and pressure-operated vent, and in addition thereto venting facilities of such size and capacity as will safely relieve such internal pressure as may be created by exposure fires.

"(c) *Draw-off valves or faucets.*—All draw-off valves or faucets shall have the discharge end threaded, or be otherwise so designed as to permit a tight connection with the hose extending to the fill pipe or service tank.

"(d) *Emergency shut-off valves.*—Each compartment of a gravity-discharge truck tank shall be equipped with a reliable and efficient emergency shut-off valve. These valves shall (1) be located in the compartment outlet inside the shell of the tank, (2) be mechanically kept closed except during delivery operations, and (3) be so interlocked with delivery operations that they will be manually closed when such operations are completed. The operating mechanism of these valves shall be so arranged that they can be manually closed either from the front or rear end of the tank. The mechanism at the rear end of the tank shall be provided with a fusible

point and a device that will automatically close the emergency shut-off valves in case of fire.

"(e) *Shear section*.—In every case there shall be provided, between the seat of the emergency shut-off valve and the discharge faucet, a shear section which will break under a strain and leave intact the seat of the valve.

"(f) *Metallic connection*.—The tank, chassis, axles, and springs shall be metallically connected.

"(g) *Drag chains*.—Tank trucks shall be equipped with drag chains long enough to reach the ground in order to drain off such static charges as may be generated by splashing of the contents or other causes. Drag chains shall not be fastened to the discharge pipes but to the chassis which is in metallic contact with the tank.

"(h) *Filling pipe*.—During the filling of the truck tank, or when discharging into service tanks, electrical contact shall be maintained between the truck tank and the filling pipe or service tank. This contact shall be effected by a bond wire metallically connected to the fill pipe or service tank and fastened to a binding post on the truck tank by any approved connection.

"(i) *Exemptions as to truck tanks in service on January 1, 1936*.—Gravity-discharge truck tanks in service in the Canal Zone on January 1, 1936, shall be exempt (1) from the requirement of paragraph (d) of this section that emergency shut-off valves be interlocked with delivery operations, (2) from the requirement of paragraph (d) of a device that will automatically close the emergency shut-off valves in case of fire, and (3) from the requirement of paragraph (e) of this section relative to shear sections.

"162. *Vehicles transporting combustible liquids in bulk*.—Every motor vehicle used in the transportation on the highways of combustible liquids in bulk, by which is meant any liquid in bulk having a flash point above 80 degrees Fahrenheit, shall be equipped with the safety devices specified, and shall conform to the regulations prescribed, in paragraphs (a), (b), and (c) of section 161 of this order."

2. Section 181 of the said Executive order is hereby amended to read as follows:

"181. *Punishment for violations*.—Any person who shall violate any of the provisions of this order, or of regulations prescribed hereunder, shall be punishable, as provided in section 323 of title 2 of the Canal Zone Code, as amended by section 2 of the act of July 10, 1937, 50 Stat. 510, by a fine of not more than \$100, or by imprisonment in jail for not more than thirty days, or by both."

EXECUTIVE ORDER 8298

REGULATIONS GOVERNING THE MANNER OF
EXECUTING AND RETURNING COMMISSIONS BY OFFICERS OF THE FOREIGN
SERVICE IN CRIMINAL CASES, AND SCHEDULE OF FEES AND COMPENSATION IN SUCH
CASES

By virtue of and pursuant to the authority vested in me by sections 3 (c) and 8 of the act of June 20, 1936, entitled "An Act Relating to the Admissibility in Evidence of Certain Writings and Records Made in the Regular Course of Business" (49 Stat. 1563, 1564; 28 U.S.C. Supp. secs. 695b (c), 695g), and by section 1752 of the Revised Statutes of the United States (22 U.S.C. sec. 132), I hereby prescribe the following regulations governing the manner in which officers of the Foreign Service shall execute and return commissions issued in criminal cases under the provisions of the said act of June 20, 1936, and the schedule of fees and compensation allowable in such cases:

1. *Execution and return of the commission.* Officers of the Foreign Service shall execute and return commissions to take testimony in connection with for-

eign documents issued in criminal cases under the authority of the said act of June 20, 1936, in accordance with sections 4 and 5 of that act (28 U.S.C. Supp. secs. 695c, 695d), and in accordance with any special instructions which may accompany the commission. For details not covered by such sections or by special instructions, officers of the Foreign Service shall be guided by such instructions as may be issued by the Department of State in connection with the taking of depositions generally.

2. Schedule of fees payable to witnesses, foreign counsel, and interpreters.

(a) *Witnesses.* Each witness whose testimony is obtained under a commission to take testimony in connection with foreign documents for use in criminal cases shall be entitled to receive compensation at the rate of \$5 a day for each day of attendance, plus 5 cents a mile for going from his place of residence or business to the place of examination and returning, by the shortest feasible route. When, however, it is necessary to procure the attendance of a witness on behalf of the United States or an indigent party, an officer or agent of the United States may negotiate with the witness to pay compensation at such higher rate as may be approved by the Attorney General, plus the mileage allowance stated above. The compensation and mileage of each witness shall be paid by the party, or parties, applying for the commission, unless the commission is accompanied by an order of court that all fees, compensation, and other expenses authorized by these regulations are chargeable to the United States under section 7 of the said act of June 20, 1936 (28 U.S.C. Supp. sec. 695f (b)).

(b) *Counsel.* Each counsel who represents a party to the action or proceeding in the examination before the commissioner shall receive compensation for each day of attendance at a rate of not less than \$5 a day and not more than \$25 a day, as agreed between him and the party whom he represents, plus such actual and necessary expenses as may be allowed by the commissioner upon verified statements filed with him. If the commission is issued on application of the United States, the compensation and expense of counsel representing each party are chargeable to the United States. If the commission is issued on application of any other party, the compensation and expense of coun-

sel shall be paid by the party whom such counsel represents, unless the commission is accompanied by an order of court that all fees, compensation, and other expenses authorized by these regulations are chargeable to the United States under section 7 of the said act of June 20, 1936 (28 U.S.C. Supp. sec. 695f (b)).

(c) *Interpreters and translators.* Each interpreter and translator employed by the commissioner under these regulations shall receive an allowance of \$5 a day, plus 5 cents a mile for going from his place of residence or business to the place of examination and returning, by the shortest feasible route. The compensation and mileage of interpreters and translators shall be chargeable to the United States.

3. *Time of payment.* Witnesses, counsel, interpreters, and translators shall be paid, in accordance with the foregoing regulations, by the commissioner at the conclusion of their services. Other expenses authorized by these regulations shall be paid by the commissioner as they are incurred.

4. *Payment of fees by the United States.* When it appears that the commission was issued on application of the United States or when the commission is accompanied by an order of court that all fees, compensation, and other expenses authorized by these regulations are chargeable to the United States under section 7 of the said act of June 20, 1936 (28 U.S.C. Supp. sec. 695f (b)), the commissioner shall execute the commission without charge for his service as commissioner in connection therewith.

The commissioner shall pay witnesses, counsel, interpreter, or translator, and other expenses authorized by these regulations from the proceeds of a separate draft drawn, when so authorized, upon the Secretary of State, and he shall forthwith render a separate detailed account of such payments, supported by properly receipted vouchers, to the Department of State.

5. *Payment by other parties.* Whenever fees, compensation, and other expenses authorized by these regulations are chargeable to any party other than the United States, the commissioner shall be instructed by the Department of State to undertake the execution of the commission only if such party deposits with the Department of State, in advance, an amount to be set by the

court, apparently adequate to defray all fees, compensation, and other expenses authorized by these regulations. If the amount of the deposit is later found to be insufficient, the commissioner shall so notify the Department of State and shall retain the commission and other papers until he is notified by the Department that a sufficient amount has been deposited. If the amount of the deposit exceeds the aggregate amount of fees, compensation, and other expenses authorized by these regulations, the Department shall return the excess to the party, or parties, entitled thereto.

The commissioner shall pay witness, counsel, interpreter, translator, and other expenses authorized by these regulations from the proceeds of a separate draft drawn, when so authorized, upon the Secretary of State, and he shall forthwith render a separate detailed account of such payments, supported by properly receipted vouchers, to the Department of State.

EXECUTIVE ORDER 8360

AMENDMENT OF PARAGRAPH 1, SUBDIVISION
VI, SCHEDULE B OF THE CIVIL SERVICE
RULES

By virtue of and pursuant to the authority vested in me by paragraph Eighth, subdivision SECOND, section 2 of the Civil Service Act (22 Stat. 403, 404), it is ordered that paragraph 1, Subdivision VI, Schedule B of the Civil Service Rules be, and it is hereby, amended to read as follows:

"1. Classified positions in the Custodian Service and at the Coast Guard Depot, Curtis Bay, Maryland, when filled by the promotion of unclassified laborers appointed under the Labor Regulations, subject to the approval of the Commission."

This order is recommended by the Civil Service Commission in view of the agreement by the Treasury Department that hereafter unclassified laborer positions in these services where Labor Regulations are in effect will be filled through appointment from appropriate classified registers as provided in section 3 of Civil Service Rule II. status nor render them eligible for transfer to classified positions in other branches of the Federal service.

EXECUTIVE ORDER 8384

PRESCRIBING REGULATIONS RELATING TO ANNUAL LEAVE OF GOVERNMENT EMPLOYEES

By virtue of and pursuant to the authority vested in me by section 7 of the act of March 14, 1936, entitled "An Act to provide for vacations to Government employees, and for other purposes" (49 Stat. 1161) as amended by the act of March 2, 1940, entitled "An Act to amend the Annual and Sick Leave Acts of March 14, 1936" (Public No. 419, 76th Congress, 3rd Session), I hereby prescribe the following regulations governing the granting of annual leave to civilian officers and employees of the United States, the District of Columbia, and all corporations included within the provisions of section 6 of the aforesaid act of March 14, 1936, except as provided in Part III hereof:

PART I. DEFINITIONS

SEC. 1. As used in these regulations:

(a) "Employee" and "employees" include officer and officers, respectively.

(b) "Permanent employees" are those appointed without limitation as to length of service or for definite periods in excess of 6 months.

(c) "Temporary employees" are those appointed for definite periods of time not exceeding 6 months.

(d) "Emergency employees" are those whose compensation is paid from emergency funds and whose tenure of appointment is limited to the period for which the emergency funds are available.

(e) "Indefinite employees" are those appointed for the "duration of the job" and those who, although paid only when actually employed, are continuously employed or required to be available for duty for a period of not less than one month, as distinguished from part-time or intermittent employees.

(f) "Accumulated leave" means the unused annual leave not exceeding 60 days which has accrued during years prior to the current year.

(g) "Current annual leave" means the leave authorized by statute for the current year.

(h) "Current accrued leave" means that part of the current annual leave which bears the same ratio to the current annual leave that the expired part of the current year bears to the full year.

(i) "Unaccrued leave" means that part of the current annual leave which bears the same ratio to the current annual leave as the unexpired part of the current year bears to the full year.

PART II. GENERAL PROVISIONS

SEC. 2. Permanent employees who have been employed continuously for one year or more and who do not contemplate leaving the service during the current calendar year shall be entitled to current annual leave with pay at any time during such calendar year not in excess of 26 days. In addition to current annual leave such employees may be granted accumulated leave not to exceed 60 days.

SEC. 3. Leave shall be granted at such time or times as may be deemed to be in the public interest.

SEC. 4. (a) Unaccrued leave shall be granted only with the express understanding that if such leave is not later earned during the calendar year, deductions will be made for the unearned portion from any salary due the employee, or from any deductions in the retirement fund to the credit of the employee.

(b) In cases of separation where an employee is indebted to the Government for advanced annual leave, such indebtedness shall be charged against the employee on the basis of the salary rate obtaining during the period of advanced annual leave and on the basis of

one day's pay for each day of absence on a day upon which such employee would otherwise work and receive pay, such days of absence being exclusive of Sundays which do not occur within a regular tour of duty, holidays, and all non-work days established by Federal statute or by Executive or administrative order. Absences for fractional parts of a day shall be charged proportionately. This subsection shall not apply in cases of death, retirement for age or disability, or reduction of force, or in case an employee who is not eligible for retirement is unable to return to duty because of disability, evidence of which shall be supported by an acceptable certificate from a registered practicing physician or other practitioner.

SEC. 5. Employees, other than temporary, entering the service by original appointment or by reinstatement shall be entitled to annual leave with pay accruing at the rate of $2\frac{1}{6}$ days for each month of service rendered until the completion of one year's service. Emergency and indefinite employees shall be entitled to annual leave with pay accruing at the rate of $2\frac{1}{6}$ days per month for each month of service, and may in addition thereto be granted accumulated leave.

SEC. 6. An employee transferred or reappointed without break in service from one permanent, emergency, or indefinite position to another permanent, emergency, or indefinite position within the same or a different governmental agency shall at the time of his transfer or reappointment be credited with such accumulated and current accrued leave as may be due him, or charged with any unaccrued leave which may have been advanced, provided such latter position is also within the purview of the said act of March 14, 1936. An employee transferred or appointed without break in service from one permanent, emergency, or indefinite position within the purview of the said act of March 14, 1936, to another position or employment in the Federal service which is not within the purview of that act, shall be credited with all leave accumulated and accrued on the date of such transfer or appointment at such time as he may be subsequently retransferred or reappointed to a position within the purview of that act,

provided such subsequent retransfer or reappointment is also without break in service. "Break in service" means separation from the Federal service for a period of one or more work days.

SEC. 7. An employee voluntarily separated from the service without prejudice during any calendar year shall be entitled to all of his accumulated leave plus his current accrued leave to and including the date of separation.

SEC. 8. An employee who is involuntarily separated from the service other than for cause due to his own misconduct shall be entitled to all of his accumulated leave and current accrued leave, and the date of his discharge shall be fixed so as to permit him to take such leave. The date of discharge of an employee separated from the service for cause due to his own misconduct may, within the discretion of the administrative office concerned, be fixed so as to permit the allowance of all or any part of accumulated leave and current accrued leave.

SEC. 9. Leave without pay shall not be granted until all accumulated and current accrued leave allowable under these regulations is exhausted, except that

(a) An employee injured in line of duty may be granted leave without pay, if desired, covering the period of absence necessary to recover from such injury, instead of covering such time by annual leave; and during absence because of such injury and while being paid by the Employees' Compensation Commission, such an employee shall continue to earn leave, which shall, however, be granted only in the event of his return to actual duty.

(b) An employee who is ordered to active military, naval or Coast Guard duty may, prior to the exhaustion of his accumulated and current accrued leave, be granted leave or furlough without pay during all or any portion of the period necessary to perform such duty.

SEC. 10. Annual leave shall accrue to an employee while in a leave-with-pay status. Except as provided in section 9 hereof, annual leave shall not accrue to an employee while in a non-pay status due to leave without pay or furlough when the duration of such non-pay status in any calendar year aggregates 30 cal-

endar days or more: *Provided*, that when the duration of such non-pay status is in excess of 30 calendar days in any calendar year, such excess shall affect the accrual of annual leave only when it aggregates 10 calendar days, and likewise for each aggregate period of 10 calendar days thereafter. Annual leave shall not accrue during any period of suspension for disciplinary reasons.

SEC. 11. Employees shall be charged with annual leave only for absences on days upon which they would otherwise work and receive pay. No charge shall be made against annual leave for absence on Sundays which do not occur within a regular tour of duty, holidays, and non-work days established by Federal statute or by Executive or administrative order: *Provided*, that in the case of employees whose terms or conditions of employment require that they regularly work on a Sunday or holiday and be off duty on another day of the week in lieu thereof, the Sunday or holiday occurring within a period of annual leave shall be charged as annual leave and the lieu day shall not be so charged.

SEC. 12. The minimum charge for annual leave shall be 15 minutes, and additional leave shall be charged in like multiples. Annual leave granted for less than one day shall be charged in the ratio that the amount of annual leave granted bears to the number of work hours of the regular work day prevailing in the agency concerned. For the purposes of this section, Saturdays and part holidays shall not be considered regular work days, except as may be required under section 11 hereof.

SEC. 13. Annual leave shall not be granted with pay at the beginning of a calendar year immediately following a period of absence in a non-pay status in the preceding year unless and until there is a return to duty, at which time leave may be retroactively granted. Leave without pay under any other circumstances may not later be converted into annual leave.

SEC. 14. Temporary employees shall be granted 2½ days leave for each full month of service. After the first month of service such leave may be credited at the beginning of the month in which it accrues. Temporary employees shall be charged with annual leave only for ab-

sence on days upon which they would otherwise work and receive pay. No charge shall be made against annual leave for absence on Sundays which do not occur within a regular tour of duty, holidays, and non-work days established by Federal statute or by Executive or administrative order.

SEC. 15. Temporary employees who subsequently receive indefinite, emergency, probational, or permanent appointments in the same department or agency without break in service shall be entitled to 2½ days annual leave for each full month of service to the date of such indefinite, emergency, probational, or permanent appointment and thereafter at the rate of 2⅙ days per month, and shall be credited with such accumulated and current accrued leave as may be due, or charged with any unaccrued leave which may have been advanced.

SEC. 16. However, any department may, if it so desires, apply these regulations to employees stationed without the continental limits of the United States, subject to the continuance of such leave differential.

EXECUTIVE ORDER 8385

PREScribing REGULATIONS RELATING TO SICK LEAVE OF GOVERNMENT EMPLOYEES

By virtue of and pursuant to the authority vested in me by section 7 of the act of March 14, 1936, entitled "An Act to standardize sick leave and extend it to all civilian employees" (49 Stat. 1162) as amended by the act of March 2, 1940, entitled "An Act to amend the Annual and Sick Leave Acts of March 14, 1936" (Public No. 419, 76th Congress, 3rd Session), I hereby prescribe the following regulations governing the granting of sick leave to civilian officers and employees of the United States, the District of Columbia, and all corporations included within the provisions of section 6 of the aforesaid act of March 14, 1936, except as provided in Part III hereof:

PART I. DEFINITIONS

SEC. 1. As used in these regulations "employee" and "employees" shall include:

- (a) Officer and officers, respectively.
- (b) Permanent employees—those appointed without limitation as to length

of service or for definite periods in excess of six months.

(c) Temporary employees—those appointed for definite periods of time not exceeding six months.

(d) Emergency employees—those whose compensation is paid from emergency funds and whose tenure of appointment is limited to the period for which the emergency funds are available.

(e) Indefinite employees—those appointed for the "duration of the job" and those who, although paid only when actually employed, are continuously employed or required to be available for duty for a period of not less than one month, as distinguished from part-time or intermittent employees.

PART II. GENERAL PROVISIONS

SEC. 2. Sick leave with pay shall be granted to employees when they are incapacitated for the performance of their duties by sickness, injury, or pregnancy and confinement, or when some member of the immediate family of the employee is afflicted with a contagious disease and requires the care and attendance of the employee, or when, through exposure to contagious disease, the presence of the employee at his post of duty would jeopardize the health of others.

SEC. 3. Except as provided in section 4 hereof, employees shall be entitled to sick leave at the rate of 1½ days a month, and if such leave is not used it shall accumulate: *Provided*, that the total accumulation shall not exceed 90 days. Sick leave accruing during any month of service shall be available at any time during the month.

SEC. 4. In cases of serious disability or ailments, and when the exigencies of the situation so require, sick leave may be advanced not in excess of 30 days in addition to the unused sick leave that has accumulated to the credit of the employee: *Provided*, that temporary employees shall not be entitled to an advance of sick leave: *And provided further*, that no advances of sick leave shall be made to any employee unless the absence from duty on account of illness is for a period, or periods, of not less than 5 consecutive work days, except that advanced leave in a less amount may be granted to

¹ 3 F.R. 613.

² 3 F.R. 905.

supplement accrued leave to cover a continuous absence of 5 work days or more; that every case of advanced leave shall be supported by a certificate of a registered practicing physician or other practitioner; that the total of such advances shall not at any time exceed 30 days in excess of the accumulated sick leave; and that such advances shall be charged against sick leave subsequently accumulating.

SEC. 5. When an employee applies for sick leave in excess of the amount accumulated to his credit and the circumstances do not justify such an advance, the excess leave applied for, if granted and used, shall be charged against any unused annual leave to which the employee is entitled, or, if there is no unused annual leave, the excess shall be charged as leave without pay, and such excess leave, however charged, shall not thereafter be converted into either sick or annual leave subsequently accumulating.

SEC. 6. Sick leave shall not be advanced in an amount that would exceed the total that would accumulate during the period from the date of the advance to the termination of a limited appointment (not temporary in character) or one expiring on a specified date.

SEC. 7. Advanced sick leave may be granted irrespective of whether the employee has to his credit unused annual leave.

SEC. 8. Sick leave shall not be granted for slight illness or indisposition not incapacitating the employee for the performance of his regular duties, or for absence for the purpose of being treated professionally by a dentist or oculist in his office; but sick leave may be granted for detention at home or in a hospital by illness or disability due to causes as to which a dentist or oculist is qualified to certify.

SEC. 9. An employee transferred or reappointed without break in service from one permanent, emergency or indefinite position to another permanent, emergency or indefinite position within the same or a different governmental agency shall at the time of his transfer or reappointment be credited with accumulated sick leave, and charged with sick leave previously advanced in excess of

that accumulated, provided such latter position is also within the purview of the said act of March 14, 1936. An employee transferred or appointed without break in service from one permanent, emergency, or indefinite position within the purview of the said act of March 14, 1936, to another position or employment in the Federal service which is not within the purview of that act, shall be credited with all leave, accumulated and accrued on the date of such transfer or appointment at such time as he may be subsequently retransferred or reappointed to a position within the purview of that act, provided such subsequent retransfer or reappointment is also without break in service. "Break in service" means separation from the Federal service for a period of one or more work days.

SEC. 10. Sick leave shall accrue to an employee while in a leave-with-pay status. Sick leave shall not accumulate to an employee while in a non-pay status due to leave without pay or furlough when the duration of such non-pay status in any calendar year aggregates 30 calendar days or more: *Provided*, that when the duration of such non-pay status is in excess of 30 calendar days in any calendar year, such excess shall affect the accumulation of sick leave only when it aggregates 10 calendar days, and likewise for each aggregate period of 10 calendar days thereafter. Sick leave shall not accrue during any period of suspension for disciplinary reasons.

SEC. 11. In the case of voluntary separation or removal for cause of an employee to whom sick leave has been advanced in an amount in excess of that accumulated, the employee shall refund the amount paid him for the period of such excess, or deduction therefor shall be made from any salary due him or from any amount in the retirement fund to his credit. Such indebtedness shall be charged against the employee on the basis of the salary rate obtaining during the period of advanced sick leave and on the basis of one day's pay for each day of absence on a day upon which the employee would otherwise work and receive pay, such days of absence being exclusive of Sundays which do not occur within a regular tour of

duty, holidays, and all non-work days established by Federal statute or by Executive or administrative order. Absences for fractional parts of a day shall be charged proportionately. This section shall not apply in cases of death, retirement for age or disability, or reduction of force, or in case an employee who is not eligible for retirement is unable to return to duty because of disability, evidence of which shall be supported by an acceptable certificate from a registered practicing physician or other practitioner.

SEC. 12. Employees shall be charged for sick leave only for absence on account of illness on days upon which they would otherwise work and receive pay. Absence on account of illness on Sundays not occurring within a regular tour of duty, on holidays, and on all non-work days established by Federal statute or Executive or administrative order shall not be charged as sick leave.

SEC. 13. The minimum charge for absence on account of sickness shall be one-half of a regular work day, which minimum charge shall likewise apply on Saturdays or other days on which four hours constitute a full work day; and additional sick leave authorized on the same day shall be charged in multiples of one-half hour.

SEC. 14. Notification of absence on account of sickness shall be given as soon as possible on the first day of absence. If such notification is not made in accordance with this regulation, such absence may be charged to annual leave or leave without pay. Application for sick leave shall be filed within two days after return to duty. For periods of absence of 3 work days or less, the total of which shall not exceed 12 work days in any one calendar year, the applicant's signed statement on a prescribed form may be accepted.

SEC. 15. In case of a period of absence in excess of 3 work days a certificate of a registered practicing physician or other practitioner supporting the application for sick leave shall be filed not later than fifteen days after return to duty. In remote localities where such certificate cannot reasonably be obtained, the applicant's signed statement as to the nature of the illness and the reason why

a certificate is not furnished may be accepted.

SEC. 16. When sickness continuing for more than 5 work days occurs within a period of annual leave, the period of illness may, upon presentation of the certificate of a registered practicing physician or other practitioner, be charged as sick leave, and the charge against annual leave reduced accordingly. No such charge against sick leave shall be made for illness which does not last more than 5 work days. Application for such substitution of sick leave for annual leave shall be made within 2 days after the expiration of the annual-leave period: *Provided*, that this provision may be waived by the head of the department or agency concerned.

SEC. 17. Sick leave may not be granted for a period immediately following a period of absence in a non-pay status, unless and until there is a return to actual duty, nor may such leave without pay be converted into sick leave.

SEC. 18. Sick leave accumulated during temporary appointment shall be credited to an employee who receives an indefinite, emergency, probational, or permanent appointment in the same department or agency without break in service but shall not be transferable elsewhere under any circumstances.

SEC. 19. In the case of an employee who was not entitled to sick leave under prior law, but who is now entitled thereto, sick leave as accumulated may be substituted for leave without pay or annual leave taken because of illness between January 1 and March 14, 1936.

SEC. 20. Sick leave taken in excess of $1\frac{1}{4}$ days a month during the period between January 1 and March 14, 1936, shall be charged against sick leave subsequently accumulating.

SEC. 21. Nothing in these regulations shall be construed to prevent the continuance of any sick leave differential existing prior to January 1, 1936, for the benefit of employees of the Federal Government stationed without the continental limits of the United States. However, any department may, if it so desires, apply these regulations to employees stationed without the continental limits of the United States, subject to the continuance of such leave differential.

SEC. 22. The heads or governing bodies of the various governmental agencies to which this order applies shall be responsible for the proper administration of these regulations in so far as they pertain to the granting of sick leave to employees under their respective jurisdiction; and they may, within the limits authorized by law, issue such regulations as are not inconsistent with these regulations.

PART III. EMPLOYEES EXCEPTED

SEC. 23. These regulations shall not apply to:

(a) Teachers and librarians of the public schools of the District of Columbia.

(b) Officers and members of the police and fire departments of the District of Columbia, other than civilian personnel.

(c) Officers and employees of the Panama Canal and Panama Railroad on the Isthmus of Panama.

(f) Persons paid security or prevailing wages from funds allotted by the Work Projects Administration, Federal Works Agency, on a state, municipal, or other public but non-Federal project or on a Federal project: *Provided*, that sick leave shall be granted in accordance with these regulations to employees in the central office of the Work Projects Administration, Federal Works Agency, in the District of Columbia and at district and local headquarters, and to other employees in administrative or clerical positions who receive other than security or prevailing wages as prescribed in Executive Orders.

(g) Employees not required to be continuously employed during regular tour of duty, such as: (1) Per diem or per hour employees engaged in an emergency who may be employed for more than one 7- or 8-hour shift within 24 hours during the emergency; (2) part-time or intermittent employees; (3) persons engaged under contract; (4) employees engaged temporarily for less than a month on a piece-price basis; (5) employees who are

paid at hourly rates but who are not engaged on construction work, such as mechanics, skilled laborers, and others engaged in many services on maintenance, repair, clean-up work, and the like, where employment is more or less intermittent and not on a regular or continuous basis; and (6) employees paid on a fee basis, such as physicians, surgeons, and other consultants.

PART IV. RATIFICATION; REVOCATION; EFFECTIVE DATE

SEC. 24. All temporary regulations issued by the heads of the various departments and independent establishments under authority of Executive Order No. 7321 of March 21, 1936, are hereby ratified. All such temporary regulations and all other regulations relating to the granting of sick leave are hereby revoked in so far as they are inconsistent with these regulations.

SEC. 25. This order shall supersede Executive Orders No. 7846 of March 21, 1938,¹ No. 7880 of May 9, 1938,² and No. 8227 of August 24, 1939, and shall be effective as of March 2, 1940, except that section 9 shall be effective as of July 1, 1936, provided that the total amount of leave to the credit of any employee resulting from an adjustment of such leave on the basis of the regulations as herein amended shall not exceed the amount authorized to be accumulated by law.

EXECUTIVE ORDER 8429

DOCUMENTS REQUIRED OF BONA FIDE ALIEN SEAMEN ENTERING THE UNITED STATES

By virtue of and pursuant to the authority vested in me by the act of May 22, 1918, 40 Stat. 559, as extended by the act of March 2, 1921, 41 Stat.

¹ See Chapter IV.

1205, 1217, I hereby prescribe the following regulations governing the entry of alien seamen into the United States:

PART I

Seamen whose occupational status as such is found to be bona fide, entering ports of the United States solely in pursuit of their calling as seamen, may be admitted temporarily in the discretion of the immigration authorities and under regulations prescribed by the department head charged with the administration of the immigration laws without passports or visas if arriving in the United States under the following circumstances:

(a) Seamen who were members of the crew of an American vessel which has been sold and delivered abroad, when the contract of employment provides for the return of the crew, or the laws of the United States provide for their return to an American port.

(b) Seamen who have been lawfully admitted into the United States for permanent residence returning to the United States in accordance with the terms of the articles of outward voyage.

(c) Shipwrecked or cast-away seamen rescued by or transferred to a vessel bound to an American port.

(d) Seamen who are American consular passengers or are repatriated without expense to the United States Government following and in accordance with the terms of their discharge in a foreign port before an American consular officer, but who, for any reason, can not be considered as serving as seamen on the vessel on which they arrive at an American port.

PART II

Masters of maritime vessels (except government vessels and such other vessels as the Secretary of State, in his discretion, may indicate) of all nationalities sailing for a port of the United States must submit for visa a list of all the alien members of the vessel's crew to the American consular officer at the port from which the vessel commences its voyage. If there is no consular offi-

cer stationed at that port, but there is one stationed at a nearby place to whom the list may be submitted by mail for visa without delay of the vessel's departure, the list must be so submitted for visa. If there is no American consular officer stationed nearby, the list must be submitted for visa at the first port of call where an American consular officer is stationed, but if the vessel does not call at any such port then no visa of the crew list will be required. The visa of a shipping commissioner in the Canal Zone shall be equivalent to the visa of an American consular officer, but consular agents are not authorized to visa crew lists. The visaed crew list must be delivered to the immigration authorities at the vessel's first port of call in the United States.

Alien seamen whose names are not on a visaed crew list when a visaed crew list is required of the vessel on which they arrive at a port of the United States shall not be allowed to land without the permission of the Secretary of State, except that for such seamen arriving at a port in the Virgin Islands the Governor thereof is authorized to grant such permission.

An alien seaman who is not exempt from the passport and visa requirements under Part I hereof shall be required to present an identifying travel document in the nature of a passport, showing his nationality and identity and bearing his fingerprints, before he may be granted shore leave for any purpose. The travel document shall be surrendered to the immigration authorities by each seaman at the time of landing and returned to him, upon personal application, at the time of departure.

As used in this order, the term "United States" shall include the territories of Alaska and Hawaii, the District of Columbia, Puerto Rico and the Virgin Islands.

The Secretary of State and the department head charged with the administration of the immigration laws are hereby authorized to make such additional rules and regulations, not inconsistent with this order, as may be deemed necessary for carrying out the provisions of this order and the statutes mentioned therein.

This order shall take effect immediately and shall supersede and cancel

(a) To protect the interest of the Government in such special additional equipment and facilities, the cost, or portion of the cost, of which is borne by the Government and is chargeable against the contract or subcontract in accordance with the provisions of section 4 of the above-mentioned Act; and

EXECUTIVE ORDER 8512

**REGULATIONS PERTAINING TO BUDGETARY
ADMINISTRATION AND FINANCIAL REPORT-
ING**

By virtue of the authority vested in me by the Budget and Accounting Act, 1921, approved June 10, 1921 (42 Stat. 20), and as President of the United States, I hereby prescribe the following regulations with respect to the compilation and reporting of information on the financial condition and operations of the Government and with respect to the budgetary control of expenditures:

SECTION 1. The term "agencies" as used in this order shall include executive departments and independent establishments and corporations in which the United States has a proprietary interest, direct or indirect, except Federal savings and loan associations and those corporations in which the proprietary interest of the United States is evidenced only by preferred stock or capital notes acquired through the Reconstruction Finance Corporation or production credit corporations.

SECTION 2. The Secretary of the Treasury shall prepare and transmit to the Director of the Bureau of the Budget, for the information of the President, such financial reports as may be necessary or desirable to make known in all practicable detail the financial condition and operations of the Government and its various agencies; and he shall prepare and furnish to the Director of the Bureau of the Budget such other reports relating to the financial activities of the Government and the status of appropriations or funds and the apportionments thereof as the Director may require for the compilation of the budget or for other purposes of budgetary administration. The above-described reports shall relate to such periods of time as the Director of the Bureau of the Budget may designate and shall include such information as the Director may determine to be necessary and desirable for adequate budgetary and executive control.

SECTION 3. The Secretary of the Treasury shall establish, as soon as practicable, and maintain such accounting records as are necessary to coordinate and integrate the financial data reported by agencies as

required herein with the financial data of the Treasury Department and to provide a basis for the expeditious compilation and prompt submission of the financial reports required to be furnished to the Director of the Bureau of the Budget. These accounting records shall be operated, on the double-entry principle of bookkeeping, as a summary but complete system of central accounts for the entire Government; and they shall be so established by the Secretary of the Treasury as to effect suitable coordination with the accounting systems prescribed by the Comptroller General of the United States under authority of section 309 of the Budget and Accounting Act, 1921.

SECTION 4. The several agencies shall furnish the Secretary of the Treasury such information and data relating to their financial condition, activities, and operations as may be required to enable the Treasury Department to maintain the accounting records and prepare the financial reports necessary for compliance with the provisions of this order, and shall furnish such information relative to their accounting principles and practices as the Secretary of the Treasury may require for the proper processing of the data reported by such agencies.

SECTION 5. The head of each agency shall, under such rules and regulations as the Director of the Bureau of the Budget may prescribe, submit to the Bureau of the Budget recommendations for the apportionment of each appropriation made to such agency, and such apportionments, when approved by the Director, shall be binding upon the agency concerned in controlling its budgetary plans and rate of expenditures, subject only to revision of such apportionments by the Director. No agency shall make expenditures or involve the Government in any contract or other obligation for the future payment of money in excess of the amount currently available therefor under the apportionments so approved or revised: *Provided*, however, that such apportionments may be exceeded when such action is necessary to prevent the loss of life or Government property; and in such cases the head of the agency concerned shall promptly justify such action in writing to the Director of the Bureau of the Budget. The provisions of this section shall be applicable to the amounts

made available by the Congress for the administrative expenses of governmental corporations.

SECTION 6. The following specific requirements shall be observed by all agencies in reporting the financial data required under the provisions of this order:

(a) The reports of financial condition and operations shall reflect all uncollected revenues and other amounts owed to the Government, whether assessed, due, or accrued, and also all bonded or other indebtedness of the Government, whether due or accrued, including all current liabilities. Such reports shall also reflect, so far as ascertainable, all contingent liabilities of the United States and its corporate and other instrumentalities.

(b) A uniform accounting terminology and uniform classifications of assets and liabilities, and revenues and expenditures shall be employed. Such classifications shall, so far as practicable, distinguish between expenditures which are of a recoverable nature, such as loans and investments, and those of a nonrecoverable nature.

(c) Uniform standards shall be employed, to the fullest extent practicable, in the valuation of assets and the determination of liabilities and the treatment of revenues and expenditures in relation thereto.

(d) The data shall be compiled on the basis of the accounting records of the respective agencies, or shall be susceptible of ready reconciliation therewith.

SECTION 7. The uniform terminology, classifications, principles, and standards referred to in this order shall be established by the Secretary of the Treasury with the approval of the Director of the Bureau of the Budget and shall be observed by all agencies in the financial reporting required by this order.

SECTION 8. The Director of the Bureau of the Budget is authorized, in accordance with the provisions of section 213 of the Budget and Accounting Act, 1921, to analyze the financial records of any agency in order to secure such information as the Bureau of the Budget may require for the formulation or revision of reporting requirements or for assuring compliance therewith.

SECTION 9. Executive Orders No. 5614 of May 1, 1931, No. 6226 of July 27, 1933, No. 6869 of October 10, 1934, No. 7126 of August 15, 1935, as amended, and all other orders or parts thereof inconsistent with the provisions of this order, are hereby revoked.

VOLUME ONE—ORGANIZATION AND ADMINISTRATION

SECTION I—GENERAL EXPLANATION

| | Paragraph |
|------------------------------------------------------------------------------------------------------------------|-----------|
| The purpose of selective service..... | 101 |
| The processes of selective service..... | 102 |
| The elements of the selective service system..... | 103 |
| The first paragraph in Volume One is numbered 101; the first paragraph in Volume Two is numbered 201; and so on. | |

101. *The purpose of selective service.* The purpose of Selective Service is to secure an orderly, just, and democratic method whereby the military manpower of the United States may be made available for training and service in the land and naval forces of the United States, as provided by the Congress, with the least possible disruption of the social and economic life of the Nation.

102. *The processes of selective service.* Selective Service involves these processes: Registration, classification and selection, and delivery for induction. Registration is the process by which all males subject to registration under the selective service law are listed by name, and constitutes an inventory of manpower for military purposes. Classification and selection is the process by which the relative availability of the individual men for military service is determined, and those who are most available are selected. Induction is the process by which the men selected for military serv-

ice pass from the status of civilians to the status of members of the land and naval forces of the United States.

The Elements of Selective Service System

103. *The elements of the Selective Service System.* The elements of the Selective Service System are shown on the accompanying chart (page 721). In general, the elements operate as follows. The election machinery, or other designated agencies, accomplishes the registration. The Local Board classifies registrants, and has assigned to it a physician to make physical examinations and a Government Appeal Agent to protect the interests of the Government and of registrants. An Advisory Board for Registrants is appointed to advise and assist registrants in filling out questionnaires, making appeals, etc. The Medical Advisory Board, made up of specialists, assists in determining doubtful cases of physical condition. The Board of Appeal reviews Local Board decisions as to classification when appeal is made. All of the above elements will be composed of, and administered by, civilians. The State Headquarters operates the Selective Service System within the State; the National Headquarters, within the nation.

SECTION II—DEFINITIONS

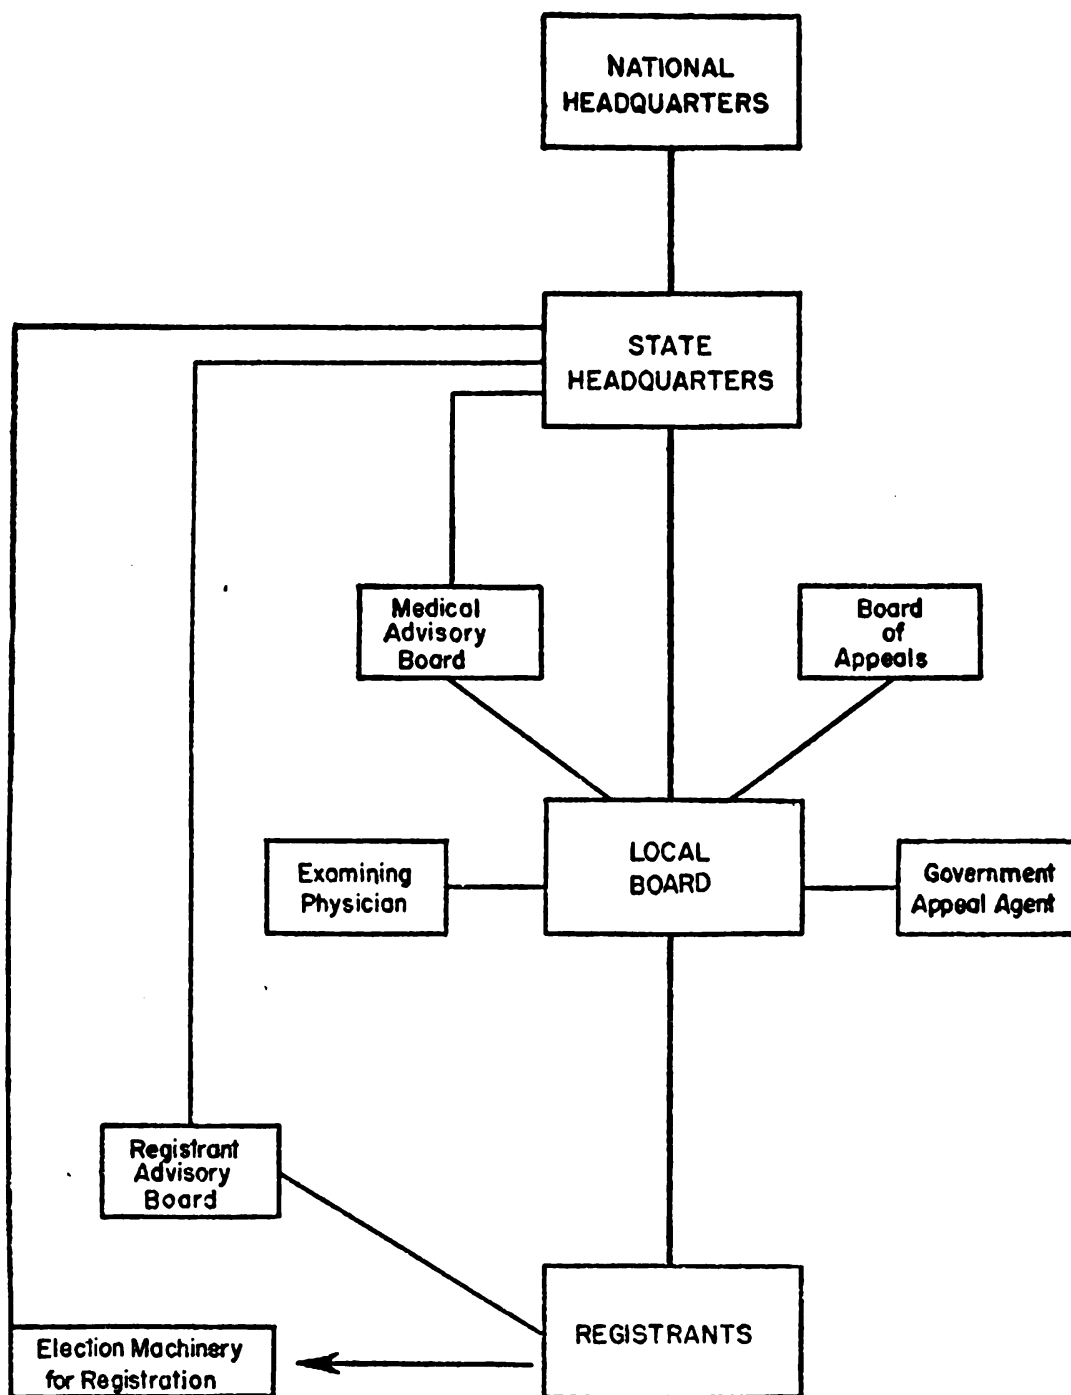

Definitions..... Paragraphs 104 to 121

104. *Definitions to govern.* The definitions contained in this section shall govern in the interpretation of the Selective Service Regulations.

105. *Selective service law.* The term "selective service law" includes the Selective Training and Service Act of 1940, and all acts and resolutions amending or supplementing that act, and all rules and regulations issued thereunder.

106. *Delinquent.* A "delinquent" is (1) any man, required under the selective service law and directions given pursuant thereto to present himself for and submit to registration on a certain day fixed by the President, who fails to so present himself and submit to registration on that day and has no valid reason for having failed to perform that duty; or (2) any registrant who prior to his induction into the military

ELEMENTS OF THE SELECTIVE SERVICE SYSTEM

service fails to perform at the required time, or within the allowed period of given time, any duty imposed upon him by the selective service law, and directions given pursuant thereto, and has no valid reason for having failed to perform that duty.

108. *State.* The word "State" includes, where applicable, States, Territories, and the District of Columbia.

109. *County.* The word "county" includes, where applicable, counties, independent cities, and similar subdivisions, such as the independent cities of Virginia, the parishes of Louisiana, and the towns of the New England States.

(See Vol. Five, "Finance.")

121. *State directors.* The Governor of each State is authorized to designate for appointment an official to whom he may delegate his administrative functions relating to selective service. This official, if so designated and appointed, shall be called the "State Director for Selective Service," and shall be in immediate charge of State headquarters.

| Local boards: Area..... | 125 |
| Local boards: Composition and appointment..... | 126 |
| Local boards: Designation..... | 127 |
| Local boards: Jurisdiction..... | 128 |
| Local boards: Organization..... | 129 |
| Local boards: Record of meetings..... | 130 |
| Local boards: Office..... | 131 |
| Local boards: Clerical assistance..... | 132 |
| Local boards: Interpreters..... | 133 |
| Local boards: Examining physician..... | 134 |
| Local boards: Government appeal agent..... | 135 |

125. *Local boards: Area.* Each State shall be divided into local board areas by the Governor. Each area should have a population of about 30,000. There shall be at least one separate local board area in each county.

126. *Local boards: Composition and appointment.* For each local board area a local board of three or more members shall be appointed by the President, upon recommendation of the Governor. The members shall be male citizens of the United States who are not members of the land or naval forces; they preferably should be residents of the area for which their board is appointed and, in any event, shall be residents of the county in which their local board has jurisdiction; and they should be at least 36 years old.

127. *Local boards: Designation.* Each local board shall be given a specific name or number, or both, by the Governor, and it shall be so known.

128. *Local boards: Jurisdiction.* The jurisdiction of each local board shall extend to all persons registered in, or subject to registration in, the area for which it was appointed, and to all persons whose

registration cards are duly transferred to it. It shall have full authority to do and perform all acts authorized by the selective service law. No member shall act on the case of a registrant who is his first cousin, or closer relation, either by blood or marriage, or who is an employee or employer, or stands in the relation of superior or subordinate in connection with any employment, or is a partner or close business associate, of the member. If because of this provision a majority of a board cannot act on the case of a registrant, the board shall transfer the registrant to another local board for action on his case. (See Volume Three, "Classification and Selection".)

129. *Local boards: Organization.* The local board shall meet as soon as possible after being appointed. Each member shall take the oath prescribed under these regulations (Form 21), which shall then be sent to the Governor for filing. The board shall elect a chairman and a secretary. A majority of the board shall constitute a quorum to transact business. A majority of those present shall decide any question. In case of a tie vote the board shall postpone action on the question until it can be decided by a majority vote. If any member is absent so long as to hamper the work of board, the board shall request the Governor to recommend appointment of a new member.

130. *Local boards: Record of meetings.* Each local board shall keep a record of each meeting of the board by making appropriate entries in the Minute Book (Form 101) provided.

131. *Local boards: Office.* Each local board shall select its own office. The location of the office may be changed by the Director of Selective Service upon recommendation of the Governor. (For leasing offices, see Vol. Five, "Finance".)

132. *Local boards: Clerical assistance.*
a. The local board is authorized to employ the clerical assistance provided for in Vol. Five, "Finance". Clerks shall take the prescribed oath (Form 21), which shall be sent to the Governor for filing.

b. The local board should consider the following qualifications, or their equivalent, as the minimum desirable for clerks. They should have a high school educa-

tion and three years of full-time clerical employment within the past ten years. They should be able to handle the records and paper work involved in classification, all of which must be kept with great care and accuracy. They should be typists. They should be loyal, be of good character and habits, and have good records in previous employment.

133. *Local boards: Interpreters.* When necessary, the board shall use interpreters. Interpreters shall take the prescribed oath (Par. 172).

134. *Local boards: Examining physician.* Each board will have assigned to it one physician appointed by the President, upon recommendation of the Governor. If more than one examining physician is needed, the board shall request the Governor to recommend the necessary additional appointment. All examining physicians shall take the prescribed oath (Form 21), which shall be sent to the Governor for filing. No examining physician shall examine for a board any registrant who is his first cousin, or a closer relation, either by blood or marriage, or who is an employee or employer, or stands in the relation of superior or subordinate in connection with any employment, or is a partner or close business associate, of the physician. The board shall request the Governor to recommend the appointment of another physician for such registrant, or shall use the examining physician of another board.

135. *Local boards: Government appeal agent.* For each local board, a government appeal agent shall be appointed by the President, upon recommendation of the Governor. He shall take the prescribed oath (Form 21), which shall be sent to the Governor for filing. The duties of the appeal agent are twofold. He shall protect the interests of registrants and their dependents by assisting them in the furnishing of information to the local board and by advising them concerning appeals. In order to protect the interests of the Government or of registrants, he shall appeal any classification he thinks should be appealed.

136. *Local boards: Employment and welfare agencies.* Immediately after its organization, the local board shall consult with local agents of State employ-

ment services and public welfare services. The Governor should instruct agencies and services to assist the local board in its classifying of registrants, by making investigations and furnishing information, as requested by the local board.

SECTION VI—BOARDS OF APPEAL

| | Paragraph |
|----------------------------------------------------|-----------|
| Boards of appeal: Area..... | 137 |
| Boards of appeal: Composition and appointment..... | 138 |
| Boards of appeal: Designation..... | 139 |
| Boards of appeal: Jurisdiction..... | 140 |
| Boards of appeal: Organization..... | 141 |
| Boards of appeal: Record of meetings..... | 142 |
| Boards of appeal: Office..... | 143 |
| Boards of appeal: Clerical assistance..... | 144 |

137. Boards of appeal: Area. Each state shall be divided into boards of appeal areas by the Governor. Each such area shall include whole local board areas and should have not more than 70,000 registrants as a result of the first registration.

138. Boards of appeal: Composition and appointment. For each board of appeal area, a board of appeal, normally of five members, shall be appointed by the President, upon recommendation of the Governor. The members shall be male citizens of the United States who are not members of the land or naval forces; they shall be residents of the area for which their board is appointed; and they should be at least 36 years old. The board of appeal should be a composite board, representative of all activities of its district, and as such should include one member from labor, one member from industry, one physician, one lawyer, and, where applicable, one member from agriculture. If the number of appeals sent to one board becomes too great for the board to handle without undue delay, additional groups of five members similarly constituted shall be appointed to the board by the President, upon recommendation by the Governor. Each such group shall have full authority to act for the board on all cases assigned to it by the board. Each group shall act separately. An additional member, who shall supervise and coordinate the work of all the groups of a board of appeal, shall be appointed by the President, upon recommendation of the Governor.

139. Boards of appeal: Designation. Where there is only one board of appeal

for a State, the board shall be called Board of Appeal for the State of ----- . Where there is more than one board of appeal for a State, each board shall be given a number and called Board of Appeal No. -----, for the State of -----.

140. Boards of appeal: Jurisdiction. Each Board of Appeal shall have jurisdiction to review any decision concerning the classification of a registrant by any local board in the area of the board of appeal, and to affirm, modify, or reverse the decision, provided that an appeal has been filed with the local board. It shall have the same appellate jurisdiction to review any decision on classification submitted to it by another board of appeal for review. The decision of the board of appeal shall be final, unless modified or reversed by the President. No member shall act on the case of a registrant who is his first cousin, or closer relation, either by blood or marriage, or who is an employee or employer, or stands in the relation of superior or subordinate in connection with any employment, or is a partner or close business associate, of the member. If because of this provision a majority of a board cannot act on the case of a registrant, the board shall transfer the case of the registrant to another local board. (See Volume Three, "Classification and Selection.")

141. Boards of appeal: Organization. At the first meeting of the board of appeal, each member shall take the prescribed oath (Form 21), which shall then be sent to the Governor for filing. The board shall elect a chairman and a secretary. A majority of the board shall constitute a quorum for the transaction of business. A majority of those present at any meeting shall decide any question. Every member present, unless disqualified, shall vote on every appealed classification. In case of a tie vote on an appealed classification, the board shall postpone action on the classification until it can be decided by a majority vote. If any member is absent so long as to hamper the work of the board, the board shall request the Governor to have a new member appointed.

142. Boards of appeal: Record of meetings. Each board of appeal shall keep a record of each meeting of the

board by making appropriate entries in the Minute Book (Form 101) provided.

143. *Boards of appeal: Office.* Each board of appeal shall select its own office. The location of the office may be changed by the Director of Selective Service, upon recommendation of the Governor. (For leasing offices, see Vol. Five, "Finance.")

144. *Boards of appeal: Clerical assistance.* Clerks for the board of appeal shall be appointed by the chairman of the board of appeal, under Civil Service rules and regulations, as provided for in Volume Five, "Finance". Clerks shall take the prescribed oath (Form 21), which shall be sent to the Governor for filing.

SECTION VII—OTHER AGENCIES

| | Paragraph |
|--------------------------------------|-----------|
| Advisory boards for registrants..... | 145 |
| Medical advisory boards..... | 146 |
| Police officials..... | 147 |

145. *Advisory boards for registrants.* In each State, advisory boards for registrants shall be appointed by the Governor to insure that advice and assistance in preparing questionnaires, claims, etc., are readily available to every registrant. Each board shall normally be composed of three lawyers. The chairman shall if practicable be a judge of a county court or of a court of similar jurisdiction. The advisory board for registrants may appoint associate members. Members and associate members shall take the prescribed oath (Form 21), which shall then be sent to the Governor for filing.

146. *Medical advisory boards.* In each State, medical advisory boards shall be appointed by the Governor to assist local boards in determining the physical qualifications of registrants. The board shall if practicable consist of internists; eye, ear, nose, and throat specialists; orthopedists; surgeons; psychiatrists; clinical pathologists; radiographers; and dentists. In event that a medical advisory board cannot be made available to a local board, the Governor shall appoint individual specialists, who shall act as a medical advisory board, to assist the local board.

147. *Police officials.* All police officials to the extent authorized should assist in the apprehension of delinquents.

| Oaths: Oath administered to interpreters..... | 172 |
| Oaths: Oath administered to witnesses..... | 173 |

148. *Voluntary services.* Voluntary services in the administration of the selective service law may be accepted. Persons performing voluntary services shall sign a waiver of pay (Form 257).

Correspondence

149. *Channels of communication. a.* Any person interested in any selective service matter should communicate with the local board. If the matter seems important, the local board may communicate it to State headquarters, which in turn may take it up with the Director of Selective Service.

b. All communications sent to the Director of Selective Service shall be addressed:

The Director of Selective Service,
Washington, D. C.

c. Communications intended for State headquarters shall be addressed as in the following example:

The Governor of Alabama,
(State Headquarters for Selective Service),
Montgomery, Ala.

150. *Official letters.* Communication should generally be by letter. Official letters in execution of the selective service law may be sent in official penalty envelopes, marked in the upper left-hand corner "Selective service—Official business" and the name of the sending agency; and in the upper right-hand corner, "Penalty for private use to avoid payment of postage, \$300." When printed envelopes furnished by the Director of Selective Service are not available, these inscriptions may be written, typed, or rubber stamped on a plain envelope.

151. *Official telegrams, radiograms, and cablegrams.* a. Official telegrams, radiograms, and cablegrams may be used for official business when speed is essential. The probable hour when the addressee will actually receive such a message, as compared to the probable hour when he would receive an ordinary or air mail letter, should be considered. Reasonable economy is necessary, and a more complete statement can usually be made in a letter.

b. Official messages shall be indorsed "Selective service—Official business—Government rate" and shall indicate the class of message (telegram, night letter, etc.). On the face of the message the sender shall make this certificate:

I certify that this message is an official business necessary for the public service in the administration of the selective service law.

(Signature)

(Official title)

152. *Long-distance telephone.* Long-distance telephone service may be used for official business at Government expense when absolutely essential. It is relatively very expensive and much more subject to faulty understanding between the parties than are written messages.

153. *Personal messages.* No personal inquiries or messages shall be sent by official envelope, telegram, etc. Messages regarding leave of absence, payment of salary or expense account, etc., fall under this prohibition.

154. *File.* Each selective service agency shall keep a file of correspondence received and sent.

Notice

155. *Notice of requirements of selective service law.* "Every person shall be deemed to have notice of the requirements of this Act upon publication by the President of a proclamation or other public notice fixing a time for any registration under Section 2." (Sec. 14 (a), Selective Training and Service Act of 1940.) This provision shall apply not only to registrants but to all other persons in the United States.

156. *Classification Record (Form 100).* The Classification Record (Form 100) shall be open to the public at the local board office. It shall be the duty of each registrant to keep himself informed of his status, and any entry concerning him on the Classification Record shall constitute due legal notice to him, and to all other interested persons, of such entry.

157. *Notice of mailing of questionnaires (Form 55).* Form 55 announces that questionnaires have been mailed to certain registrants. It shall be publicly posted at the local board office, and shall constitute notice to all persons concerned that classification of such registrants is about to begin.

158. *Communication by mail.* It shall be the duty of each registrant to keep his local board advised at all times of the address where mail will reach him. The mailing of any order, notice, or blank form by the local board to a registrant at the address last reported by him to the local board shall constitute notice to him of the contents of the communication whether he actually receives it or not.

159. *Failure to take notice.* a. If a registrant or a person required to present himself for and submit to registration fails to perform any duty prescribed by the selective service law, or directions given pursuant thereto, within the required time, he shall be liable to fine and imprisonment under Section 11 of the Selective Training and Service Act of 1940.

b. If a registrant or any other person concerned fails to claim and exercise any right or privilege within the required time, he shall be deemed to have waived the right or privilege, and he cannot claim it later (subject only to the privilege of asking an extension of time,

under Vol. Three, "Classification and Selection").

160. *Computation of time.* The period of days allowed a registrant or other person to perform any act or duty required of him shall be counted as beginning on the day following that on which the notice to him is posted or mailed.

Permit to Leave United States

161. *Permit for registrant to leave the United States.* The local board may issue to a registrant a permit to leave the United States (Form 351), provided that the registrant's absence is not likely to interfere with the proper administration of the selective service law. The board may require the registrant to fill out and return a questionnaire before it issues the permit (Vol. Three, "Classification and Selection").

Records

162. *Records: Records kept by boards.* In addition to the required minute book (pars. 130 and 142) and file of correspondence (par. 154), each selective service agency shall keep a copy of Selective Service Regulations and such forms as may be necessary. (For the list of forms, see Appendix A.)

163. *Records: Forms are part of regulations.* a. All blank forms prescribed in the Selective Service Regulations, together with the instructions printed on such forms, are a part of the Regulations.

b. Whenever local conditions make necessary a form not included in Selective Service Regulations, the agency concerned shall submit a copy of the proposed form, with a full statement of the necessity and proposed use, through State headquarters to the Director of Selective Service. The form shall not be used until approved by the Director.

c. Selective service agencies requiring blank forms may obtain them from State headquarters.

164. *Records: Care.* Selective service agencies shall take all possible care to keep records from being lost or destroyed, especially by fire. Registration cards shall under no circumstances be entrusted to any person not authorized to have them in custody. Each official who

receives registration cards shall give a receipt for them, and shall obtain a receipt upon delivering them to another.

165. *Records: Confidential records.* a. All records pertaining to the physical condition of a registrant, and all answers on the questionnaire (Form 40) under the subject "Dependency" (except the names and addresses of claimed dependents), and to the questions on previous military service, shall be confidential and shall not be disclosed without the consent of the registrant, except as provided in subdivisions c and d below. The fact that a claim for deferment has been made on grounds of dependency or physical unfitness, and the classification of the registrant, are not confidential.

b. Without limiting any other rights he may have, a registrant shall be entitled to know of all entries on his own record, including his questionnaire (Form 40) and record of physical examination (Form 200). He shall be further entitled to know of all statements and allegations which form part of his record.

c. Confidential records may be examined at any time by the following named officials: the members of the local board, members of the board of appeal, the examining physician, and the government appeal agent, who have to deal with the case; Federal officials and employees duly authorized by the Governor or the Director of Selective Service; and United States attorneys and their duly authorized representatives.

d. Confidential records shall be produced and published in response to the subpoena or summons of a court, without the consent of the registrant, only in the prosecution of the registrant or of a person in collusion with the registrant, for perjury, or for any violation of the selective service law or directions given pursuant thereto, or in behalf of the Government in suits or claims arising out of the executive acts in the performance of which such records were compiled.

166. *Records: Records open to public information.* All other records shall be available for public information provided inquiries do not interfere with the despatch of business. Neither a

registrant nor anyone else (except those mentioned in par. 165c and clerks of boards) shall be entitled to search or handle the records. It shall be the duty of the custodian of the records to read and, if necessary, point out the information requested.

167. *Records: Furnishing lists of registrants prohibited.* No person having official duties under the selective service law shall furnish lists of registrants for advertising or commercial use.

b. Upon oral examination of witnesses before a local board, any member of the board may administer oaths. (For form of oath see par. 173.)

c. No fee or charge shall be made for

administration of oaths in the execution of the selective service law.

d. Whenever an oath is required, an affirmation in judicial form, if made by a person having conscientious scruples against the taking of oaths, shall be sufficient compliance.

171. *Oaths: Oath taken by officials (Form 21).* Before beginning their duties, the following persons shall execute Form 21, taking the oath thereon: officials and employees at State headquarters; members of local boards, boards of appeal, and medical advisory boards; members and associate members of advisory boards for registrants; clerks of all boards; examining physicians; government appeal agents. The completed Form 21 shall be sent to State headquarters for filing. (For oath taken by registrars, see Vol. Two, "Registration.")

172. *Oaths: Oaths administered to interpreters.* The following oath shall be administered to an interpreter each time he is used by a local board:

You swear (or affirm) that you will truly interpret in the matter now in hearing. So help you God.

173. *Oaths: Oath administered to witnesses.* The following oath shall be administered to every person testifying before a local board:

You swear (or affirm) that the evidence you shall give in the matter now in hearing shall be the truth, the whole truth, and nothing but the truth. So help you God.

(Sec. 2, Selective Training and Service Act of 1940.)

b. "Commissioned officers, warrant officers, pay clerks, and enlisted men of the Regular Army, the Navy, the Marine Corps, the Coast Guard, the Coast and Geodetic Survey, the Public Health Service, the federally recognized active National Guard, the Officers' Reserve Corps, the Regular Army Reserve, the Enlisted Reserve Corps, the Naval Reserve, and the Marine Corps Reserve; cadets, United States Military Academy; midshipmen, United States Naval Academy; cadets, United States Coast Guard Academy; men who have been accepted for admittance (commencing with the academic year next succeeding such acceptance) to the United States Military Academy as cadets, to the United States Naval Academy as midshipmen, or to the

c. Every man who is required by proclamation of the President to register shall on the day fixed therefor present himself for and submit to registration at the duly designated place of registration within the precinct, district, or registration area in which he has his permanent home or in which he may happen to be on that date. For designation of place of registration, see Paragraphs 217 and 222. For special cases in which men may register at other times and places, see Section XIV, "Special Cases of Registration." Regardless of any special circumstances, every man who is subject to registration is personally charged with the duty of presenting himself before the proper officials for that purpose.

202. *Responsibility for performance of duty.* a. "The President is authorized— (1) to prescribe the necessary rules and regulations to carry out the provisions of this Act"; and "(4) to utilize the services of any or all departments and any and all officers or agents of the United States and to accept the services of all officers and agents of the several States, Territories, and the District of Columbia and subdivisions thereof in the execution of this Act". (Sec. 10 (a) (1) and (4), Selective Service Training and Service Act of 1940.)

b. "Any person charged as herein provided with the duty of carrying out any of the provisions of this Act, or the rules or regulations made or directions given thereunder, who shall knowingly fail or neglect to perform such duty, and any person charged with such duty, or having and exercising any authority under

said Act, rules, regulations, or directions who shall knowingly make, or be a party to the making, of any false, improper, or incorrect registration, classification, physical or mental examination, deferment, induction, enrollment, or muster, and any person who shall knowingly make, or be a party to the making of, any false statement or certificate as to the fitness or unfitness or liability or nonliability of himself or any other person for service under the provisions of this Act, or rules, regulations, or directions made pursuant thereto, or who otherwise evades registration or service in the land or naval forces or any of the requirements of this Act, or who knowingly counsels, aids, or abets another to evade registration or service in the land or naval forces or any of the requirements of this Act, or of said rules, regulations, or directions, or who in any manner shall knowingly fail or neglect to perform any duty required of him under or in the execution of this Act, or rules or regulations made pursuant to this Act, or any person or persons who shall knowingly hinder or interfere in any way by force or violence with the administration of this Act or the rules or regulations made pursuant thereto, or conspire to do so, shall, upon conviction in the district court of the United States having jurisdiction thereof, be punished by imprisonment for not more than five years or a fine of not more than \$10,000, or by both such fine and imprisonment, or if subject to military or naval law may be tried by court martial, and, on conviction, shall suffer such punishment as a court martial may direct. No person shall be tried by any military or naval court martial in any case arising under this Act unless such person has been actually inducted for the training and service prescribed under this Act or unless he is subject to trial by court martial under laws in force prior to the enactment of this Act. Precedence shall be given by courts to the trial of cases arising under this Act." (Sec. 11, Selective Training and Service Act of 1940.)

220. *Appointment of registrars.* a. In each precinct or equivalent election unit or other registration unit designated

under these regulations there shall be one registration board. Members of the registration board are called *registrars*. The person appointed head of each board is its *chief registrar*. It is estimated that one registrar working full time during the hours fixed for registration can register a maximum of 30 persons. The size of the board should conform, on this basis, to the number of men in the precinct who are required to present themselves for and submit to registration under proclamation of the President, including nonresidents who may be expected to be registered there.

b. The county clerk, acting upon instructions of the Governor, shall call upon members of the regular election board to volunteer their services as members of the registration board. He shall supplement the election officials as may be necessary by the appointment of other competent volunteers as registrars, in numbers sufficient to prevent excessive waiting in line. If it is impracticable for any reason to use the regular election officials in any precinct, the county clerk will appoint a suitable registration board of competent volunteers. (See also par. 208c.) Women may serve as registrars. The volunteer registrars may be assigned to any precinct in which their services may be needed.

221. *Registrars should know registration regulations.* Before beginning registration, registrars should know thoroughly sections XII and XIII of the regulations. They should also understand the questions asked on the registration card and the type of answers desired, explained in section XIII (pars. 230 to 239), and on the instruction placard (Form 4).

222. *Preparation of places for registration.* a. The county clerk shall procure, designate, and prepare suitable places for registration. It is of the utmost importance that the registration be conducted in a dignified setting. The best possible place of registration is a school, town hall, or other appropriate public building. In any case, a large hall or a series of offices is necessary. A mere booth, or a place being used at the same time for other business, will not suffice under any conditions.

b. The registration place shall be located within the boundaries of the precinct or within a convenient distance of the precinct. If the customary polling place is not used, a suitable notice shall be posted there stating the location of the registration place. Two or more voting precincts may be combined for selective service registration if such combination is deemed convenient. Two or more registration places may be located in the same building provided there is ample space therefor.

c. The chief registrar shall have his registration place ready and open at the hour specified in the President's proclamation. A United States Flag shall be displayed. Copies of the instruction placard (Form 4) shall be conspicuously posted where men waiting to register can study them. Required supplies are:

1 table for each registrar.

2 chairs for each table (1 for registrar, 1 for registrant).

Pens, ink, and blotters for each registrar.

Registration cards, registration certificates.

Instruction leaflet (Form 5) to be given to registrants upon leaving.

Instruction placard (Form 4): copies on the walls and one with each registrar.

d. The chief registrar should satisfy himself that he has a sufficient supply of registration cards and certificates.

223. *Registrar's oath.* Each registrar shall take the following oath before assuming his duties. It may be administered without charge for any person qualified to administer oaths, or the chief registrar shall be sworn by a registrar of the board, and the chief registrar shall then swear the rest of his registration board. Any person who at any time during the registration undertakes the duties of a registrar, shall be sworn in like manner.

I, _____, do solemnly swear (or affirm) that I will faithfully perform the duties of registrar of precinct _____; that I will correctly record the answers given me by persons registered; that I will indicate on every registration card answers that I know to be untrue; and that I will truthfully answer and record matters charged to my own observation.

224. *Interpreters.* Registrars may accept the gratuitous assistance of such in-

terpreters as are necessary. The chief registrar should foresee and provide for the presence of interpreters if they are likely to be needed.

225. *Recalcitrants.* If a registrant refuses to cooperate or is inclined to evade, refuse to answer, or to answer falsely, his attention should be called to the penal provision of the law which imposes imprisonment for evasion or falsification. If he is still refractory, witnesses should be called and, after the penalty of the law has been explained again to him in the presence and hearing of witnesses, a full opportunity should be given him to reconsider his actions and answer the questions. If he is still refractory, his name and the names of the witnesses should be noted and the case reported to the proper law-enforcing authorities at once. The registration should not be obstructed or delayed. Persons attempting to obstruct or delay it should be dealt with promptly and firmly.

226. *Registration places to be kept open.* a. All registration places shall be kept open during the hours specified in the President's proclamation, and during those hours there must be at least one registrar always on duty. If there be but one registrar on the board, he must arrange to have his meals at his registration place.

b. All persons waiting to register at the closing hour specified in the proclamation shall be registered.

227. *Report of registration board.* When the registration is completed, the registrars must count and account for all cards. A written report of the number of completed registrations shall be prepared and signed by all registrars present, in the form shown below.

The undersigned hereby certify that they and their assistants were duly sworn to perform the duties of registrars, and that the number of persons registered for the _____ precinct, _____ ward, city (or other subdivision) of _____, county of _____, State of _____, was _____.

| | Signatures | Addresses |
|------------|------------|-----------|
| Place_____ | _____ | _____ |
| Date_____ | _____ | _____ |
| | _____ | _____ |

228. *Tying cards in packages.—a.* Completed registration cards. The com-

pleted registration cards shall be tied in a neat package, marked on the wrapper:

(Number of) _____ Registration cards.
Precinct _____, Ward _____
County _____ (or other subdivision)
State of _____

b. Unused registration cards and certificates. All unused cards and certificates shall be tied into another package.

c. Spoiled registration cards and certificates. All registration cards and certificates which have been spoiled and not completed, and are unfit for further use, shall be fastened into a third package.

229. Disposition of registrars' report and cards. At the earliest possible moment after closing the registration, the chief registrar shall deliver

- (1) the report of his registration board,
- (2) the marked package of completed registration cards,
- (3) the package of unused cards and certificates, and
- (4) the package of spoiled cards and certificates

to the county clerk, who shall receipt and account for them. (See pars. 215*h*, 215*c*, and 219.)

SECTION XIII—MAKING OUT REGISTRATION CARDS AND CERTIFICATES

| | Paragraph |
|------------------------------------------|-----------|
| Need for careful work..... | 230 |
| How to interview the registrant..... | 231 |
| Serial number; order number..... | 232 |
| Registrant's name on card..... | 233 |

| Warning to report change of address..... | 236 |
| Notation of false statement on card..... | 237 |
| Registrar's signature on card..... | 238 |
| Registration certificate..... | 239 |

230. Need for careful work. The registration card is a very important record. All entries must be made in ink, and all entries must be clear and readable. Two kinds of questions are asked: (1) those on the front of the card, answers to which are given by the registrant, and (2) those on the back, which the registrar himself answers. The registrar personally shall write down all the answers to both kinds of questions.

231. How to interview the registrant. The questions shall be asked in the order

numbered on the card and each answer shall be entered in the proper space. If the registrant's first answer is not clear, the question shall be explained carefully and asked again. The registrar shall be patient and take plenty of time. The registrar shall enter into no argument or discussions with the registrant. *Proceedings shall not be rushed. The registration of each man should average about twenty minutes.*

232. Serial number; order number. The spaces for serial number and order number shall be left blank.

233. Registrant's name on card. The registrant shall spell out his full name (including full middle name). The registrar shall print the name on a scrap of paper and have the registrant verify it. The registrar shall then print the name and address carefully on the registration card. Any mistake in the name or address may prevent delivery to the registrant of important notices and cause him much trouble later. If the registrant has no given name but only initials, or has only an initial for a middle name, his name should be entered thus:

J. B. (initials only) Thompson.

John B. (initial only) Thompson.

234. Registrar's report on card. After the registrant has answered all questions on the front of the card, and *before the registrant signs the card*, it shall be turned over and the registrar's report on the back shall be completed. The race, color of eyes, color of hair, and complexion shall be indicated by a check mark √. The height, in feet and inches, and the weight may be approximate.

235. Registrant's signature. When the "description of registrant" is completed, the registrant shall verify the correctness of the entries. He shall sign his name in the proper place on the front side, exactly as he usually signs it. If he cannot sign his name, he must make his mark; and the registrar shall make proper notation on the same line.

236. Warning to report change of address. At this point, the registrar shall instruct the registrant that he must keep in touch with his local board, and especially that he must report immediately to the local board any change in the address he has given.

237. *Notation of false statements on card.* After the registrant has signed the card, the registrar shall complete his own report. Any of the registrant's answers which are believed to be incorrect or false shall be noted under item 20. It is the sworn duty of the registrar to report on the registration card any statements of the registrant known to be false.

238. *Registrar's signature on card.* After completing all duties required under this Section, the registrar shall sign the registration card.

239. *Registration certificate.* After the registration card is completed and signed the registrar shall prepare the registration certificate and give it to the registrant. The registrar shall never fill out the certificate until after completely finishing the registration card. The registrant shall be warned that he should carry the registration certificate with him at all times, as he may be required to show it from time to time. The registrant should then be given a copy of the leaflet of instructions for registrants (Form 5).

The local board shall then dispose of any absentee cards it receives, as provided in Volume Three, "Classification and Selection."

245. *Training camps, schools, colleges, etc.* Men distant from their homes attending training camps, schools, colleges, etc., are absentees under the provisions of paragraph 244. As a convenience, the county clerk may appoint, at each such institution where it is desirable, a special registration board for absentees. Any such board shall register only men who cannot conveniently appear at their home precincts. The county clerk shall mail the cards of such absentees to the Governors of the registrants' home States, including with each shipment a receipt for the cards, which receipt shall be executed and returned to him. EXECUTIVE ORDER 8546

CREATING THE DEFENSE COMMUNICATIONS BOARD AND DEFINING ITS FUNCTIONS AND DUTIES

WHEREAS coordinated planning for the most efficient control and use of radio, wire, and cable communication facilities under jurisdiction of the United States in time of national emergency involves the consideration of the needs for communication of the armed forces of the United States, of other government agencies, of industry, and of other civilian activities; and

WHEREAS such planning must be accomplished as a matter of preparation for national defense; and

WHEREAS the interest of national defense in the matter of control and use of communication facilities during any war in which the United States may become a belligerent is deemed paramount:

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States, and by the Communications Act of 1934 (48 Stat. 1064), as amended, it is ordered as follows:

1. There is hereby created the "Defense Communications Board," herein-after called the Board, consisting of the Chairman, Federal Communications Commission, the Chief Signal Officer of the Army, the Director of Naval Communications, the Assistant Secretary of State in charge of the Division of International Communications, and the Assistant Secretary of the Treasury in charge of the Coast Guard.

2. The functions of the Board shall be, with the requirements of national defense as a primary consideration, to determine, coordinate, and prepare plans for the national defense, which plans will enunciate for and during any national emergency—

a. The needs of the armed forces of the United States, of other governmental agencies, of industry, and of other civilian activities for radio, wire, and cable communication facilities of all kinds.

b. The allocation of such portions of governmental and non-governmental radio, wire, and cable facilities as may be required to meet the needs of the armed forces, due consideration being given to the needs of other governmental agencies, of industry, and of other civilian activities.

c. The measures of control, the agencies to exercise this control, and the principles under which such control will be exercised over non-military communications to meet defense requirements.

3. The Chairman of the Federal Communications Commission shall be the Chairman of the Board. In the absence of the designated Chairman, the temporary chairmanship shall devolve upon the remaining members of the Board in the following order:

1. The Chief Signal Officer of the Army or the Director of Naval Communications, whichever may be senior in rank.
2. The Chief Signal Officer of the Army or the Director of Naval Communications, whichever may be junior in rank.
3. The Assistant Secretary of State in charge of the Division of International Communications.
4. The Assistant Secretary of the Treasury in Charge of the Coast Guard.

In the absence of any regularly designated member, the agency which he represents may be represented by an alternate from that agency, designated by the head thereof, but such alternate shall not serve as Chairman. The Assistant Secretary of the Treasury in Charge of the Coast Guard is designated as the Secretary of the Board.

4. The Board shall take no cognizance of matters pertaining to censorship. The Board shall study the physical aspects of domestic standard broadcasting and shall recommend such precautions, sup-

plementary facilities and reallocations as it shall deem desirable under foreseeable military conditions. It shall also make plans for the speedy and efficacious use of all necessary facilities in time of military emergency.

5. The Board shall appoint such committees as may be necessary to carry out its functions and to provide for continuing studies and for contact with other government agencies and with the civil communication industry.

6. Except as otherwise instructed by the Board, committees appointed thereby shall have no power to make final disposition of any matter presented to them by the Board for study, but they shall express by written report their findings and recommendations. Minority reports may be submitted if deemed of sufficient importance to warrant further consideration by the Board.

7. The Board and the committees shall call for consultation such representatives of other government agencies and of the civilian communication industry as may be deemed advisable in obtaining full knowledge of the situation being studied, to the end that the needs of all may be considered and provided for in so far as the situation permits. Other governmental agencies are directed to cooperate in providing assistance required by the Board in its studies.

8. During any war in which the United States is a belligerent, or any national emergency, the existing Interdepartment Radio Advisory Committee shall act as a Committee of the Board, but only in an advisory capacity. While the Interdepartment Radio Advisory Committee is so acting as an advisory committee, all of its reports, recommendations, or communications normally prepared for submission to the President shall instead be submitted to the Board, for consideration from the standpoint of national defense and for disposition.

EXECUTIVE ORDER 8557

PREScribing REGULATIONS GOVERNING THE PAYMENT OF EXPENSES INCURRED IN CONNECTION WITH THE DEATH OF CERTAIN CIVILIAN OFFICERS AND EMPLOYEES OF THE UNITED STATES

By virtue of and pursuant to the authority vested in me by the act of July 8, 1940, Public No. 729, 76th Congress, entitled, "An Act to defray the cost of returning to the United States the remains, families, and effects of officers and employees dying abroad, and for other purposes", I hereby prescribe the following regulations governing the payment of expenses authorized by that Act:

PART I—DEFINITIONS

SECTION 1. As used in these regulations:

(a) "Employee" means civilian officer or employee of the United States.

(b) "Home" means a fixed or permanent dwelling place synonymous with

place of fixed abode as distinguished from a mere temporary residence.

(c) "Dependents" includes a lawful widow; children, stepchildren, and adopted children, if unmarried, under twenty-one years of age, and in fact dependent upon the decedent for support, or if physically or mentally incapable of self-support regardless of age; and dependent parents who were a part of the decedent's household.

(d) "Department" includes independent establishment, agency, or federally owned or controlled corporation.

(e) "Continental United States" means the 48 States and the District of Columbia.

PART II—PREPARATION AND TRANSPORTATION OF THE REMAINS OF EMPLOYEES DYING WHILE IN A TRAVEL STATUS AWAY FROM THEIR OFFICIAL STATION AND WITHIN THE CONTINENTAL LIMITS OF THE UNITED STATES

SECTION 2. When an employee dies while traveling on official business within the continental limits of the United States, the head of the department concerned shall pay the expenses of preparing the remains of the decedent and of transporting the remains to the home or official station of the decedent or to such other place as the head of the department may designate as the appropriate place of interment, provided that in no case shall the expenses payable be greater than the amount which would have been payable had the place of interment been the home or official station, whichever shall be more distant.

SECTION 3. *Preparation of Remains.* The costs of preparation of remains allowable under section 2 of these regulations shall include costs of embalming, cremation, necessary clothing, and casket. The total amount allowed for such preparation shall not exceed \$100.

SECTION 4. *Transportation of Remains.* The costs of transportation of remains allowable under section 2 of these regulations shall include the costs of removal of the remains from the place where death occurred to an undertaking establishment, procurement of burial and shipping permits, furnishing an outside case for shipment (including, when

necessary, the sealing of such shipping case), removal to a common carrier, transporting the body by common carrier, and one removal at the place of interment from the common carrier to an undertaking establishment or other place of immediate delivery. Instead of conveyance by common carrier, removal of the remains overland by hearse (including ferry charges, bridge tolls, and similar items) may be allowed, provided that the total charges for transportation shall not exceed the total costs of transportation had conveyance been made by common carrier. If conveyance is by hearse, no allowance shall be made for an outside shipping case.

PART III—PREPARATION AND TRANSPORTATION OF REMAINS OF EMPLOYEES DYING WHILE IN A TRAVEL STATUS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES OR WHILE ON ASSIGNMENT TO A POST OUTSIDE THE UNITED STATES

SECTION 5. When an employee dies while traveling on official business outside the continental limits of the United States or while on assignment to a post outside the United States, the head of the department concerned shall pay the expenses of preparing the remains of the decedent and of transporting the remains to the home or official station of the decedent or to such other place as the head of the department may designate as the appropriate place of interment, provided that in no case shall the expenses payable be greater than the amount which would have been payable had the place of interment been the home or official station, whichever shall be more distant.

SECTION 6. *Preparation of Remains.* The costs of preparation of remains allowable under section 5 of these regulations shall include all the ordinary costs of embalming, cremation, necessary clothing, and a casket or container suitable for shipment to the place of interment. There shall also be allowed any expenses necessarily incurred in complying with local laws and laws at the port of entry in the United States relative to the preparation of dead bodies for transportation and burial.

SECTION 7. *Transportation of Remains.* The costs of transportation of

remains allowable under section 5 of these regulations shall include the charges for removal of the decedent's remains from the place where death occurred to an undertaking establishment, from the undertaking establishment to a common carrier, thence by common carrier to the place of interment, and one removal at the place of interment from the common carrier. The remains may be transported by means other than by common carrier, provided that when conveyance by common carrier is available there shall be allowed toward the expense of such other transportation an amount not in excess of the sum allowable had the remains been transported by common carrier.

PART IV—TRANSPORTATION OF DEPENDENTS AND HOUSEHOLD EFFECTS AND OTHER PERSONAL PROPERTY OF EMPLOYEES DYING DURING A PERIOD OF ASSIGNMENT TO A POST OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

SECTION 8. When an employee dies during a period of assignment to a post outside the continental limits of the United States or while in transit to or from such post, the head of the department concerned shall pay the costs of transportation of the dependents of the decedent and of the household effects and other personal property of the decedent and his dependents to his former home or to such other place in the United States not more distant than the former home as the head of the department may designate.

SECTION 9. *Transportation of Dependents.* The costs of transportation of dependents allowable under section 8 of these regulations shall include the actual costs of transporting such of the dependents of the decedent as are outside the continental limits of the United States to the designated destination, provided that the costs shall not exceed the costs of transportation by the most direct route from the official station of the deceased employee to said destination, and provided that travel is undertaken during the period of one year from the date of death of the decedent. Such transportation shall be subject to the provisions of the Standardized Government Travel

Regulations and such regulations as the heads of the respective departments may prescribe thereunder governing the payment of transportation expenses generally.

SECTION 10. *Transportation of Personal Effects.* The costs of transportation of personal property other than household effects allowable under section 8 of these regulations shall include the expenses actually and necessarily incurred in transporting said personal effects as baggage, subject to the provisions of the Standardized Government Travel Regulations governing the payment of charges for the transportation of baggage generally. Expenses in connection with the transportation of baggage by private conveyance which would not have been incurred had the baggage been transported by common carrier shall not be allowed. Reimbursement for loss or damage to baggage during transit shall not be allowed, nor shall charges for marine and other insurance be allowed.

SECTION 11. *Transportation of Household Effects.* The costs of transportation of household effects allowable under section 8 of these regulations shall include costs of packing, crating, drayage, and transportation subject to the following restrictions governing payment of such costs:

(a) *Items allowable as household effects.* Household effects shall be deemed to include such furniture and furnishings as are usual and necessary for the maintenance of a household establishment and as are of sufficient intrinsic value reasonably to justify their transportation, but for the purposes of these regulations shall not include groceries, provisions, wines, liquors, animals, or birds.

(b) *Shipment usually to be by freight by most economical route.* Shipment of household effects shall be made by ordinary freight service by the most economical route unless otherwise specifically authorized by the head of the department concerned. In the absence of such authorization, the expense of shipping household effects by a method other than that indicated above shall be allowed in an amount not to exceed the cost of shipping such effects by freight by the most economical route.

(c) *Maximum allowances of weight and volume allowable.* Except as hereinafter provided, the maximum number of pounds of household effects when packed and crated, or boxed, or packed in lift vans for shipment by freight, for which payment shall be allowed, shall be as follows:

| Class of personnel | When family is at post | When family is not at post |
|--------------------------------------------------------------------------------------------|------------------------|----------------------------|
| Employees in grade CAF-15 or above or receiving a salary payable in such grade or above | 24,000 | 19,000 |
| Employees in grade CAF-12, CAF-13, or CAF-14, or receiving a salary payable in such grades | 20,000 | 15,500 |
| Employees in grade CAF-9, CAF-10, or CAF-11, or receiving a salary payable in such grades | 16,500 | 12,000 |
| Employees in grade CAF-6, CAF-7, or CAF-8, or receiving a salary payable in such grades | 13,000 | 8,500 |
| Employees in grade CAF-5 or below or receiving a salary payable in such grade or below | 11,400 | 6,720 |

When shipment of effects for any portion of the journey is covered by a bill of lading stating that charges are computed only on a measurement basis instead of a weight basis, the maximum number of measurement tons (measuring 40 cubic feet each) for which payment shall be allowed, shall be as follows:

| Class of personnel | When family is at post | When family is not at post |
|--------------------------------------------------------------------------------------------|------------------------|----------------------------|
| Employees in grade CAF-15 or above or receiving a salary payable in such grade or above | 60 | 49 |
| Employees in grade CAF-12, CAF-13, or CAF-14, or receiving a salary payable in such grades | 52 | 40 |
| Employees in grade CAF-9, CAF-10, or CAF-11, or receiving a salary payable in such grades | 43 | 33 |
| Employees in grade CAF-6, CAF-7, or CAF-8, or receiving a salary payable in such grades | 34 | 26 |
| Employees in grade CAF-5 or below or receiving a salary payable in such grade or below | 31 | 24 |

When shipments involve weight consideration over one portion of the distance and measurement over another portion, payment shall be allowed for charges for the entire distance regardless of measurements if the weight does not exceed the weight limitations pre-

viously indicated. Payment of actual charges shall also be allowed for the entire distance regardless of weight, provided the measurements do not exceed those previously indicated.

When shipments involve weight and measurement considerations over different portions of the distance, and measurement and weight are both in excess of the limitations herein prescribed, payment shall not be allowed for weight excess where weight considerations are involved or for measurement excess where measurement considerations are involved. Allowances for packing shall be computed on the basis (weight or measurement) used in computing shipment charges at the initial stage of transit.

Within the continental limits of the United States, where the transportation of maximum allowances prescribed above at less than carload rates would cost as much as, or more than, a minimum carload, transportation of a minimum carload may be allowed regardless of the volume or weight of the shipment.

(d) *Shipment to be made on American ships.* If household effects must be transported by vessel, shipment shall be made on American ships unless otherwise specifically authorized by the head of the department concerned.

(e) *Other costs allowable in connection with transportation of household effects.* Payment shall also be made of expenses incurred in hiring and transporting lift vans, and in packing and crating, or boxing, or packing in lift vans for shipment. Allowance shall not be made for charges in connection with any shipment of empty lift vans, or for payment of storage charges or import duties on lift vans.

(f) *Time limit on shipment of effects.* Shipment of effects shall be made within one year of the death of the officer or employee, unless an extension is granted by the head of the department concerned prior to the expiration of that time.

PART V—GENERAL PROVISIONS

SECTION 12. Notification of Relatives. When the head of a department is informed of the death of an employee while in any status subject to the provisions of these regulations, he shall notify immediately the next of kin or legal representative of the decedent and render

every reasonable assistance in arranging for preparation and transportation of the body. He shall also inform the next of kin or legal representative of the provisions of these regulations.

SECTION 15. *Escort for Remains.* Transportation expenses of an escort for the remains shall not be allowed. However, this shall not be construed to prohibit the use by an escort of one of the two tickets required to ship the remains as baggage by railroad.

SECTION 16. *Use of Government Bill of Lading.* If the shipment of remains is made by express, a Government bill of lading shall be used whenever possible.

SECTION 17. *Prohibition of Payments When Other Laws Apply.* No payment shall be made under the said act of July 8, 1940, for expenses of preparing and transporting the remains of any employee in any case where payment therefor is authorized by any other law of the United States, and where any other law of the United States provides for the payment of expenses of either of said services payment hereunder shall not be allowed for such service: *provided, however*, that nothing herein contained shall be construed as depriving any person of any payment hereunder because of the fact that the deceased employee was eligible for burial benefits on account of service rendered in the armed forces of the United States. No payment shall

be made under the said act of July 8, 1940, for transportation of surviving dependents of a deceased employee and for transportation of household effects and other personal property in any case where payment therefor is authorized by any other law of the United States.

SECTION 18. *Effective Date; Publication.* This order shall be effective as of September 6, 1940, and shall be published in the **FEDERAL REGISTER**.

NOTE: The first paragraph of Volume One is numbered 101; the first paragraph of Volume Two is numbered 201; the first paragraph of Volume Three is numbered 301; and so on.

301. *Receiving registration cards. a.* On the day after Registration Day, the county clerk will upon request deliver to the chairman of each local board the packages of completed registration cards for that local board area (Vol. Two,

"Registration") and also a supply of unused registration cards and certificates.

b. Upon receiving the completed cards from the county clerk, the local board shall sort out any cards of men whose addresses, as given on the registration cards, are outside the area of the board. The board shall send these cards to the proper local board, if the proper board can be ascertained; if not, send these cards to the Governor. (See Vol. One, for mailing cards and obtaining receipts.)

c. The local board shall keep permanently all cards that properly belong to it. If called upon to furnish a registrant's card, the board shall furnish a true copy, verified and signed by a member. For care of cards, see Vol. One, "Organization and Administration".

302. *Shuffling cards.* After transferring the cards of nonresidents, the local board shall put all of the remaining cards together. It shall then thoroughly shuffle or mix them so that the location of any card in the pile—and the number it later receives—will be purely a matter of chance.

303. *Serial numbering, general case.* a. The local board shall then put on each card a serial number in the space marked SERIAL NUMBER. The card that is first in the pile after the shuffle shall be numbered "1", the next card "2", and so on. Each card shall have one, and only one, whole serial number, such as 2691. No letters or fractions shall be used in the first serial numbering of cards. Whether pen or rubber stamp is used, the serial number shall be in black ink.

b. If errors are made in serial numbering the cards or other irregularities occur, they shall be corrected in the manner prescribed in paragraphs 304, 305, 306, 307, 308, and 309, whichever is applicable. The serial numbering of cards received late is provided for in paragraph 310.

304. *Serial number used only once.* A local board shall use a serial number only once. If a card is canceled because of duplication, transfer, or any other reason, the serial number on that card shall not be put on another card.

305. *Serial numbering skipped cards.* If a check of the cards shows that a card was not given a serial number, the board

shall, if any numbers were skipped, give the card one of the skipped numbers picked by lot or, if no numbers were skipped, the board shall give the card the number following the largest serial number already used by the board.

306. *Renumbering cards having the same serial number.* If two cards have the same serial number, the board shall pick one of the cards by lot to keep that number. It shall renumber the other card as prescribed in paragraph 305.

307. *Serial numbering two cards for same registrant.* a. If two cards for the same registrant are received and this fact is ascertained before the national lottery, whether before or after serial numbering, the local board shall select one card by lot and cancel the other card by marking it "Canceled. Duplicate." If this fact is not ascertained before the national lottery, the cards should be treated just as if they were cards for two different registrants. (Par. 315)

b. If a registrant reports that he is registered with two local boards, each board shall put a serial number on the card it has, just as if he were registered with only one local board. He may, before the national lottery (par. 313), request transfer to either local board, and upon requesting transfer he shall be given a receipt showing the date and hour of the request and the boards involved, signed by a board member. If he is so transferred, the local board from which he is transferred shall mark his card "Canceled. Transferred." If he does not request a transfer before the national lottery, he shall not be transferred, and shall report for induction to the board that calls him first.

308. *Renumbering card having two serial numbers.* If a card has on it two serial numbers, neither of which is also on another card, the board shall give it the smaller of the two numbers. If either of the numbers is on another card, the board shall give to the card having the two numbers the number not on another card. If both of the two serial numbers are on other cards, the board shall number the card as prescribed in paragraph 305.

309. *Renumbering illegibly numbered cards.* If a card has on it a serial number that cannot be read, the board shall try to find out what the number is by

looking for gaps in the series of clearly numbered cards. If by this method the board can tell what the number is, it shall print the number clearly. If the board cannot tell what the number is, it shall number the card as prescribed in paragraph 305.

310. *Serial numbering cards received late.* a. An unnumbered registration card received after the serial numbering is completed shall be given a number as prescribed in paragraph 305.

b. A card numbered by another board, if received before the national lottery (par. 313), shall be renumbered as directed in paragraph 305. If received after the national lottery, it shall not be renumbered.

311. *Preparing list of registrants (Form 3).* a. While, or after, serial numbering its registration cards, the local board shall make out a list of registrants (Form 3). Registrants shall be listed in order of their serial numbers, with the registrant having Serial Number 1 at the top of the list. All numbers from "1" to the largest serial number used shall be listed, whether or not each number was given to a registrant.

b. One copy of the list shall be posted in a public place in or near the office of the local board; one copy shall be put in the files of the board; and one copy shall be sent to the Governor. A fourth copy shall be prepared for the press and for other forms of publication.

312. *Telegraphic reports on serial numbering.* a. As soon as possible the local board shall telegraph the following report to the Governor:

REGISTRATION CARDS SHUFFLED AND
SERIAL NUMBERED. LIST OF REGIS-
TRANTS SHOWING SERIAL NUMBERS
POSTED AND COPY MAILED TO YOU.
LARGEST SERIAL NUMBER USED BY LO-
CAL BOARD ----- IS -----

b. As soon as possible, the Governor shall telegraph the Director of Selective Service the largest serial number used in his state.

SECTION XVI—ORDER NUMBERING OF CARDS

| | Paragraph |
|--------------------------------------------------------|-----------|
| The National Lottery and the National Master List..... | 313 |
| Assigning order numbers..... | 314 |
| Order numbering two cards for same registrant..... | 315 |
| Order numbering cards received late.... | 316 |

313. *The national lottery and the national master list.* At a national lottery in Washington a set of serial numbers, from "1" to include the largest number used by any local board, will be drawn by lot. The list of serial numbers, arranged in the order drawn in the lottery, is called the National Master List. Copies of the list will be sent, through the Governor, to each local board.

314. *Assigning order numbers.* a. Upon receiving the National Master List, the local board shall give each registrant an *order number*. The greatest care must be used in the assignment of *order numbers* because the *order numbers* establish the order in which the registrants will be selected for service. The registrant whose serial number appears at the top, or nearest the top of the National Master List shall get *Order Number 1*. The registrant whose serial number is next closest to the top of the National Master List shall get *Order Number 2*. The registrant whose serial number is third closest to the top of the list shall get *Order Number 3*, and so on until each registrant has an *order number*. *Order numbers* must be assigned in sequence; no *order number* shall be skipped. Serial numbers on the National Master List which are not held by any registrant of the particular local board are simply crossed off the National Master List and ignored. It is suggested that the local board shall as its first step in the assignment of *order numbers* mark the *order numbers* opposite the applicable serial numbers on the National Master List.

b. Example: Suppose the National Master List begins:

258
7
3225
119
634

and that a certain local board's largest serial number is 2,104 and that for some reason (Sec. XV) it has no card serial numbered 119. Then:

Serial Number 258 gets *Order Number 1*

Serial Number 7 gets *Order Number 2*

Serial Number 3225

Serial Number 119

Serial Number 634 gets *Order Number 3*

c. Before the *order numbers* are placed on the registration cards, the local board must be sure that its assignment of *order numbers* without exception agrees with the order in which the serial numbers on its cards appear on the National Master List. The oversight of one serial number will upset every *order number* below it, and if the *order numbers* have been placed on the cards before the mistake is found, blotched cards will be the result.

d. When the local board is sure that its assignment of *order numbers* is correct, it shall enter them on the registration cards in red ink in the place designated.

315. *Order numbering two cards for same registrant.* a. If a local board has two cards for the same registrant, the card whose serial number comes earliest in the National Master List shall be given its proper *order number*. The other card shall be marked "Canceled. Duplicate."

b. If a registrant is registered with two local boards when the National Master List is received, each board shall put an *order number* on the card it has, just as if he were registered with only one local board.

316. *Order numbering cards received late.* The local board may receive a registration card after its cards are *order numbered*. The card is first given a serial number in the manner prescribed in paragraph 305. Then from the National Master List the board shall find what the registrant's *order number* would have been if his card had been received earlier. The board shall give him the *order number* before the one he would have gotten, and shall add a letter to it. For example, suppose his *order number* would have been 84. The board gives him 83A.

SECTION XVII—PREPARATION FOR CLASSIFICATION

317. *Records.* a. As soon as *order numbering* is completed (Sec. XVI), the local board shall prepare the forms and records explained in this paragraph.

b. *Placing order numbers on list of registrants (Form 3).* The local board shall place the *order numbers* in the first column of both the publicly posted and the file copy of the list of registrants, and again post one copy. One copy shall also be given to the press.

c. *Beginning Classification Record (Form 100).* On Form 100 shall be listed all registrants according to their *order numbers*, with *Order Number 1* at the top.

d. *Beginning cover sheet (Form 53).* After a registrant is listed on the Classification Record (Form 100), the local board shall open an individual file for him by preparing a cover sheet (Form 53) for his records. File these cover sheets in sequence of *order numbers* in file cabinets. Every paper pertaining to a registrant, except his registration card, shall be filed in his cover sheet (Form 53).

e. *Filing registration cards alphabetically.* After entering *order numbers* on the Classification Record (Form 100), the local board shall file the registration cards alphabetically for use as a card index.

f. *Public posting of Form 43.* Before the first questionnaires are mailed, the board shall post in public place the notice to registrants and to the public (Form 43), duly stamped and signed by a member of the local board. Also the board shall release this notice to the press.

318. *Procedure with cards received late.* a. If a registration card is received after the *order numbers* are assigned, the local board shall *order number* it as prescribed in paragraph 316, and shall then proceed as explained in the following subparagraphs.

b. *List of registrants (Form 3).* The local board shall enter the registrant on both copies of the list of registrants (Form 3), as explained in paragraph 311, and report by letter to the Governor.

c. *Classification Record (Form 100).* The local board shall enter the registrant at the bottom of the Classification Record (Form 100). To insure that his case will always be handled in its proper turn, the local board shall insert in the

column of *order numbers*, at the place where his order number belongs, an "R" followed by the page on which his name appears. For example, if his special *order number* is 83A, and his name appears on page 30 of the Classification Record, print "R page 30" between *order numbers* 83 and 84.

d. Cover sheet (Form 53). Prepare and file his cover sheet.

e. Questionnaire (Form 40). If questionnaires have been mailed to men who have larger *order numbers* than his, mail his questionnaire at once (see par. 319).

319. Mailing questionnaires. *a.* The local board shall begin mailing questionnaires (Form 40) to registrants as soon as the first few are ready; that is, before the Classification Record and cover sheets for all registrants have been prepared as explained in paragraph 317. To begin with, it is suggested they should not be mailed at the rate of more than 50 each day, in order to avoid too heavy a burden of classification in the early stages. Questionnaires shall be mailed out to registrants strictly in accordance with their *order numbers*. **THIS IS VERY IMPORTANT.**

b. Before a questionnaire is mailed, the local board shall:

Prepare the questionnaire by placing on page 1 the registrant's name, address, and the other information called for, the date of mailing, the date on which the questionnaire is to be returned (see par. 320), the address and stamp of the local board, and the signature of a member of the local board.

Enter the date of mailing on the Classification Record.

Post in a public place Form 55, showing the registrants whose questionnaires have been mailed that day.

c. At the end of each week, the local board shall report to the Governor by letter (1) the number of questionnaires mailed that week, (2) the total number mailed to date, and (3) the fact that Form 55 was properly posted each day that questionnaires were mailed out.

d. If an extension of time for returning the questionnaire is granted before mailing, see paragraph 320c.

320. Time allowed to return question-

naire. *a.* Unless the local board grants an extension of time, as explained below, the registrant shall be allowed 5 days in which to return his questionnaire. The 5 days are counted as beginning on the day after mailing.

b. If the registrant has a valid reason, the local board may grant an extension of time for returning the questionnaire. Examples of valid reasons are:

Too sick to answer the questionnaire;

Too far away to receive and return the questionnaire by mail in 5 days;

Necessary affidavits cannot be obtained in 5 days.

c. If the local board knows, before mailing the questionnaire, that an extension of time will be necessary, it shall complete the minute of action on the last page of the questionnaire before mailing. If an extension of time is requested after the questionnaire is mailed, the local board shall require the return of the questionnaire. It shall then complete the minute of action, change the date of return (on the first page), and again deliver the questionnaire.

321. Assistance to registrants in filling out questionnaires. Advisory boards for registrants (Vol. One, "Organization and Administration") will help registrants fill out questionnaires. The local board shall request newspapers to publish full information about the advisory boards. Registrants who ask the local board for advice or assistance shall be directed to the advisory board for registrants.

322. Claims for, or information relating to, deferment. *a.* The registrant shall be entitled to present all written evidence which he believes to be necessary to assist the local board in determining his proper classification. Such evidence should be included in or attached to the questionnaire, and may include any documents, affidavits, or depositions. The affidavits and depositions shall be as concise and brief as possible.

b. Any person other than the registrant who has cause to claim that the registrant should be deferred may obtain Form 42 from the local board, make out the claim, and file it directly with the local board. Such claims must be filed within the time allowed for the registrant to return his questionnaire. (See par. 320.)

c. Any person so claiming that the registrant should be deferred shall be entitled to present evidence in support of his claim. Such evidence should be included in or attached to Form 42, and may include any documents, affidavits, or depositions supporting the claim. The affidavits or depositions shall be as concise and brief as possible.

323. *Questionnaire of man leaving United States.* Before the local board issues any registrant a permit to leave the United States (see Vol. One, "Organization and Administration"), it may require him to file his completed questionnaire. The local board in such a case may thereupon classify such registrant if that appears necessary to a determination of the advisability of issuing the permit.

324. *Inadequate questionnaire.* When a registrant's questionnaire omits needed information, or contains material errors, or shows that the registrant failed to understand the questions, or when the local board deems more information necessary, it has authority to summon the registrant and other witnesses before it, using interpreters if necessary (see par. 325). The board shall make a written summary of any pertinent oral testimony, and file it with the questionnaire. The board may send the questionnaire back to the registrant for correction, and direct him to return it within a time which the board shall specify. *While the questionnaire must be filled out in strict obedience to the instructions, the local board should be guided by common sense rather than by technicalities.*

325. *Subpoena power of local board.* The local board shall have full authority to summon any person to appear and testify under oath as a witness before it in regard to facts, matters, and information within the knowledge of such person relating to any proceeding pending before the board, and to produce such papers and records as may be deemed necessary, and it shall be the duty of the person so summoned to comply therewith. Such summons (Form 56) shall be directed to the person to be produced as a witness and may be served by any police officer. The witness shall be compelled to appear and testify before the local board in the same manner as witnesses may be compelled to appear and testify in court.

The local boards shall be entitled, upon summary application, to the aid of the courts of the United States to compel such attendance and the giving of testimony. The local board may avail itself of the services of any police officer necessary to the performance of its functions.

SECTION XVIII—CLASSIFICATION

| Classification before physical examination..... | 330 |
| Classification after physical examination..... | 331 |
| Notice and records of classification..... | 332 |
| Classification not permanent..... | 333 |

326. *Responsibility of local board.* a. With certain limited exceptions, the Selective Service Act provides that each male citizen and declarant alien between the ages of 21 and 36 is liable for training and service in the land and naval forces of the United States. It is the local board's responsibility to decide in the first instance in which class each registrant should be placed. This should be accomplished so as to give equal and fair justice to all. The entire administration of the selective service law shall be impartial and free from any political influences. There shall be no discrimination for or against any person because of his race, creed, or color, or because of his membership or activity in any labor, political, religious, or other organization.

b. Classification is the key to selection, and it must be accomplished in the spirit of the Selective Service Act, in the preamble of which Congress has declared "That in a free society the obligations and privileges of military training and service should be shared generally in accordance with a fair and just system * * *."

327. *Four classes.* Sections XXI to XXIV prescribe the conditions which govern the determination of the class in which the registrant is to be placed. Every registrant belongs in one of four main classes:

Class I. Available for service.

Class II. Deferred because of occupational status.

Class III. Deferred because of dependents.

Class IV. *Deferred* specifically by law or because unfit for military service.

Classification of conscientious objectors is provided for in Section XXV.

328. Subclasses. The four main classes are further divided into the subclasses shown below. Class I-A is the highest classification; Class IV-F is the lowest.

Class I

- Class I-A: Available; fit for general military service----- (Par. 342)
- Class I-B: Available; fit only for limited military service----- (Par. 343)
- Class I-C: Member of land or naval forces of United States----- (Par. 344)
- Class I-D: Student fit for general military service; available not later than July 1, 1941----- (Par. 345)
- Class I-E: Student fit only for limited military service; available not later than July 1, 1941----- (Par. 346)

Class II

- Class II-A: Man necessary in his civilian activity----- (Sec. XXII)

Class III

- Class III-A: Man with dependents (Sec. XXIII)

Class IV

- Class IV-A: Man who has completed service----- (Par. 357)
- Class IV-B: Official deferred by law (Par. 358)
- Class IV-C: Nondeclarant alien--- (Par. 359)
- Class IV-D: Minister of religion or divinity student----- (Par. 360)
- Class IV-E: Conscientious objector available only for civilian work of national importance----- (Par. 361)
- Class IV-F: Physically, mentally or morally unfit----- (Par. 362)

329. Commencement of classification.
a. After receiving the registrant's questionnaire, the local board shall determine in which class the registrant should be placed (see Secs. XXI to XXIV). Each registrant is to have only one classification at a time. He shall be placed in the lowest class (Class I-A is the highest and Class IV-F is the lowest) for which grounds are established. Unless an appeal is made, the local board need not consider any grounds for deferment in any classification higher than that to which the registrant has been assigned.

b. The classification shall be made solely on the basis of the questionnaire and of all other information contained in the registrant's file, whether in the form of affidavits, depositions, or other

documents, or in the form of written summaries of testimony given before the local board. Any testimony which the local board receives shall be summarized by the board and included in his individual file. No evidence may be considered which is not contained in his individual file, and the registrant shall be permitted to examine such file. For regulation on confidential nature, of certain records, see paragraph 165, Vol. I.

330. Classification before physical examination. *a.* Since each registrant is to be placed in the lowest classification for which grounds are established, the local board should first determine whether the registrant belongs in some subclass in Class IV. If the registrant belongs in Class IV, he should be placed in the lowest applicable subclass. However, since the determination of the question of conscientious objection is not to be made until after the physical examination, the local board should not at this stage place any registrant in Class IV-E (see par. 363). If the registrant is not placed in any subclass of Class IV, the local board should next determine whether the registrant belongs in Class III-A. If the registrant is not placed in Class III-A, the local board then determines whether the registrant should be placed in Class II-A. If the local board classifies the registrant in Class IV, Class III, or Class II, the local board shall then take the steps specified in paragraph 332. If the local board does not classify the registrant in Class IV, Class III, or Class II, the local board shall then have the registrant physically examined in the manner provided in Section XX.

b. A registrant may be placed in Class IV-F *without physical examination* if he has any obvious physical, mental, or nervous disability which permanently disqualifies him for any form of military service (see par. 362). If the registrant is so placed in Class IV-F, the local board shall then take the steps specified in paragraph 332, shall record its findings, shall prepare a report on Form 200, and shall send the duplicate thereof to the Governor as provided in paragraph 341.

331. Classification after physical examination. *a.* If the registrant has not been placed in Class IV, Class III, or Class II, before physical examination in accordance with paragraph 330, the local

board, as soon as it has received the findings of its examining physician and, in appropriate cases, the findings of the medical advisory board (par. 339), shall record its findings as to physical qualifications and classify the registrant in Class I-A, Class I-B, Class I-D, Class I-E, Class IV-E, or Class IV-G, whichever is applicable, and shall then take the steps prescribed in paragraph 332. In the case of registrants who claim to be conscientious objectors (Sec. XXV) or college or university students (par. 345, 346), the local board will, of course, have to determine these questions before making the classification.

b. If the local board, after finding that the registrant is fit for either general or limited military service, determines that the registrant is a conscientious objector only to combatant service, the local board shall add the letter "O" to the registrant's classification (see par. 364) to indicate that it has made such determination. If the local board, after finding that the registrant is fit for either general or limited military service, determines that the registrant is a conscientious objector to both combatant and noncombatant service, the local board shall place the registrant in Class IV-E (see par. 365). In the case of any registrant who is placed in Class IV-E, if the local board determines that the registrant, but for the fact that he has been determined to be a conscientious objector, would have been classified in Class I-D or Class I-E, the local board shall add the letter "S" to the IV-E classification to indicate his student status.

332. *Notice and records of classification.* On the same day that the local board classifies a registrant it shall:

a. Mail the registrant a Notice of Classification (Form 57). If the registrant is placed in Class II, include the date on which the deferment expires (see par. 353).

b. Complete the appropriate record on the last page of the questionnaire (Form 40).

c. Enter the date of mailing of the Notice of Classification (Form 57).

d. Enter the classification itself on the Classification Record (Form 100). If the registrant is placed in Class IV, a capital letter showing the appropriate

subclass in which the registrant is classified should be placed under the column headed "IV." (For example, to show that the registrant has been placed in Class IV-ES, place "ES" under Class IV.) If the registrant is placed in Class III or Class II, the capital letter "A" shall be placed under the column headed "III" or "II," whichever is applicable. If the registrant is classified in a subclass of Class I, an "X" should be placed opposite the registrant's name in the column headed "A," "B," "C," "D," or "E," whichever is applicable, under the heading "Class I."

333. *Classification not permanent.* No classification is permanent. The deferment of any registrant is subject to termination whenever the basis for such deferment ceases to exist. Every registrant shall notify his local board of any change which would require his reclassification. The local board shall reclassify a registrant whenever it receives new information warranting such action. The registrant may also be reclassified if it becomes necessary as a result of any changes in the rules and regulations under the Selective Service Act. For reclassification, see Section XXX.

SECTION XIX—CLASSIFICATION OF VOLUNTEERS BETWEEN THE AGES OF 18 AND 36

| | Paragraph |
|-----------------------------------|-----------|
| Who may volunteer..... | 334 |
| Classification of volunteers..... | 335 |

334. *Who may volunteer.* Men between the ages of 18 and 36 may volunteer at the local board for induction into the land and naval forces for training and service under the Selective Service Act. The local board shall not accept for induction any person who is under 21 years of age unless he furnishes the local board with the written consent of his parents. However, the local board may dispense with this consent upon a showing that the consent of any parent cannot be obtained because the parent is absent and cannot be reached. The term "parent" in this paragraph includes guardian. If the volunteer has no parents living and has no guardian, he shall submit a statement to that effect to the local board. There is no special form for parents' or guardian's consent.

335. *Classification of volunteers.* a. The classification of volunteers shall be

made in exactly the same manner as the classification of a person who has duly registered under the provisions of the Selective Service Act. In the case of a volunteer who is under 21 years of age and who has not registered, the local board shall fill out a registration card for such volunteer in the same manner as is prescribed in section XIII of Volume II, and thereafter such volunteer shall be classified as if he were a registrant.

b. In the case of volunteers, a "V" shall be placed in the place marked "Order Number" on the registration card to indicate that they are volunteers. The Selective Service Act provides that volunteers shall not be inducted if, after classification, they are deferred.

SECTION XX—PHYSICAL EXAMINATION

| | Paragraph |
|------------------------------------------------------------|-----------|
| Order to Report for Physical Examination | 336 |
| Preparing Report of Physical Examination | 337 |
| Physical Examination | 338 |
| Cases sent to medical advisory board, by local board | 339 |
| Malingeringers | 340 |
| Transmitting duplicate of Form 200 to Governor | 341 |

336. *Order to report for physical examination.* a. If the local board, in making its classifications before physical examination, did not classify the registrant in Class IV, Class III, Class II, or Class I-C (see Par. 330), it shall, in time to allow it to fill its quota requirements, mail him a notice to appear for physical examination (Form 201). The notice shall fix a time and place for the registrant to report. The appointed time will normally be five days after the date of mailing the notice.

b. *Permissible delays.* Any registrant who is quarantined because of a communicable disease shall be excused from examination until he is released from quarantine by the health authorities. Any registrant who is sick, or who has some temporary defect, or is awaiting an operation, or who has any other good excuse, may be granted a reasonable delay for completing his physical examination.

c. *Entry on Classification Record (Form 100).* The date of mailing of Form 201 shall be noted on the Classification Record (Form 100). The date on which the registrant reports for examination shall also be noted.

337. *Preparing Report of Physical Examination (Form 200).* a. After the local board has mailed to the registrant an order to report for examination, it shall prepare Form 200 ("Report of Physical Examination") for delivery to the examining physician. The local board shall enter its stamp and the registrant's name, address, and other information on this form. Entries should be made with typewriter or black ink. All entries shall be made on both copies. Only originals should be signed.

b. The local board shall deliver the prepared forms to the examining physician before the date on which the registrant is to report.

338. *Physical examination.* a. The examining physician shall examine the registrant, in accordance with Vol. Six, "Physical Standards."

b. The examining physician shall fill out the appropriate parts of the Report of Physical Examination (Form 200), in duplicate. Unless in doubt about the registrant's physical qualifications, the examining physician shall enter his findings as to the registrant's qualification for military service.

c. When in doubt about the registrant's physical qualification, the examining physician shall request the local board to send the registrant to a medical advisory board. (See par. 339.) Upon receiving the report of the medical advisory board, the examining physician shall enter his findings, as in b above.

339. *Cases Sent to Medical Advisory Board, by Local Board.* a. *What Cases Sent.* The local board shall send a registrant before the nearest medical advisory board whenever the examining physician or the government appeal agent so requests, or a majority of the local board is dissatisfied with the examining physician's finding.

b. *How Sent.* After proper entries are made on both copies of the Report of Physical Examination (Form 200), the original Form 200 and any other evidence on the registrant's physical condition shall be sent to the medical advisory board. The duplicate Form 200 remains in the registrant's cover sheet. The local board shall direct the registrant when and how to report to the medical advisory board. He shall be given neces-

sary transportation, meals, and lodging for the travel and for the time, not exceeding 3 days, that he will be before the medical advisory board. (See Vol. Five, "Finance.")

c. Action by Medical Advisory Board. The full board, or one or more of its members, as may be necessary in the particular case, shall set on the case. The board, or one or more members, shall examine the registrant, record the findings on the Form 200, and return the Form 200 to the local board.

d. Delay by Medical Advisory Board. If the Medical Advisory Board delays its examination of a registrant more than 3 days to await correction of a temporary defect, it shall return the registrant's Form 200 to the local board, with a statement (attached to the Form 200 but not written upon it) of the cause of delay and the time when the registrant should return for further examination. The local board normally shall send the registrant and his Form 200 back to the medical advisory board at the time specified. However, if the local board believes the defect corrected, it may send him back earlier; or if it believes more delay is needed, it may set a later date; or if it decides that further examination is unnecessary, it may proceed without sending him back to the medical advisory board. If, in a case of an appeal, the local board, after receiving the report of the medical advisory board, determines that the registrant should be reclassified it shall do so in accordance with the rules governing reclassification (Section XXX) and shall not forward the appeal to the appeal board.

e. Completing Form 200. All entries made by the medical advisory board on the original Form 200 will be copied by the local board onto the duplicate Form 200 in the registrant's file.

340. Malingerers. *a.* If a registrant claims an ailment or defect which the local board cannot detect, or if the local board believes him to be feigning the ailment or defect, it shall attach a statement of the facts and its opinion to both copies of Form 200.

b. If the local board believes that a registrant's disqualifying physical defects are self-inflicted or purposely caused to avoid military service the board

shall immediately prepare in duplicate a full statement of the facts and the board's recommendations. The original of this statement, with the original Report of Physical Examination (Form 200) shall be sent to the Governor, and the duplicate filed with the duplicate Form 200 in the cover sheet. If the registrant is capable of any duty at all, and the local board recommends his induction, the Governor shall transmit the record to the Director of Selective Service, or may direct that the registrant be reported to a United States district attorney for prosecution.

341. Transmitting duplicate of Form 200 to Governor. As soon as the time allowed for appeal of the registrant's classification has elapsed, or as soon as the board of appeal has acted on the appeal (Sec. XXVII), the duplicate of the Report of Physical Examination (Form 200) shall be sent to the Governor for forwarding to the Director of Selective Service.

SECTION XXI—CLASS ONE: AVAILABLE FOR SERVICE

| | Paragraph |
|------------------------------------------------------------------------------------------------------|-----------|
| Class I-A: Available; fit for general military service..... | 342 |
| Class I-B: Available; fit only for limited military service..... | 343 |
| Class I-C: Member of land or naval forces of United States..... | 344 |
| Class I-D: Student fit for general military service; available not later than July 1, 1941..... | 345 |
| Class I-E: Student fit only for limited military service; available not later than July 1, 1941..... | 346 |
| Conditions on student deferment..... | 347 |
| Definition of college or university..... | 348 |
| Length of deferment for college or university students..... | 349 |

342. Class I-A. In Class I-A shall be placed every registrant who after physical examination is found fit for *general* military service, according to the standards prescribed in Volume Six, Physical Standards, and who is not classified in Class I-D.

343. Class I-B. In Class I-B shall be placed every registrant who after physical examination is found fit only for *limited* military service according to the standards prescribed in Volume Six, Physical Standards, and who is not classified in Class I-E. Men in Class I-B, unless reclassified, shall not be inducted until such time as they may be

acceptable to, and called by, the land or naval forces for training and service.

344. *Class I-C.* a. In Class I-C shall be placed every registrant who is, or who by induction or enlistment becomes, a commissioned officer, warrant officer, field clerk, pay clerk, or enlisted man of the Regular Army, the Navy, the Marine Corps, the Federally recognized active National Guard, the Officers' Reserve Corps, the Regular Army Reserve, the Enlisted Reserve Corps, the Naval Reserve, or the Marine Corps Reserve; or a cadet of the United States Military Academy; or a midshipman of the United States Naval Academy; or a man who has been accepted for admittance (commencing with the academic year next succeeding such acceptance) to the United States Military Academy as a cadet or to the United States Naval Academy as a midshipman, but only during the continuance of such acceptance.

b. Registrants who enlist or are inducted in the land or naval forces of the United States, other than those who volunteer at, or are inducted through, the local board, shall be classified in Class I-C only after their Home Address Reports (Form 166) are received from State headquarters. However, when authentic information (other than a Home Address Report) is received that a registrant has become a member of the land and naval forces, an appropriate notation shall be made in the remarks column of the Classification Record. Upon receipt of a Home Address Report from State Headquarters such report shall be checked against the list of registrants, and any registrant appearing upon this report shall forthwith be classified as Class I-C, and no questionnaire shall be mailed this registrant. All Home Address Reports received shall be filed in one place, and no classification shall be given any man appearing on the Home Address Report who is not a registrant. The local board shall write on each Home Address Report "Registrant" or "Non-registrant" as the case may be.

345. *Class I-D—Student fit for general military service available not later than July 1, 1941.*—In Class I-D shall be placed every college or university student who meets all of the conditions specified in paragraph 347 and who after physical

examination is found fit for *general* military service, according to the standards prescribed in Volume VI, "Physical Standards."

346. *Class I-E—Student fit only for limited military service; available not later than July 1, 1941.*—In Class I-E shall be placed every college or university student who meets all of the conditions specified in paragraph 347 and who after physical examination is found fit only for *limited* military service, according to the standards prescribed in Volume VI, "Physical Standards."

347. *Conditions on student deferment.* No registrant shall be placed in Class I-D or Class I-E unless he *meets all of the following conditions*:

a. He shall request that he be deferred from induction;

b. He entered upon attendance in a college or university, as defined in paragraph 348 for the academic year 1940-41, and before January 1, 1941;

c. He is in substantially full-time attendance at such college or university and is there a bona fide student pursuing a course of instruction which the college or university requires be satisfactorily completed as a prerequisite to conferring degrees in the arts or sciences (such as undergraduate or bachelor's degrees or master's, doctor's, professional, or other advanced degrees), or as a prerequisite to conferring certificates which are accepted as a credit toward such degrees by colleges or universities which confer such degrees. The taking of a correspondence course shall not be cause for deferment for any registrant.

348. *Definition of college or university.* The term "college or university" shall include only an advanced educational institution which regularly grants to students who have satisfactorily passed prescribed courses of instruction, degrees in the arts or sciences (such as undergraduate or bachelor's degrees or master's, doctor's, professional, or other advanced degrees), and any junior college or other college which regularly grants to students certificates which are accepted by such advanced institutions as a credit toward such degrees.

349. *Length of deferment for college or university students.* Registrants classified in Class I-D or Class I-E shall be deferred until the end of their academic

year 1940-41, or until July 1, 1941, whichever occurs first. Men in Class I-E, unless reclassified, shall not be inducted until such time as they may be acceptable to, and called by, land or naval forces for training of service.

SECTION XXII—CLASS TWO: OCCUPATIONAL DEFERMENTS

| | Paragraph |
|-----------------------------------------------------|-----------|
| General rules for classification of Class II-A..... | 350 |
| "Necessary man" defined..... | 351 |
| Composition of Class II-A..... | 352 |
| Length of deferment for Class II-A..... | 353 |

350. *General rules for classification of Class II-A.* a. On the local board is placed the responsibility of deciding which men should be deferred because of their civilian activities. It is in the national interest and of paramount importance to our national defense that civilian activities which are contributing to the national health, safety, and interest should be disrupted as little as possible, consistent with the fundamental purpose of the Selective Service Act.

b. Section 5 (e) of the Selective Service Act provides: "No deferment from training and service shall be made in the case of any individual except upon the basis of the status of such individual, and no deferment shall be made of individuals by occupational groups or groups of individuals in any plant or institution."

c. The local board may avail itself of the assistance of all Federal, State, or local agencies (such as the State Employment Service, State Advisors on Occupational Deferments (see paragraph 124, Vol. One), county agricultural agents, or others) to obtain information in cases of occupational deferments. The local board may request the State Employment Service to assign an agent to it for the purpose of securing such information.

351. *"Necessary man" defined.* A registrant shall be considered a "necessary man" in industry, business, employment, agricultural pursuit, governmental service, or in any other service or endeavor, including training or preparation therefor, *only when all of these conditions exist:*

a. He is, or but for a seasonal or temporary interruption would be, engaged in such activity.

b. He cannot be replaced satisfactorily because of a shortage of persons with his qualifications or skill in such activity.

c. His removal would cause a material loss of effectiveness in such activity.

352. *Composition of Class II-A.* a. In Class II-A shall be placed any registrant found to be a "necessary man" in any industry, business, employment, agricultural pursuit, governmental service, or any other service or endeavor, or in training or preparation therefor, the maintenance of which is necessary to the national health, safety, or interest in the sense that it is useful or productive and contributes to the employment or well-being of the community or the Nation.

b. In determining whether a registrant is a "necessary man," the local board shall give due consideration to those registrants engaged in any activity which is essential to the national health, safety, or interest in the sense that a serious interruption or delay in such activity is likely to impede the national defense program.

353. *Length of deferments for Class II-A.* Class II-A deferments shall not be for a period longer than six months. However, such deferments shall be renewed for further periods of not to exceed six months, unless the local board shall determine that the registrant should be reclassified as provided in Section XXX.

SECTION XXIII—CLASS THREE: DEPENDENCY DEFERMENTS

| | Paragraph |
|--------------------------------|-----------|
| Composition of Class III..... | 354 |
| "Dependent" defined..... | 355 |
| Certain relatives defined..... | 356 |

354. *Composition of class III.* a. In Class III shall be placed any registrant upon whom one or more dependents, as defined in paragraph 355, depend for support in a reasonable manner.

b. The local board should determine all questions of Class III deferments with sympathetic regard for the registrant and his dependents. Any reasonable doubts in connection with dependency should be resolved in favor of deferment, and in doubtful cases the local board should be mindful of injuries which may be expected to result from separating a father from his children or a husband

from his wife. The maintenance of the family as a unit is of importance to the national well-being.

c. No hard-and-fast rules will work. Each case must be weighed carefully and decided on its own merits. What is reasonable support in one locality or in one set of circumstances may not be in others. The local board should be diligent in preventing registrants from evading military service where their status with respect to dependents does not warrant their deferment, but the local board must be equally diligent in making its classifications to protect the registrant's dependents.

d. The local board may avail itself of the assistance of State or local welfare agencies for information on doubtful matters concerning dependency. The local board may request such welfare agencies to assign an agent to it for this purpose.

355. *"Dependent" Defined.* A person shall be considered a registrant's dependent only when all of the following conditions are satisfied:

a. Such person must be either (1) the registrant's wife, divorced wife, child, parent, grandparent, brother, or sister, or (2) a person under 18 years of age, or a person of any age who is physically or mentally handicapped, whose support the registrant has assumed in good faith.

b. Such person must either be a United States citizen or live in the United States, its Territories, or possessions.

c. Such person, *at the time the registrant is classified*, must depend in fact for support in a reasonable manner, in view of such person's circumstances, on income earned by the registrant by his work in a business, occupation, or employment (including employment on work relief projects but excluding employment as an enrollee in the Civilian Conservation Corps and similar employment in the National Youth Administration).

d. Such person must in fact regularly receive from the registrant contributions (including payments to a divorced wife) to the support of such person and such contributions must not be merely a small part of such person's support. Even though the registrant is unable to furnish to such person money or other support for temporary periods because of the registrant's physical or economic sit-

uation, he may be considered to be regularly contributing to such person's support, if such person and the community look upon the registrant as the normal source of such person's support.

356. *Certain relatives defined.* a. The term "child" includes an unborn child, a child legally adopted, or a child born out of wedlock but shall not include any person 18 years of age or over unless he is physically or mentally handicapped.

b. The term "parent" includes a person who is supported in good faith by the registrant in a relationship similar to that of parent and child.

c. The term "brother" or "sister" shall include only a person, having one or both parents in common with the registrant, who is either under 18 years of age or is physically or mentally handicapped.

SECTION XXIV—CLASS FOUR: MISCELLANEOUS DEFERMENTS

| | Paragraph |
|------------------------------------------------------------------------------------------------|-----------|
| Class IV-A: Man who has completed service ----- | 357 |
| Class IV-B: Official deferred by law ----- | 358 |
| Class IV-C: Nondeclarant alien ----- | 359 |
| Class IV-D: Minister of religion or divinity student ----- | 360 |
| Class IV-E: Conscientious objector available only for civilian work of national importance --- | 361 |
| Class IV-F: Physically, mentally or morally unfit ----- | 362 |

357. *Class IV-A—Man who has completed service.* In Class IV-A shall be placed any registrant who falls within any of the following categories:

a. Any man (1) who shall have served for at least three consecutive years in the Regular Army and (2) who shall have received an honorable discharge therefrom.

b. Any man (1) who shall have served as a member of the active National Guard for at least one year in active Federal service in the Army of the United States and (2) who *subsequent* thereto served for at least two consecutive years in the Regular Army or in the active National Guard and (3) who shall have received an honorable discharge from such services.

c. Any man (1) who was in the active National Guard on the date on which, but for the fact that he was in the active National Guard, he would have been required to register under the selective service law, and (2) who shall have served herein for at least six consecutive

years and (3) who shall have received an honorable discharge therefrom.

d. Any man (1) who was on the eligible list in the Officers' Reserve Corps on the date on which, but for the fact that he was on the eligible list in the Officers' Reserve Corps, he would have been required to register under the selective service law, and (2) who shall have served therein on the eligible list for at least six consecutive years and (3) who shall have received an honorable discharge therefrom.

358. *Class IV-B.* In Class IV-B shall be placed any registrant who is the Vice President of the United States, a Governor of a State, a Member of the Congress of the United States, a member of a State legislative body, a judge of a court of record of the United States or of a State; or who is a commissioned officer, warrant officer, pay clerk, or enlisted man in the Coast Guard, the Coast and Geodetic Survey, the Public Health Service; or who is a cadet of the United States Coast Guard Academy; or who has been accepted for admittance (commencing with the academic year next succeeding such acceptance) as a cadet in the United States Coast Guard Academy, but only during the continuance of such acceptance; or who is a cadet of the advanced course, senior division, of the Reserve Officers' Training Corps or the Naval Reserve Officers' Training Corps.

359. *Class IV-C.* a. In Class IV-C shall be placed any registrant who is an alien (including a citizen of the Philippine Commonwealth) and who has not on file with the Federal Immigration and Naturalization Service a valid declaration of intention to become a citizen of the United States (first papers).

b. Whenever the local board has a perplexing alien case, it should request assistance through State headquarters from the Federal Immigration and Naturalization Service.

360. *Class IV-D.* a. In Class IV-D shall be placed any registrant who is a regular or duly ordained minister of religion or who is a student preparing for the ministry in a theological or divinity school recognized as such for more than one year prior to the date of enactment of the Selective Service Act (September 16, 1940).

b. A "regular minister of religion" is a man who customarily preaches and teaches the principles of religion of a recognized church, religious sect, or religious organization of which he is a member, without having been formally ordained as a minister of religion; and who is recognized by such church, sect, or organization as a minister.

c. A "duly ordained minister of religion" is a man who has been ordained in accordance with the ceremonial ritual or discipline of a recognized church, religious sect, or religious organization, to teach and preach its doctrines and to administer its rites and ceremonies in public worship; and who customarily performs those duties.

361. *Class IV-E.* In Class IV-E shall be placed conscientious objectors who are classified for civilian work of national importance in accordance with paragraph 367.

362. *Class IV-F.* a. In Class IV-F shall be placed registrants who are found to be physically, mentally, or morally unfit for military service; habitual criminals or persons convicted of treason, or any crime which under the laws of the jurisdiction in which they were convicted is a felony and which the local board determines renders the registrant morally unfit for service.

b. The local board may put a registrant in Class IV-F without physical examination if he has an obvious physical or mental disability which permanently disqualifies him for any form of military service.

c. The local board shall put a registrant in Class IV-F if he, upon being discharged from the Regular Army, Navy, or Marine Corps, received any one of the following:

Dishonorable discharge
Army, Navy, or Marine Corps
Bad-conduct discharge. Navy or Marine Corps
Discharge, not honorable (blue)----- Army
Undesirable discharge. Navy or Marine Corps

SECTION XXV—CLASSIFICATION OF CONSCIENTIOUS OBJECTORS

| Paragraph | |
|---------------------------------------------------------------------------|-----|
| Procedure on claims of conscientious objectors----- | 363 |
| Conscientious objectors opposed to combatant service only----- | 364 |
| Conscientious objectors opposed to combatant and noncombatant service---- | 365 |
| Register of conscientious objectors----- | 366 |

363. *Procedure on claims of conscientious objectors.* A registrant who claims to be a conscientious objector shall offer information in substantiation of his claim on a special form (Form 47) which when filed shall become a part of his questionnaire. The local board, upon request, shall furnish any person claiming to be a conscientious objector, a copy of such special form (Form 47). In the case of any registrant who claims to be a conscientious objector, the local board shall proceed in the ordinary course to classify him upon all other grounds of deferment and shall investigate and pass upon his claim as a conscientious objector only if, after physical examination, but for such claim, he would have been placed in Class I-A, Class I-B, Class I-D, or Class I-E. The procedure for appeal from a decision of the local board on a claim for conscientious objection is provided for in paragraph 375.

364. *Conscientious objectors opposed to combatant service only.* a. If the local board finds that a registrant, who has been placed after physical examination in Class I-A, Class I-B, Class I-D, or Class I-E, and who claims to be a conscientious objector, is, by reason of his religious training and belief, conscientiously opposed to combatant service in which he might be ordered to take human life, but is not conscientiously opposed to noncombatant service in which he could contribute to the health, comfort, and preservation of others, the local board shall determine that the registrant is available for noncombatant service only.

b. Whenever a registrant is thus determined to be available for noncombatant service only, the local board shall indicate this by placing an "O" after the letter indicating his subclass on all records, reports, orders, and other papers on which the registrant is mentioned by name. For example: Class I-A-O, Class I-B-O, Class I-D-O, or Class I-E-O.

365. *Conscientious objectors opposed to combatant and noncombatant service.* If the local board finds that a registrant, who but for his conscientious objection to both combatant and noncombatant service, would have been placed in Class I-A, Class I-B, Class I-D, or Class I-E, is, by reason of his religious training and belief, opposed to both combatant and

noncombatant service, he shall be placed in Class IV-E. Registrants in Class IV-E shall be liable to be assigned to work of national importance under civilian direction under such rules and regulations as may be later prescribed.

366. *Register of Conscientious Objectors.* The local board shall list on a Register of Conscientious Objectors any registrant whose claim for special classification as a conscientious objector has been sustained by the local board and, if an appeal is taken, by the board of appeal. The Register of Conscientious Objectors shall show separately which registrants have been classified for noncombatant service in the land and naval forces and those who have been classified as not available for either combatant or noncombatant service in the land and naval forces, but available for work of national importance under civilian direction. No special blank form is provided for this Register.

SECTION XXVI—APPEARANCE BEFORE LOCAL BOARD

| | Paragraph |
|----------------------------------------|-----------|
| Opportunity to appear in person----- | 367 |
| Request for opportunity to appear----- | 368 |
| Appearance before local board----- | 369 |

367. *Opportunity to Appear in Person.* Every registrant who is classified in Class 1-A, Class 1-B, Class 1-D, Class 1-E, or Class IV-E (including any such registrant to whose classification has been added the letter "O" or "S") shall have an opportunity to appear in person before the local board if he so requests in writing. Inasmuch as registrants classified in Class 1-B or Class 1-E will not be inducted into service until called by the land or naval forces, the appearance by registrants so classified shall be postponed until such time as the land or naval forces call for the induction of registrants in these classes. At that time the local board shall mail to registrants so classified a notice advising them that the land or naval forces have called for the induction of registrants in such classes and that such registrant has an opportunity to appear in person before the local board and to make an appeal to the appeal board.

368. *Request for Opportunity to Appear.* a. Unless the time therefor is extended by the local board, the written

request of a registrant who is classified in Class 1-A, Class 1-D, or Class IV-E, must be filed with the local board within five days after the local board has mailed to the registrant his Notice of Classification (Form 57), as distinguished from a Notice of Continuance of Classification (Form 58). The five days are counted as beginning on the day after the Notice of Classification is mailed.

b. Unless the time therefor is extended by the local board, the written request of a registrant who has been classified in Class 1-B or Class 1-E must be filed with the local board within five days after the local board has mailed to the registrant a notice advising the registrant that the land or naval forces have called for induction registrants in such classes and that such registrant has an opportunity to appear and to make an appeal to the appeal board (see par. 367). The five days are counted as beginning on the day after such notice is mailed.

c. Upon receipt of such written request for an opportunity to appear in person, the local board shall enter upon the Classification Record (Form 100) in the place provided therefor the date on which the request was received and the date and time fixed for the registrant to appear. The local board shall promptly mail to the registrant notice of the time and place fixed for his appearance.

369. *Appearance Before Local Board.*

a. At the time and place fixed by the local board, the registrant may appear in person before the member or members of the local board designated for this purpose. If the registrant does not speak English adequately, he may appear with a person to act as interpreter for him. No registrant may be represented before the local board by an attorney.

b. At any such appearance, the registrant may discuss his classification, may point out the class or classes in which he thinks he should have been placed, and may direct attention to any information in his file which he believes the local board has overlooked or to which he believes it has not given sufficient weight. The registrant may not introduce any new evidence not already contained in his file unless the board member or members consent. However, if the registrant claims there is any false

or misleading information in his file, he may introduce evidence supporting such claim. Such evidence must be in writing in the form of documents, affidavits, or depositions and shall be included in and made a part of his file. The affidavits or depositions should be as concise as possible under the circumstances. The member or members of the board before whom the registrant appears may impose such limitations upon the time which the registrant may have for his appearance as they deem necessary.

c. *Action by the local board after appearance.* Promptly after the registrant has appeared, the board shall enter on the Classification Record, in the place provided therefor, the fact that the registrant did so appear. If, after the registrant has appeared in person, the local board determines that the registrant should be placed in some other class, it shall reclassify the registrant in accordance with the rules governing reclassification. (See Section XXX.)

SECTION XXVII—APPEAL TO BOARD OF APPEAL

| | Paragraph |
|------------------------------------------------------------|-----------|
| Who may make appeal to board of appeal | 370 |
| Time allowed for appeal | 371 |
| How appeal to board of appeal is made | 372 |
| Procedure of local board when appeal is made | 373 |
| Procedure of board of appeal when appeal is made | 374 |
| Procedure on appeal by conscientious objectors | 375 |
| Procedure when board of appeal desires additional evidence | 376 |
| Procedure of local board when appeal is returned | 377 |
| Appeal stays induction | 378 |

370. *Who may make appeal to board of appeal.* The registrant, any person who claims to be a dependent of the registrant, a government appeal agent, the Director of Selective Service, or the State Director of Selective Service may appeal to the board of appeal from any local board classification, except that no appeal may be made by, or on behalf of, a registrant classified in Class II or Class III who claims a *lower* classification. Inasmuch as registrants classified in Class I-B or Class I-E will not be inducted into service until called by the land or naval forces, the appeals by registrants so classified who claim a *lower* classification shall be delayed until such time as the land or naval forces call for the induction of registrants in these classes.

371. *Time allowed for appeal.* a. Unless the time therefor is extended by the local board, an appeal from any appealable local board classification (other than an appeal by a registrant classified in Class I-B or Class I-E who claims a *lower* classification) shall be made within five days after the local board has mailed to the registrant his Notice of Classification (Form 57), as distinguished from a Notice of Continuance of Classification (Form 58), or, if the registrant has requested an opportunity to appear in person before the local board pursuant to paragraph 368, within five days after the day set for the registrant's appearance, whichever is the later. The five days are counted as beginning on the day after the Notice of Classification is mailed or, if the registrant has requested an opportunity to appear in person before the local board pursuant to paragraph 368, on the day after the day set for the registrant's appearance, whichever is the later.

b. Unless the time therefor is extended by the local board, an appeal from any appealable local board classification by a registrant classified in Class I-B or Class I-E who claims a *lower* classification shall be made within five days after the local board has mailed to the registrant a notice advising the registrants that the land or naval forces have called for induction registrants in such class and that such registrant has an opportunity to appear and to make an appeal to the board of appeal (paragraph 368). If the registrant has requested an opportunity to appear in person before the local board pursuant to paragraph 368, the appeal shall be made within five days after the day set for the registrant's appearance. The five days are counted as beginning on the day after such notice is mailed to the registrant, or, if the registrant has requested an opportunity to appear in person before the local board pursuant to paragraph 368, on the day after such appearance.

c. An appeal can be taken by the Director of Selective Service or by the State Director of Selective Service at any time from any determination of the local board.

372. *How appeal to board of appeal is made.* a. If the person appealing wishes the board of appeal to review a deter-

mination of the local board with respect to the registrant's physical or mental qualifications, the person appealing shall fill out and sign the form for appeal which appears on the Report of Physical Examination (Form 200). The person appealing shall attach to the report of physical examination a written statement specifying the class in which the person appealing believes the registrant should be placed.

b. If the person appealing wishes the board of appeal to review any other appealable determination of the local board, the person appealing shall fill out and sign the "appeal to board of appeal" on the questionnaire. The person appealing shall attach to the questionnaire a written statement specifying the class or classes in which the person appealing believes the registrant should be placed.

c. The statements mentioned above may specify the respects in which the person appealing believes the local board erred and may direct attention to any information in the registrant's file which the person appealing believes the local board has failed to consider or to which he believes it has not given sufficient weight, but may not present any new evidence not already contained in the registrant's file.

373. *Procedure of local board when appeal to board of appeal is made.* On an appeal to a board of appeal, the local board shall enter on the Classification Record the date on which the appeal is filed. In the case of an appeal involving a determination of the registrant's physical or mental qualifications, the local board, before forwarding the appeal to the board of appeal, shall send the registrant and evidence on his physical and mental qualifications to the medical advisory board as directed in paragraph 339, unless the medical advisory board has already made a finding thereon. The local board shall transmit to the board of appeal the registrant's file, including therein the Report on Physical Examination (Form 200) and all other reports or evidence on the registrant's physical or mental qualifications, only if these matters are involved in the review on appeal. In any appeal in which more than one deferred classi-

fication is claimed, the local board shall note its decision as to each classification.

374. Procedure of the board of appeal when appeal is made. *a.* Upon receiving an appeal, the board of appeal shall make the proper entries in its docket book (Form 102). After reviewing the papers pertaining to the registrant which the board of appeals has received from the local board, the board of appeal shall determine the lowest classification in which the registrant should be placed. After the board of appeal has reached its conclusions, it shall make the proper entries of its determination in the docket book and on either the questionnaire (Form 40) or the Report of Physical Examination (Form 200), whichever is applicable. Upon returning to a local board all papers pertaining to a registrant, the board of appeal shall have the date of return entered on the docket book.

b. In an appeal involving the question whether the registrant should be deferred on grounds of dependency, if one or more members of the board of appeal dissent from a determination that the registrant should not be deferred on such grounds, the board of appeal shall indicate on the questionnaire the numerical division of the board in determining such question.

c. In reviewing an appealed classification, except as provided in paragraph 375, the board of appeal shall consider only the evidence submitted to it by the local board. If it desires more evidence, it shall request the local board to secure that evidence (par. 376).

375. Procedure on appeal by conscientious objectors. *a.* Upon any appeal involving the question of conscientious objection, the board of appeal shall first determine all questions raised by the appeal other than the question of conscientious objection. If, without passing on the question of conscientious objection, the board of appeal determines that the registrant should be classified in Class II, Class III, or Class IV (other than Class IV-E), the board of appeal shall make no determination on the question of conscientious objection. Otherwise, the board of appeal shall refer the matter of the claim of conscientious objection to the Department of Justice for its advisory recommendations.

b. Upon such reference, the board of appeal shall transmit to the Department of Justice the records and all other evidence which were transmitted to the board of appeal by the local board in connection with the appeal. The Department of Justice shall thereupon make an inquiry and hold a hearing on the character and the good faith of the conscientious objections of the registrant. The registrant shall be notified of the time and place of such hearing and shall have an opportunity to be heard. If the objections of the registrant are found to be sustained, the Department of Justice shall recommend to the board of appeal (1) that if the registrant is inducted into the land or naval forces, he shall be assigned to non-combatant service or (2) that if the registrant is found to be conscientiously opposed to participation in such non-combatant service, he shall be assigned to work of national importance under civilian direction. If the Department of Justice finds that the objections of the registrant are not sustained, it shall recommend to the board of appeal that such objections be not sustained. Upon receipt of the report of the Department of Justice, the board of appeal shall determine the question and in its determination it shall give consideration to, but it shall not be bound to follow, the recommendation of the Department of Justice.

376. Procedure When Board of Appeal Deems Additional Evidence Necessary. *a.* If, before acting upon any appeal, the board of appeal deems additional evidence necessary, it shall return all papers in the case to the proper local board with a request that such evidence be secured. The board of appeal shall enter the date of request on its docket book (Form 102). The local board shall secure such evidence if possible.

b. In the light of the new evidence, the local board shall reconsider its classification. If it places the registrant in the most deferred classification claimed on appeal, it shall not return the case to the board of appeal but shall:

1. Notify the board of appeal of its action;

2. Mail a Notice of Classification (Form 57) to the registrant, to the per-

son making the appeal, and to the government appeal agent;

3. Enter the classification on its records.

c. If the local board does not reclassify the registrant into the most deferred classification claimed, it shall return all papers (including any new evidence) to the board of appeal for its decision on the appeal.

377. Procedure of local board when appeal to board of appeal is returned. a. If the board of appeal does not affirm the local board's classification, the local board, upon receipt from the appeal board of the papers pertaining to the registrant, shall proceed as follows:

1. Mail a Notice of Classification (Form 57) to the registrant and to any other person who may have made the appeal.

2. Enter on the Classification Record the date of mailing the notice.

3. Enter on the Classification Record the board of appeal classification and, with red ink, draw a line through the local board classification.

b. If the board of appeal affirms the local board's classification, the local board, upon receipt from the board of appeal of the papers pertaining to the registrant, shall proceed as follows:

1. Mail a Notice of Continuance of Classification (Form 58) to the registrant and to any other person who may have made the appeal.

2. If one or more members of the appeal board dissented from a determination of the appeal board that the registrant should not be deferred on the grounds of dependency, the local board shall indicate on the Notice of Continuance of Classification the numerical division of the board of appeal on the question of dependency.

378. Appeal stays induction. A registrant shall not be ordered to report for induction during the period in which there is pending any appeal duly made by him or in his behalf from an appealable determination of the local board, or during the period afforded him by the rules and regulations within which to make an appeal.

SECTION XXVIII—APPEAL TO THE PRESIDENT

Paragraph
Conditions for appeal to the President... 379
Procedure of local board when appeal to the President is made..... 380
Procedure of local board when appeal to the President is returned..... 381

379. Conditions for appeal to the President. An appeal from a determination of a board of appeal may be made to the President, only if all the following conditions are satisfied:

1. A board of appeal must have placed the registrant in Class I or Class IV-E, and at least one or more members of the board of appeal must have dissented from a determination of that board that the registrant should not be deferred because of dependency.

2. The appeal to the President must be on grounds of dependency only.

3. The appeal (on the last page of the questionnaire) must be signed by the registrant, a dependent of the registrant, or the government appeal agent.

4. The appeal must be made within 5 days of the mailing of the Notice of Classification or Notice of Continuance of classification (par. 377), unless the local board grants an extension of time.

5. A member of the local board, the government appeal agent, or the Governor must explain and certify, in writing, that great and unusual hardship will follow the induction of the registrant, and the person so certifying must specifically recommend deferment.

380. Procedure of local board when appeal to the President is made. When an appeal to the President is made, the local board shall:

1. Enter on the Classification Record the date the appeal is forwarded.

2. Forward to the Director of Selective Service for transmittal to the President all papers, including a summary of any oral testimony pertaining to the registrant except the registration card and the duplicate report of physical examination (Form 200).

381. Procedure of local board when appeal to the President is returned. When the papers pertaining to a registrant are returned after the President has decided the appeal, the local board shall proceed as follows:

1. If the President has affirmed the determination of the board of appeal, mail a Notice of Continuance of Classification (Form 58) to the registrant and to the person making the appeal.

2. If the President has reclassified the registrant, mail a Notice of Classification (Form 57) to the registrant and to the person making the appeal.

3. Enter on the Classification Record the date of mailing any such notice.

4. If the President has reclassified the registrant, enter on the Classification Record the President's classification and, with *red* ink, draw a line through the board of appeal classification.

SECTION XXIX—TRANSFER FOR CLASSIFICATION

| | Paragraph |
|----------------------------------------------|-----------|
| Registrants transferred for classification | 382 |
| Procedure upon transfer for classification | 383 |
| Accepting reports on transferred registrants | 384 |

382. Registrants transferred for classification. After returning the questionnaire, a registrant can be transferred to another local board for classification or for physical examination. He may be transferred if he is to be so far from his local board as to make complying with notices a hardship. The registrant shall be transferred for classification if a majority of a local board or, when a physical examination is required, if the examining physician cannot act on the registrant's case because disqualified (see Vol. One, "Organization and Administration") or because a majority of the local board, or the physician, withdraws from consideration of the registrant's classification because of any conflicting interest, bias or any other reason.

383. Procedure upon transfer for classification. *a.* The local board from which the registrant is transferred shall prepare, in triplicate, an Order of transfer, transfer (Form 63) and the board shall send one copy of the Order of Transfer to the registrant. The board shall send to the local board to which the registrant is transferred all papers pertaining to the registrant except the registration card and one copy of the Order of Transfer (Form 63). The board shall, with *red* ink, note the transfer in the proper column of the Classification Record (Form 100).

b. The local board to which the registrant is transferred shall classify the registrant. It shall mail the proper notices. It shall provide for appeal to its board of appeal. The local board shall use a special page in the Classification Record for transferred registrants, and shall make all entries on that page with *red* ink. The board shall prepare a duplicate cover sheet and, if the registrant was given a physical examination, a third copy of the Report of Physical Examination (Form 200). After the classification and appeals, the board shall return to the local board from which the registrant was transferred all papers pertaining to the registrant except the duplicate cover sheet, one copy of the Report of Physical Examination, and the Order of Transfer (Form 63). In the proper column of the Classification Record the board shall note returning the papers.

384. Accepting reports on transferred registrants. *a.* The classification made by the local board to which a registrant is transferred shall be appealed through that local board only. The local board from which the registrant was transferred shall accept and enter on its records, without any change, the classification reported by the board which classified the registrant. If the local board from which the registrant was transferred receives new evidence that might affect his classification, the board shall send the evidence and the registrant's file to the board to which he was transferred.

SECTION XXX—RECLASSIFYING REGISTRANTS

| | Paragraph |
|------------------------------------------------------------------|-----------|
| Classified registrant to report facts affecting classification | 385 |
| Local Board to keep informed of status of classified registrants | 386 |
| Reconsidering classifications | 387 |
| Appeals from reclassifications | 388 |

385. Classified registrant to report facts affecting classification. Each classified registrant shall, within 5 days after it occurs, report to the local board any fact that might result in his being placed in a different classification. (See Form 57.)

386. Local board to keep informed of status of classified registrants. Although the classified registrant is directed to report any facts that might result in his being placed in a different

classification, the local board shall take steps itself to keep informed of the status of registrants in deferred classes. The local board may question registrants at intervals. It may request employers to furnish information with respect to registrants. When the board considers investigation necessary, it may request police officials or other agencies to investigate the status of any registrant.

387. *Reconsidering classifications.* Upon receiving new evidence the local board may at any time before induction reconsider the classification of any registrant. If the local board places the registrant in a different classification, the board shall mail a Notice of Classification (Form 57) to the registrant and shall notify the government appeal agent. If the local board refuses to reclassify, after the registrant has requested reclassification because of a change in circumstances, it shall mail a Notice of Continuance of Classification (Form 58) to the registrant.

388. *Appeals from reclassification.* Appeals which may be made after reclassification are governed by Section XXVII. If an appeal is made, the local board shall forward with the appeal a statement as to why it reclassified the registrant.

SECTION XXXI—DELINQUENTS

| | Paragraph |
|-----------------------------------------------------------|-----------|
| Mailing notice of delinquency----- | 389 |
| Investigation of delinquency----- | 390 |
| Reporting delinquents to U. S. district attorney----- | 391 |
| Procedure with delinquent released from imprisonment----- | 392 |
| Suspected delinquents found in the military service----- | 393 |

389. *Mailing notice of delinquency.* *a.* When a local board has reason to believe that a nonregistrant under its jurisdiction is a delinquent (as defined in Vol. One, "Organization and Administration"), or that a registrant under its jurisdiction has become a delinquent (as so defined), the board shall prepare in triplicate a Notice of Delinquency (Form 281).

b. The board shall mail the original to the suspected delinquent at his last known address. It shall mail a copy to the Governor. It shall file the third copy, with the date of mailing noted thereon.

c. If the suspected delinquent is a registrant under the jurisdiction of the local board, the board shall note, in the "Remarks" column of the Classification Records, the fact that the notice was mailed.

390. *Investigation of delinquency.* *a.* Upon a suspected delinquent reporting to a local board, the board shall carefully investigate the delinquency. If the board finds that the suspected delinquent is innocent of any wrongful intent, the board shall proceed with him just as if he were never suspected of being a delinquent.

b. The board shall report its decision to the Governor by letter, and shall appropriately note its decision in its records.

391. *Reporting delinquents to U. S. district attorney.* *a.* If the local board is convinced that a delinquent is not innocent of wrongful intent, or if a suspected delinquent does not report to the board within five days after the mailing of the Notice of Delinquency (par. 389), the board should report him to a United States District Attorney for prosecution under Section 11 of the Selective Service Act.

b. The report of a delinquent to a district attorney shall be made on Form 279. One copy shall be sent to the district attorney, one copy to the Governor, and one copy shall be filed.

c. If the delinquent is a registrant, the board shall note its action in the "Remarks" column of the Classification Record.

392. *Procedure for delinquent released from imprisonment.* Imprisonment for violation of the selective service law, or during prosecution therefor, does not exempt a delinquent from complying with the selective service law after the delinquent is released from imprisonment. When a delinquent is released from imprisonment, the local board shall require him to perform the duties and shall accord him the rights and privileges of other registrants.

393. *Suspected delinquents found in the military service.* If at any time the board finds that a registrant is suspected of being a delinquent only because he failed to report to the board that he had enlisted in the land or naval forces,

the board shall remove any charge of delinquency made against that registrant. The board shall make appropriate report of its action to any officials who were notified that the registrant was a delinquent.

514. *Dual compensation.* Attention is directed to the several statutory provisions prohibiting or restricting the receipt of dual compensation from the United States. Complete details may be submitted to the Director of Selective Service for his advice and approval.

515. *Pay of members of the Army, Navy, Marine Corps, and Coast Guard.* Members of the Army, Navy, Marine Corps, and Coast Guard, or their reserve components, when on active duty in the service of the United States and assigned to duty with the selective service system shall receive the pay and allowances provided by law. d. The maximum allowance per board, as set forth in subparagraph e below, should be kept in mind and such allowance distributed among as many assistants as may be required.

As soon as such number is determined, the chairman of each local board shall furnish the Governor, on a Certificate as to Number of Registrants (DSS Form 263), the number of registrants under the jurisdiction of his board. The Governor shall then approve and authorize, on DSS Form 262, in triplicate, the initial maximum monthly allowance for office assistants for each local board in his State, under authority contained in a letter to him from the Director of Selective Service. The initial maximum allowance authorized by the Governor shall not be exceeded except upon the approval of the Director of Selective Service.

Upon receipt of DSS Form 262, in duplicate, from the Governor, the local board shall attach the original to the first payroll (par. 548) submitted, and shall retain the other copy in the files of the local board. c. When space in public buildings is not available an office shall be rented. f. Subject to the above, the State procurement officer is authorized to lease offices for local and appeal boards and for State headquarters. All copies of the contracts shall be signed by the contracting parties. The original, properly numbered, shall be sent to the General Accounting Office, Washington, D. C., one copy each to the telephone company and chairman of the board or the Governor, and two copies to the finance officer designated to make payment.

e. The Director of Selective Service shall furnish the General Accounting Office with a certified copy of each order of appointment of such certifying officers.

f. Interzone messages can ordinarily be made by calling the same telephone operators who serve the metropolitan area, while special operators must be utilized for long-distance calls beyond the established telephone zones. Interzone messages need not be classed as long-distance toll messages with respect to the requirement as to special certification to telephone invoices. Local and interzone charges need not be specially certified.

This form is required for that portion of the pay roll or voucher which contains statistical data, i. e., complete subprocurement authority including purpose number and appropriation symbol with the amount expended. These forms shall be requisitioned from the finance officers making payment in sufficient numbers to meet estimated requirements for a period of 6 months.

b. The use of rubber stamps for recording subprocurement authority numbers or other statistical data on any copies of vouchers is prohibited.

c. No changes shall be made on these additional statistical pages unless changes are made on all copies of the applicable voucher, in which case the erroneous data shall be lined out and the correct data inserted by typewriter and carbon process, so that the statistical page furnished to the Chief of Finance will be an exact copy of the original voucher.

545. *Payment of entire personnel of board or headquarters upon same voucher.* The entire personnel employed at any board or headquarters should be paid upon the same voucher for any service rendered during the period which the voucher covers.

546. *Computation of time in payment of personal services of employees who are being paid on a monthly or per annum basis.* The following rules for the computation of time in payment for services at monthly rates shall be observed:

a. For any full calendar month's service, at a stipulated monthly rate of compensation, payment shall be made at such stipulated rate without regard to the number of days in that month.

b. When service commences on an intermediate day of the month, 30 days shall be assumed as the length of the month, whatever be the number of days therein.

c. When the service terminates on an intermediate day of the month, the actual number of days during which service was rendered in that calendar month will be allowed.

d. Services commencing in February will be calculated as though the month contained 30 days, thus: From February 21 to 28 (or 29), inclusive, 10 days. When the service commences on the 28th day of that month 3 days will be allowed, and if on the 29th, 2 days.

e. If service commences on the 31st day of any month, payment will not be made for that day.

f. The payment of employees for the last day of the month on the day before the last day of the month is a payment in advance of the time at which the right to such pay accrues and is in violation of section 3648, Revised Statutes (31 U. S. C. 529), even though no service is required of the employees on the last day of the month because it falls on Sunday, holiday, or a day when the office is closed by a competent order.

g. No change in pay status (except by employment or discharge) shall be made except to become effective on the 1st or the 16th of the month.

547. *Computation of time in payment of per diem employees.* Per diem employees shall be paid for the actual number of days during which service was rendered.

a. Personal service pay rolls shall be prepared twice each month covering the period of the 1st to the 15th, inclusive, and the 16th to the last day of the month, inclusive.

b. The date entered in the second paragraph of the certificate on the face of the voucher shall be the date given in the body of DSS Form 262, or given on any subsequent amendment by the Director of Selective Service (pars. 517 and 518.)

c. In the places provided at the top of the voucher shall be entered the official designation, location, and the office, board, or headquarters of the personnel to be paid thereon, and the period of time which the voucher covers.

d. In the column headed "Name" shall be entered the names of all persons not otherwise federally compensated who have performed services for which compensation is claimed for the office, board, or headquarters during the period indicated. The names shall be entered, for example: Doe, John K.

e. In the column headed "Designation" will be shown the person's official designation, such as "Stenographer" or "Clerk."

f. In the column headed "Rate of compensation" shall be entered the base amount for which compensation is claimed, whether hourly, daily, or monthly.

g. In the column headed "Unit of employment" shall be indicated whether the person is compensated upon an hourly, daily, or monthly basis.

h. In the column headed "Total units employed" shall be entered the total number of hours, days, or months covered by the pay period. For those persons being paid on an hourly basis, care should be taken not to include in the total number a greater number of hours for a total day than the daily maximum. (See par. 519.)

i. In the column headed "Gross amount earned" shall be entered the total amount that is obtained by multiplying the total amount of units served by the rate of compensation. In the case of those persons or groups of persons whose compensation is limited to a maximum (see pars. 517 and 518) care should be exercised that the aggregate amount for any individual, or the aggregate amount for any group, does not exceed the maximum allowed.

j. The subcolumn headed "Retirement" shall be used only when the notice of appointment *specifically provides for deductions for the civil service retirement fund*. (See par. 561e.) The subcolumn headed "Other" shall be used for deductions for unauthorized absences or deductions made for lost or damaged Government property.

k. The columns headed "Net amount paid" and "Signatures for cash and notations for check payments" shall be filled in by the disbursing officer who pays the voucher.

l. In the column headed "Remarks" shall be explained any and all deductions made, any facts that may affect the compensation status, any information in regard to appointments, date of entry upon duty, transfer, promotions, demotions, separations, and other changes that affect the compensation status. In this column shall be entered the date of appointment and the authority for the appointment.

m. Inasmuch as personal service pay rolls are paid by check, the signatures of the individuals claiming compensation are not required. However, the original shall be certified to by the chairman of the board, or, for State headquarters, by the Governor. The memorandum copy shall not be signed by anyone. Both copies shall be forwarded to the State procurement officer. The State procurement officer shall approve for the Government all personal service vouchers and shall insert the appropriation symbol and appropriation title, procurement authority, and purpose number to be charged with the expenditure.

n. The original copy of DSS Form 262 shall be attached to the first pay roll (see pars. 517 and 518).

o. The State procurement officer shall forward all properly prepared and executed personal-service pay rolls to the designated finance officer for payment.

549. *Preparation of Form 1034 by State procurement officer.* Standard Form 1034 shall be used for the vouchering of all claims against the Government involving expenditures for purchases and leases, and for all services other than personal and travel. This form shall be

prepared by the State procurement officer in the manner herein prescribed:

a. In the proper places on the form shall be entered a description of each article purchased or the services rendered, with the date of purchase or of rendering of service, and the amount claimed for each. When a payee submits for payment an invoice or bill which contains the duly signed certificate prescribed in paragraph 526, such invoice or bill may be accepted if it constitutes a valid claim against the Government. The invoice is to be fastened securely to the voucher, and in such cases it shall not be necessary to state the invoice or bill in detail or secure the payee's signature on the voucher. The voucher shall otherwise be completed in due form. In cases where the payee does submit a properly certified invoice, it should be described on the voucher sufficiently to identify it, and the amount or amounts carried to the "amount" column. More than one invoice or bill of the same payee may be attached to and paid on a single voucher, provided the transactions are under the same agreement and are furnished under the same conditions as to method or absence of advertising.

b. In the blocks headed "Accounting Classification," the appropriation symbol and appropriation title, procurement authority, and purpose numbers shall be shown.

c. The memorandum voucher (Standard Form 1034a) shall be prepared so as to be a duplicate of the original, except that there shall be no signature. The use of a typewriter with carbon paper between the original and memorandum is recommended. If typewriter is not used, the original and memorandum shall be made out in ink.

d. When there is not sufficient space on Form 1034 for completely itemizing the payee's bill or invoice, the itemizing shall be begun on Standard Form 1035, with Form 1035a as the memorandum. When more than one sheet is thus used, all sheets shall be securely fastened together, the certificate sheet (Standard Form 1034) being the final sheet, and the totals of each sheet carried forward to or summarized upon the final sheet (Standard Form 1034).

e. The State procurement officer shall place his signature and title in the space provided in the certificate printed on the voucher.

f. The voucher shall further be supported by two copies of the purchase order (par. 525) and one copy of the receiving report (par. 527).

g. The voucher when properly prepared and supported by the required documents shall then be promptly forwarded to the finance officer designated to make payment.

h. Statistical data shall be furnished to the Chief of Finance in the form prescribed in par. 544.

550. *Public voucher for telephone and telegraph service.* Standard Form No. 1034 shall be used for the vouchering of all claims against the Government covering telephone and telegraph services. This form shall be prepared by the State procurement officer in the manner prescribed in par. 549. In addition to these instructions, the State procurement officer will certify to the following certificate:

The services to be obtained by this instrument are authorized by, are for the purposes set forth in, and are chargeable to Procurement Authority -----, the available balance of which is sufficient to cover cost of same.

551. *Voucher for reimbursement of expenses incident to official travel.* Standard Form 1012 shall be used for the purpose of vouchering expenses incurred incident to official travel by officers or employees of the selective service system when traveling under competent orders on official business. Standard Form 1012 will be prepared upon completion of the authorized travel, or at the end of any month if the officer or employee is still in travel status. The original and duplicate travel order DSS Form 251 shall accompany it. Instructions for its preparation are contained in the "Standardized Government Travel Regulations". The voucher is submitted to the State procurement officer.

NOTE.—The first paragraph in Volume Six is numbered 601.

601. *Physical standards governing.* The physical standards governing the physical examination of registrants by

the examining physicians of the Selective Service System shall be those which govern medical officers of the armed forces in the examination of selected men at Army and Navy induction stations. These standards are published in the following official documents of the War and Navy Departments:

a. Standards of Physical Examinations during Mobilization, MR 1-9, War Dept. Aug. 31, 1940.

b. Physical Examinations for the Medical Department of the U. S. Navy, 1938. (To be issued when required.)

602. *Objective of physical examination.* The objective is to procure men who are physically fit for the rigors of general service. The registrant must be able to see well; have comparatively good hearing; have a heart able to withstand the stress of physical exertion; be intelligent enough to understand and execute military maneuvers, obey commands, and protect himself; and be able to transport himself by walking as the exigencies of military life may demand. Examining physicians will accordingly so construe these standards that the objective stated above may be realized.

603. *Definitions.* a. The term "military" shall comprehend the Army, Navy, and Marine Corps, except where such construction would be unreasonable.

b. The term "physical," in such phrases as "physical examination," "physical defect," "physical condition," shall comprehend the physical, psychic, and nervous aspects, except where such construction would be unreasonable.

604. *Classification on physical qualifications.* Local boards under Selective Service Regulations have original jurisdiction with respect to all registrants, subject to appeal. Local boards shall classify a registrant, based on his physical qualifications, in:

a. Class I-A as qualified for general military service, provided the registrant comes within the standards of general military service. Certain college students qualified for general military service are placed in Class I-D; certain conscientious objectors, in Class IV-E.

b. Class IV-F as totally and permanently disqualified for military service,

provided the registrant comes within the standards of unconditional rejection.

c. Class I-B as qualified for limited military service provided the registrant does not come within the standards of unconditional acceptance or unconditional rejection. Certain college students qualified for limited military service are placed in Class I-E; certain conscientious objectors, in Class IV-E.

605. *Application of physical standards.* It will be noted that physical standards prescribed for various organs or parts are stated in terms of decreasing availability for military service as follows:

a. Deviations from normal function or structure acceptable for general military service (I-A).

b. Deviations from normal function or structure acceptable for limited military service (I-B).

c. Deviations from normal function or structure causing unconditional rejection for any military service (IV-F).

It will frequently become necessary, in determining whether an observed deviation from the normal is acceptable, to consider not only the stated minimum standards for Class I-A but also the causes for classification in Classes I-B or IV-F. It is therefore suggested that medical examiners note the character and degree of all deviations from normal function or structure and then consult the appropriate sections of Army Standards (or, when applicable, Navy Standards) to determine by elimination the class under which each deviation is listed.

606. *Scope of examination.* In all cases the examining physician shall make a complete examination of the registrant, and record all minor defects as well as disqualifying defects. Medical Advisory Boards, or a member or members thereof, shall make such examination as is necessary to determine the matters for which the registrant has been referred, and shall make an appropriate report as prescribed in paragraph 339. The registrant should be questioned about his past and his present physical condition. His mental characteristics and speech should be observed. The possibility of malingering should be

borne in mind at all stages of the examination. Examining physicians shall be especially careful in the examination of registrants who suffer from defects of vision; defects of hearing, and with chronic discharge from the ears; toxic conditions associated with abnormal conditions of the thyroid gland; valvular disease of the heart; tuberculosis; epilepsy; mental and nervous disease or deficiency; emotional instability; and defects of the feet. When in doubt about these or other conditions, the examining physician of the local board shall request reference to a medical advisory board for examination.

607. Arrangements for examination. The physical examination should be made in a large well-lighted room. A quiet communicating room should be used for the examination of the heart, lungs, and hearing. The temperature of the room should be regulated in cold weather to prevent the registrant from becoming chilled. The conduct of the examination in the rooms of the local board is not mandatory; the examination may be held in the office of the examining physician.

608. Examining groups. In localities where additional examining physicians have been appointed to assist the designated examining physician of the local board, as provided in Volume One, "Organization and Administration," or in municipalities where several local boards and their examining physicians are located within reasonable distance, the formation of an examining group or groups for the conduct of physical examinations is authorized and encouraged. The Report of Physical Examination, Form 200, of each registrant shall be signed by the examining physician of the local board for which the examination is made, as prescribed in paragraph 621.

609. Supplies and equipment. The list of supplies and equipment shown below, or their equivalents, is believed to represent a minimum required by an examining physician for the physical examination of registrants. The items of equipment are usually owned by physicians and will be provided only on special requisition to State headquarters. For procuring equipment and supplies, see paragraphs 528 and 529.

610. Laboratory and other special examinations. In localities where there is no provision for serological and other laboratory work, the examining physician should consult municipal or State health authorities, the United States Public Health Service, or other Federal agencies. (Also see pars. 528 and 529.)

611. Anesthetics. No anesthetic may be given to a registrant without his voluntary consent for the purpose of examination or to aid in the diagnosis of defects. This consent shall be in writing, signed by the registrant, and filed with his record.

612. Finality of military examination. The final decision as to the acceptance or rejection of men selected under these regulations rests with the examining physicians at induction stations of the land and naval forces. Physical examinations of registrants should be therefore made as close to the date of induction as practicable.

613. Limited Service. The results of examination of a registrant found to be below the standard for full military service (Class I-A) shall be carefully evaluated to determine his ability to perform limited military service (Class I-B). When a registrant is believed to be fit for limited military service, entry shall be made on the Report of Physical Examination (Form 200), stating concisely his physical limitation in terms such as, "cannot march," "cannot do heavy work," "insufficient vision for fine work," "can do sedentary work."

614. Reports of disease. Examining physicians, additional examining physicians, and members of Medical Advisory Boards shall report to the appropriate

civil authority, in the required manner and form, those diseases which are found during the physical examination made under these regulations, and which have been declared to be reportable by law.

615. *Venereal disease.* a. Whenever the history or the physical examination of a registrant indicates the possibility of venereal disease, the matter shall be thoroughly investigated, employing such additional examinations and laboratory tests as are deemed necessary to determine the presence of disqualifying sequelae or of contagiousness. A serological test for syphilis shall be made on every registrant as part of his physical examination. The blood specimen will be taken by the examining physician in containers furnished by the State Health officer and forwarded to the State Laboratory or other laboratory designated by State Selective Service Headquarters, together with the accomplished forms prescribed within the State for such purpose. A second serological test shall be completed promptly and prior to his call for induction on every registrant whose first test is reported positive. The dates and results of such examinations and tests shall be noted on the Report of Physical Examination (Form 200).

b. A diagnosis of syphilis shall not be made on the basis of a single positive serological test in the absence of definite clinical manifestations of the disease.

c. A diagnosis of latent syphilis shall be made on a registrant who has no clinical manifestations of the disease, but whose blood serum has been found positive by a second serological test performed under these regulations and within three months of the first positive serological examination.

d. Syphilis shall be considered contagious only in the presence of skin or mucous-membrane lesions manifested within five years from the date of infection.

616. *Explanation of section.* The following excerpts from other volumes of Selective Service Regulations are published for the information of examining physicians and members of medical advisory boards.

MEDICAL PERSONNEL

123. *State medical officers.* In each State, one or more medical officers of the Army, Navy, National Guard, Naval Reserves, or Organized Reserves shall be assigned by the President, upon recommendation of the Governor. Medical officers shall report to the Governor for duty at State headquarters.

134. *Local boards: Examining physician.* Each board will have assigned to it one physician appointed by the President, upon recommendation of the Governor. If more than one examining physician is needed, the board shall request the Governor to recommend the necessary additional appointments. All examining physicians shall take the pre-

scribed oath (Form 21), which shall be sent to the Governor for filing. No examining physician shall examine for a board any registrant who is his first cousin, or a closer relation, either by blood or marriage, or who is an employee or employer, or stands in the relation of superior or subordinate in connection with any employment, or is a partner or close business associate, of the physician. The board shall request the Governor to recommend the appointment of another physician for such registrant, or shall use the examining physician of another board.

146. Medical advisory boards. In each State, medical advisory boards shall be appointed by the Governor to assist local boards in determining the physical qualifications of registrants. The board shall if practicable consist of internists; eye, ear, nose, and throat specialists; orthopedists; surgeons; psychiatrists; clinical pathologists; radiographers; and dentists. In event that a medical advisory board cannot be made available to a local board, the Governor shall appoint individual specialists, who shall act as a medical advisory board, to assist the local board.

PHYSICAL EXAMINATION

336. Order to report for physical examination. *a.* If the local board, in making its classifications *before physical examination*, did not classify the registrant in Class IV, Class III, Class II, or Class I-C (see par. 330), it shall, in time to allow it to fill its quota requirements, mail him a notice to appear for physical examination (Form 201). The notice shall fix a time and place for the registrant to report. The appointed time will normally be five days after the date of mailing the notice.

b. Permissible delays. Any registrant who is quarantined because of a communicable disease shall be excused from examination until he is released from quarantine by the health authorities. Any registrant who is sick, or has some temporary defect, or is awaiting an operation, or who has any other good excuse, may be granted a reasonable delay for completing his physical examination.

c. Entry on Classification Record (Form 100). The date of mailing of Form 201 shall be noted on the Classifica-

tion Record (Form 100). The date on which the registrant reports for examination shall also be noted.

337. Preparing Report of Physical Examination (Form 200). *a.* After the local board has mailed to the registrant an order to report for examination, it shall prepare Form 200 ("Report of Physical Examination") for delivery to the examining physician. The local board shall enter its stamp and the registrant's name, address, and other information on this form. Entries should be made with typewriter or black ink. All entries shall be made on both copies. Only originals should be signed.

b. The local board shall deliver the prepared forms to the examining physician before the date on which the registrant is to report.

338. Physical examination. *a.* The examining physician shall examine the registrant, in accordance with Vol. Six, "Physical Standards."

b. The examining physician shall fill out the appropriate parts of the Report of Physical Examination (Form 200), in duplicate. Unless in doubt about the registrant's physical qualifications, the examining physician shall enter his findings as to the registrant's qualification for military service.

c. When in doubt about the registrant's physical qualification, the examining physician shall request the local board to send the registrant to a medical advisory board. (See par. 339.) Upon receiving the report of the medical advisory board, the examining physician shall enter his findings, as in *b* above.

339. Cases sent to medical advisory board, by local board. *a. What cases sent.* The local board shall send a registrant before the nearest medical advisory board whenever the examining physician or the government appeal agent so requests, or a majority of the local board is dissatisfied with the examining physician's finding.

b. How sent. After proper entries are made on both copies of the Report of Physical Examination (Form 200), the original Form 200 and any other evidence on the registrant's physical condition shall be sent to the medical advisory board. The duplicate Form 200 remains

in the registrant's cover sheet. The local board shall direct the registrant when and how to report to the medical advisory board. He shall be given necessary transportation, meals, and lodging for the travel and for the time, not exceeding 3 days, that he will be before the medical advisory board. (See Vol. Five, "Finance.")

c. Action by medical advisory board. The full board, or one or more of its members, as may be necessary in the particular case, shall act on the case. The board, or one or more members, shall examine the registrant, record the findings on the Form 200, and return the Form 200 to the local board.

d. Delay by medical advisory board. If the medical advisory board delays its examination of a registrant more than 3 days to await correction of a temporary defect, it shall return the registrant's Form 200 to the local board, with a statement (attached to the Form 200 but not written upon it) of the cause of delay and the time when the registrant should return for further examination. The local board normally shall send the registrant and his Form 200 back to the medical advisory board at the time specified. However, if the local board believes the defect corrected, it may send him back earlier; or if it believes more delay is needed, it may set a later date; or if it decides that further examination is unnecessary, it may proceed without sending him back to the medical advisory board. If in a case of an appeal the local board, after receiving the report of the medical advisory board, determines that the registrant should be reclassified it shall reclassify him in accordance with the rules governing reclassification (section XXX) and shall not forward the appeal to the appeal board.

e. Completing Form 200. All entries made by the medical advisory board on the original Form 200 will be copied by the local board onto the duplicate Form 200 in the registrant's file.

341. Transmitting duplicate of Form 200 to Governor. As soon as the time allowed for appeal of the registrant's classification has elapsed, or as soon as the board of appeal has acted on the appeal (sec. XXVII), the duplicate of the Report of Physical Examination (Form

200) shall be sent to the Governor for forwarding to the Director of Selective Service.

APPEALS

371. Time allowed for appeal. *a.* Unless the time therefor is extended by the local board, an appeal from any appealable local board classification (other than an appeal by a registrant classified in Class I-B or Class I-E who claims a lower classification) shall be made within five days after the local board has mailed to the registrant his notice of classification (Form 57), as distinguished from a notice of continuance of classification (Form 58), or, if the registrant has requested an opportunity to appear in person before the local board pursuant to paragraph 368, within five days after the day set for the registrant's appearance, whichever is the later. The five days are counted as beginning on the day after the notice of classification is mailed or, if the registrant has requested an opportunity to appear in person before the local board pursuant to paragraph 368, on the day after the day set for the registrant's appearance, whichever is the later.

b. Unless the time therefor is extended by the local board, an appeal from any appealable local board classification by a registrant classified in Class I-B or Class I-E who claims a lower classification shall be made within five days after the local board has mailed to the registrant a notice advising the registrant that the land or naval forces have called for induction registrants in such class and that such registrant has an opportunity to appear and to make an appeal to the board of appeal (par. 368). If the registrant has requested an opportunity to appear in person before the local board pursuant to paragraph 368, the appeal shall be made within five days after the day set for the registrant's appearance. The five days are counted as beginning on the day after such notice is mailed to the registrant or, if the registrant has requested an opportunity to appear in person before the local board pursuant to paragraph 368, on the day after such appearance.

c. An appeal can be taken by the Director of Selective Service or by the State Director of Selective Service at any time

from any determination of the local board.

372. *How appeal to board of appeal is made.* a. If the person appealing wishes the board of appeal to review a determination of the local board with respect to the registrant's physical or mental qualifications, the person appealing shall fill out and sign the form for appeal which appears on the Report of Physical Examination (Form 200). The person appealing shall attach to the report of physical examination a written statement specifying the class in which the person appealing believes the registrant should be placed.

TRANSFERRING FOR CLASSIFICATION

382. *Registrants transferred for classification.* After returning the questionnaire, a registrant can be transferred to another local board for classification or for physical examination. He may be transferred if he is to be so far from his local board as to make complying with notices a hardship. The registrant shall be transferred for classification if a majority of a local board or—when a physical examination is required—if the examining physician cannot act on the registrant's case because disqualified (Volume One, "Organization and Administration"), or if a majority of the local board, or the physician, withdraws from consideration of the registrant's classification because of any conflicting interest, bias, or other reason.

383. *Procedure upon transfer for classification.* a. The local board from which the registrant is transferred shall prepare, in triplicate, an order of transfer (Form 63), and the board shall send one copy of the order of transfer to the registrant. The board shall send to the local board to which the registrant is transferred all papers pertaining to the registrant except the registration card and one copy of the order of transfer (Form 63). The board shall, with red ink, note the transfer in the proper column of the Classification Record (Form 100).

b. The local board to which the registrant is transferred shall classify the registrant. It shall mail the proper notices. It shall provide for appeal to its board of appeal. The local board shall use a special page in the Classification

Record for transferred registrants, and shall make all entries on that page with red ink. The board shall prepare a duplicate cover sheet and, if the registrant was given a physical examination, a third copy of the report of physical examination (Form 200). After the classification and appeals, the board shall return to the local board from which the registrant was transferred all papers pertaining to the registrant except the duplicate cover sheet, one copy of the report of physical examination, and the order of transfer (Form 63). In the proper column of the Classification Record the board shall note returning the papers.

384. *Accepting reports on transferred registrants.* The classification made by the local board to which a registrant is transferred shall be appealed through that local board only. The local board from which the registrant was transferred shall accept and enter on its records, without any change, the classification reported by the board which classified the registrant. If the local board from which the registrant was transferred receives new evidence that might affect his classification, the board shall send the evidence and the registrant's file to the board to which he was transferred.

CLASSIFICATION BASED ON PHYSICAL EXAMINATION

342. *Class I-A: Available; fit for general military service.* In Class I-A shall be placed every registrant who after physical examination is found fit for general military service, according to the standards prescribed in Volume Six, "Physical Standards", and who is not classified in Class I-D.

343. *Class I-B: Available; fit only for limited military service.* In Class I-B shall be placed every registrant who after physical examination is found fit only for limited military service according to the standards prescribed in Volume Six, "Physical Standards", and who is not classified in Class I-E. Men in Class I-B, unless reclassified, shall not be inducted until such time as they may be acceptable to, and called by, the land or naval forces for training and service.

345. *Class I-D—Student fit for general military service; available not later than*

July 1, 1941. In Class I-D shall be placed every college or university student who meets all of the conditions specified in paragraph 347 and who after physical examination is found fit for *general* military service, according to the standards prescribed in Volume Six, "Physical Standards".

346. Class I-E: Student fit only for limited military service; available not later than July 1, 1941. In Class I-E shall be placed every college or university student who meets all of the conditions specified in paragraph 347 and who after physical examination is found fit only for *limited* military service, according to the standards prescribed in Volume VI, "Physical Standards."

361. Class IV-E: Conscientious objector available only for civilian work of national importance. In Class IV-E shall be placed conscientious objectors who are classified for civilian work of national importance in accordance with paragraph 365.

365. Conscientious objectors opposed to combatant and noncombatant service. If the local board finds that a registrant, who but for his conscientious objection to both combatant and noncombatant service, would have been placed in Class I-A, Class I-B, Class I-D, or Class I-E, is, by reason of his religious training and belief, opposed to both combatant and noncombatant service, he shall be placed in Class IV-E. Registrants in Class IV-E shall be liable to be assigned to work of national importance under civilian direction under such rules and regulations as may be later prescribed.

362. Class IV-F: Physically, mentally, or morally unfit. *a.* In Class IV-F shall be placed registrants who are found to be physically, mentally, or morally unfit for military service; habitual criminals or persons convicted of treason, or any crime which under the laws of the jurisdiction in which they were convicted is a felony and which the local board determines renders the registrant morally unfit for service.

b. The local board may put a registrant in Class IV-F without physical examination if he has an obvious physical or mental disability which permanently disqualifies him for any form of military service.

c. The local board shall put a registrant in Class IV-F if he, upon being discharged from the Regular Army, Navy, or Marine Corps, received any one of the following:

Dishonorable discharge-- Army, Navy, or Marine Corps
 Bad-conduct discharge-- Navy or Marine Corps
 Discharge, not honorable Army (blue).
 Undesirable discharge--- Navy or Marine Corps

434. Reclassification after delivery to induction station. *a.* Upon receiving notice from the induction station that a selected man has been inducted the local board shall transfer him to Class I-C.

b. Upon receiving notice from the induction station that a selected man has been found not acceptable because physically unqualified, the local board shall reclassify him into Class I-B or class IV-F. In determining whether the man should be placed in Class I-B or Class IV-F, the board shall consider the induction record (AGO Form 221) and the opinion of its examining physician.

c. Upon receiving notice from the induction station that a selected man has been found not acceptable because morally unqualified, the local board shall reclassify him into Class IV-F.

d. A registrant reclassified as in *b* or *c* above shall not be again placed in Class I-A unless the condition causing his rejection at the induction station entirely and permanently disappears.

e. A registrant reclassified as in *b* or *c* above shall be mailed the notices prescribed, and shall be entitled to the appeals authorized, by Vol. Three, "Classification and Selection".

435. Reclassification after separation from the land and naval forces. *a.* Upon receiving a report (par. 409c) that a registered man has been reported as being a deserter or has been separated from the land and naval forces other than by death, the local board shall reclassify him. A man so reclassified shall be mailed the notices prescribed, and shall be entitled to the appeals authorized, by Vol. Three, "Classification and Selection".

b. Upon receiving a report (par. 409c) that a registrant has been separated from the land and naval forces by death, the

local board shall note that fact in the Classification Record, on the registrant's cover sheet, and on his registration card.

MALINGERERS

340. *Malingers.* *a.* If a registrant claims an ailment or defect which the local board cannot detect, or if the local board believes him to be feigning the ailment or defect, it shall attach a statement of the facts and its opinion to both copies of Form 200.

b. If the local board believes that a registrant's disqualifying physical defects are self-inflicted or purposely caused to avoid military service the board shall immediately prepare in duplicate a full statement of the facts and the board's recommendations. The original of this statement, with the original Report of Physical Examination (Form 200) shall be sent to the Governor, and the duplicate filed with the duplicate Form 200 in the cover sheet. If the registrant is capable of any duty at all, and the local board recommends his induction, the Governor shall transmit the record to the Director of Selective Service, or may direct that the registrant be reported to a United States district attorney for prosecution.

ADMINISTRATIVE MATTERS

528. *Supplies and services for examining physician.* *a.* The chairman of each local board is authorized to request the State procurement officer for selective service to furnish such supplies as may be required by the examining physician of such board (DSS Form 259).

b. When it is not practicable for the State procurement officer to furnish the necessary supplies, he may authorize the chairman of the local board to purchase them.

c. The chairman of each local board may authorize such special examinations and laboratory tests as he deems necessary and shall cause to be forwarded to the State procurement officer for payment the bill for such examinations and tests after affixing his approval. Such bill or invoice shall contain the following certificate by the person or laboratory rendering such services:

I certify that the above bill is correct and just; that payment therefor has not been received; that the rates charged were in effect at the time the services were rendered;

and that such rates are not in excess of those charged the general public for similar services.

529. *Services for medical advisory board.* The chairman of a medical advisory board shall authorize such special examinations and laboratory tests as he may deem necessary and shall cause to be forwarded to the State procurement officer for payment the bill for such examinations and tests after affixing his approval. The bill or statement shall contain the following certificate by the person or laboratory rendering such services:

I certify that the above bill is correct and just; that payment therefor has not been received; that the rates charged were in effect at the time the services were rendered; and that such rates are not in excess of those charged the general public for similar services.

165. *Records: Confidential records.* *a.* All records pertaining to the physical condition of a registrant, and all answers on the questionnaire (Form 40) under the subject "Dependency" (except the names and addresses of claimed dependents), and to the questions on previous military service, shall be confidential and shall not be disclosed without the consent of the registrant, except as provided in subdivisions *c* and *d* below. The fact that a claim for deferment has been made on grounds of dependency or physical unfitness, and the classification of the registrant, are not confidential.

b. Without limiting any other rights he may have, a registrant shall be entitled to know of all entries on his own record, including his questionnaire (Form 40) and record of physical examination (Form 200). He shall be further entitled to know of all statements and allegations which form part of his record.

c. Confidential records may be examined at any time by the following named officials: the members of the local board, members of the board of appeal, the examining physician, and the government appeal agent, who have to deal with the case; Federal officials and employees duly authorized by the Governor or the Director of Selective Service; and United States attorneys and their duly authorized representatives.

d. Confidential records shall be produced and published in response to the

subpoena or summons of a court, without the consent of the registrant, only in the prosecution of the registrant or of a person in collusion with the registrant, for perjury, or for any violation of the selective service law or directions given pursuant thereto, or in behalf of the Government in suits or claims arising out of the executive acts in the performance of which such records were compiled.

168. *Records: Making entries.* Selective service agencies shall make entries on records with typewriter, black ink, or rubber stamp. *Red* ink shall be used only as specifically directed.

150. *Correspondence: Official letters.* Communication should generally be by letter. Official letters in execution of the selective service law may be sent in official penalty envelopes, marked in the upper left-hand corner "Selective Service—Official Business" and the name of the sending agency; and in the upper right-hand corner, "Penalty for private use to avoid payment of postage, \$300." When printed envelopes furnished by the Director of Selective Service are not available, these inscriptions may be written, typed, or rubber stamped on a plain envelope.

153. *Correspondence: Personal messages.* No personal inquiries or messages shall be sent by official envelope, telegram, etc. Messages regarding leave of absence, payment of salary or expense account, etc., fall under this prohibition.

154. *Correspondence: File.* Each selective service agency shall keep a file of correspondence received and sent.

NOTE.—The first paragraph in Volume Four is numbered 401.

401. *Quota basis.* a. The national quota basis is the total of:

Registrants duly placed in Class I-A and awaiting induction (including those in I-A-O);

Registrants duly placed in Class I-C as being in the land and naval forces; and

Nonregistrants who are members of the land and naval forces.

b. The State quota basis is similarly the total of all registrants duly placed in Class I-A and I-C by the local boards of the State, and all nonregistrants who are members of the land and naval forces and who report that when they entered the land or naval forces their permanent residences were in the State.

c. A local board quota basis is the total of all registrants duly placed in Class I-A and I-C by the board and all nonregistrants who are members of the land and naval forces and who report that when they entered the land or naval forces their permanent residences were in the area over which that local board has jurisdiction.

d. When specifically prescribed by the Director of Selective Service, the quota basis for any subdivision shall include the registrants duly placed in other classes.

402. *Gross quota.* The national gross quota on a given date is the total of the strength set by proper authority to be attained by the land and naval forces. The State gross quota is a proportionate share of the national gross quota, com-

puted by first finding what percent of the *national quota basis* is supplied by the State and then multiplying the national gross quota by that percent. The local board gross quota is a proportionate share of the State gross quota and is similarly computed.

403. *Net quota.* The net quota for any subdivision on a given date is the number of men who must be inducted in order to attain the gross quota set for that subdivision. It is the difference between the gross quota set for, and the credit already given, the subdivision.

404. *Credit and debit.* a. A credit for any subdivision is the total number of men from that subdivision in the land and naval forces on a date to be fixed by the Director of Selective Service (expected to be November 30, 1940), plus the number of men from that subdivision who become members of the land and naval forces after that date but before the date for which a particular quota is established.

b. A debit for any subdivision is the total number of men who, having been credited to the subdivision as being members of the land and naval forces, subsequently are reported to the Director of Selective Service as deserters or become separated from the land and naval forces by discharge, dismissal, or resignation.

405. *Selected man.* A selected man is (1) any registrant who has been duly designated by a local board to fill a call, or (2) any nonregistrant who has volunteered for induction and has been duly designated by a local board to fill a call.

406. *Inducted man.* An inducted man is a man who has become a member of the land and naval forces through the operation of the Selective Service System.

407. *Induction station.* The term "induction station" refers to any camp, post, ship, or station at which selected men are received by the military authorities and, if found acceptable, are inducted into military service.

408. *Call.* A call is an order made by a Governor upon a local board for the delivery of a specific number of men to an induction station.

SECTION XXXIII—QUOTAS AND CREDITS

| | Paragraph |
|------------------------------------------------------------|-----------|
| Quotas and credits: The Director of Selective Service..... | 409 |
| Quotas and credits: The Governor..... | 410 |
| Estimating quota bases and quotas..... | 411 |
| Local boards: Forms 166 and 167..... | 412 |
| Local boards: Report of Class 1-A..... | 413 |

409. *Quotas and credits: The Director of Selective Service.* a. The Director of Selective Service shall determine the quotas, credits, and debits for the Nation and for each State. He shall from time to time call upon each Governor to report on a State Report of Class I (Form 162) the number of registrants in the State, the number of registrants duly placed in Class I-A by the local boards in his State, and the number of registrants duly inducted from his State.

b. The Director of Selective Service will receive from the War or Navy Department or Headquarters Marine Corps a Home Address Report (Form 166) for each man who is a member of the land and naval forces on a date to be fixed by the Director. He will similarly receive a home address report for each man, whether a registrant or not, who subsequently becomes a member of the land and naval forces other than by induction through a local board.

c. When a member of the land and naval forces is separated from the land and naval forces or is (after being absent from his unit for a certain period of time) reported as being a deserter, the Director of Selective Service will receive from the War or Navy Department or Headquarters Marine Corps a Report of Separation (Form 167).

d. After crediting and debiting the proper States, the Director of Selective Service shall forward all home address reports and reports of separation to the Governors.

e. The Director of Selective Service shall from time to time notify each Governor of the quotas, credits, and debits of his State and of the number of men to be furnished by his State to the land and naval forces and the period or periods during which the men are to be furnished.

410. *Quotas and credits: The Governor.* a. The Governor shall determine the quotas, credits, and debits for each

local board in his State. He shall from time to time call upon each local board to report on a Local Board Report of Class I-A (Form 161) the number of registrants, the number classified, the number it has duly placed in Class I-A, the number inducted, and the number credited as being members of the land and naval forces other than by induction. He shall receive from induction stations reports of men inducted (Form 151).

b. Upon receiving the home address reports (Form 166) and reports of separation (Form 167) from the Director of Selective Service, he shall credit and debit the proper local boards and shall forward the reports to the boards.

c. The Governor shall from time to time notify each local board of the quotas, credits, and debits of that board.

411. *Estimating quota bases and quotas.* Until the actual numbers necessary for determining quota bases, quotas, and credits are known, the quota bases, quotas, and credits may be estimated.

412. *Local boards: Forms 166 and 167.*

a. Upon receiving home address reports (Form 166) from the Governor, the local board shall check such reports against its records to determine whether any registrant has entered the land and naval forces without reporting that fact to the local board. Any registrant who has entered the land and naval forces shall be classified in, or transferred to, Class I-C. If he was suspected of being a delinquent only because he failed to report to the board that he had enlisted in the land or naval forces, the board shall remove any charge of delinquency made against the registrant and shall make the report required by Vol. Three, "Classification and Selection." Upon receiving a report of separation for a registered man, the board shall take the action prescribed in paragraph 435. The board shall file all home address reports (Form 166) and all reports of separation (Form 167).

b. The local board shall enter in its Classification Record only those men who have registration cards on file with the board.

413. *Local boards: Report of Class I-A.* When called upon by the Governor, the local board shall immediately report on Form 161 the information required. It shall file a duplicate of the report.

SECTION XXXIV—CALLS

Paragraph

State headquarters arranges for delivery. 414
Calls made by the Governor----- 415
Selection of men to fill call----- 416
Selection of leaders and assistant leaders. 417

414. *State headquarters arranges for delivery.* The delivery of men to Army induction stations will be arranged by the Governor of each State and the commander of the corps area of which the State is a part. The delivery of men to Navy or Marine Corps induction stations will be arranged by the Governor of each State and representatives of the Navy or Marine Corps. At least 21 days before the induction, the corps area commander or representative of the Navy or Marine Corps, on the basis of the facilities available for the care and training of the men to be inducted, will, within the quota set, submit to each Governor the requirements for men to be inducted and the period during which they are to be inducted. The details of when and to which induction stations selected men are to report should be settled by conference.

415. *Calls made by the Governor.* a. After conference with the corps area commander (or representatives of the Navy or Marine Corps) the Governor shall issue calls to local boards, sufficient to meet the above request (par. 414).

He shall send a duplicate of each call to the corps area commander (or to representatives of the Navy or Marine Corps) and file a copy. Calls shall be numbered consecutively, without regard to the service for which the call is made. The call shall be issued in time to allow selected men five days in which to wind up their affairs.

b. No form is specified for calls, but each call made on a local board shall state—

The call number;

Which service the call is for—Army, Navy, or Marine Corps;

The number of men, as specified by the corps area commander (or representative of the Navy or Marine Corps), to be delivered;

The designation and address of the induction station;

The day of delivery;

The type of transportation, and schedule of departures, arrivals, and transfers en route.

c. No call made on a local board shall be for more than the board's current net quota.

d. No call shall be made for men with special qualifications.

416. Selection of men to fill call. a. When a call is received by a local board, the board shall immediately proceed to fill the call by selecting a sufficient number of the Class I-A men specified in the call. The men specified in the call shall be selected in sequence of their order numbers, beginning with the smallest order number, except that all Class I-A men so specified who have volunteered for induction shall be selected to fill the call before any man who has not volunteered shall be so selected. (For transferred men, see par. 425.)

b. No local board shall select for a call more men than are required, at the time, to fill the call. (For replacements of selected men, see sec. XXXVII; for replacement of selected men transferred to another local board for delivery, see par. 425f.)

c. No registrant shall be ordered to report for induction while there is pending any appeal duly made by him or in his behalf.

d. If any selected man is registered with two local boards, the local board that orders him to report for induction shall notify the other board that it has so ordered him.

417. Selection of leaders and assistant leaders. a. After selecting the registrants who are to fill the call, the local board shall designate one selected man to be the leader of the group, and one or more to be assistant leaders. Because the leaders and assistant leaders have grave responsibilities (see Form 158), the board should, in selecting them, consider each man's age, experience, character, and personality.

b. Leaders and assistant leaders shall have such authority as is necessary to deliver the group to the induction station.

SECTION XXXV—PREPARATION OF PAPERS BEFORE DELIVERY

| | Paragraph |

b. The time specified for reporting shall be at least five days after the date the order is mailed.

419. Information for Armed Forces (Form 149). The information entered on the Form 149 shall be extracted from the registrant's questionnaire.

420. List of Selected Men (Form 153). When it mails the orders to report for induction, the local board shall prepare a List of Selected Men (Form 153). It shall post one copy in a public place at or near the office of the board. It shall release additional copies to the press.

421. Warrants of leader and assistant leaders (Form 158). Before the time set for selected men to report for delivery to the induction station, the local board should prepare a warrant (Form 158) for each leader and assistant leader.

422. Delivery List (Form 151). a. Before the time set for selected men to report for delivery to the induction station, the local board shall prepare a Delivery List (Form 151), in triplicate. The board shall make no entries in column 4 of the form.

b. If a registrant fails to report as ordered (par. 418), his absence shall be

noted on the Delivery List before it is turned over to the leader (par. 426).

423. Transportation request and meal or lodging ticket. *a.* Before the time set for selected men to report for delivery to the induction station, the local board shall prepare a transportation request (Standard Forms 1028-1031) and meal or lodging tickets (Form 256), as prescribed in Vol. Five, "Finance".

b. As a convenience to the leader, the board itself may exchange the prepared transportation request for transportation tickets.

424. Records that are sent to induction station. *a.* The following records shall be turned over to the leader for delivery to the commanding officer of the induction station.

For the group:

Original and duplicate delivery list (Form 151).

Original order to report for induction (Form 150);

Information for armed forces (Form 149).

For each selected man under 21 years of age:

Written consent of his parents (or guardian), dated not more than 30 days before induction, or the statement prescribed in Volume Three, "Classification and Selection".

b. The following records shall be mailed, or sent by messenger, to the commanding officer of the induction station when the registrants entrain:

Duplicate copy of each order to report for induction (Form 150);

Triplicate copy of delivery list (Form 151).

c. If any registrant fails to bring his order to report for induction (Form 150), the board shall cause a copy to be prepared.

425. Transferring delivery of selected men. *a.* If any selected man is so far from his local board that reporting to his board for delivery would be a hardship, he may go to any local board and ask that board to send him to an induction station.

b. The local board to which the selected man makes his request shall investigate the circumstances of his absence from his local board area. If it finds that he does not have a good reason for his absence, it shall direct him to present himself to his own local board. If it finds that he has a good reason, it shall approve his request and so notify his local board.

c. The local board that has ordered the man to report for delivery shall then transfer him. It shall prepare an Order Transferring Delivery of Registrant (Form 160), in triplicate. It shall send one copy to the Governor, for forwarding to the corps area commander (or representative of the Navy or Marine Corps), and file one copy. It shall send the third copy of Form 160 and a copy of information for armed forces (Form 149) to the local board to which the registrant is transferred.

d. If the two local boards are in the same corps area, the corps area commander (or representative of the Navy or Marine Corps) will arrange with the proper Governor the time and induction station to which the transferred registrant is to be delivered. If the local board to which the registrant is transferred is in another corps area, the corps area commander will forward the Form 160 to the proper corps area commander, who will arrange for the registrant's delivery.

e. The local board to which the registrant is transferred for delivery shall deliver him as prescribed in Section XXXVI. It shall forward to the local board from which he was transferred all papers pertaining to the registrant that are received from the induction station, except the delivery list (Form 150).

f. In order that the exact numbers required by the calls on the two boards will be delivered, the local board from which the registrant is transferred shall provide a replacement for him and the local board to which the registrant is transferred shall substitute him for one of its selected men, even if they are all volunteers (par. 416a). Ordinarily, the substitution shall be for the last man selected. The transferred registrant, if inducted, shall be credited to the board from which he was transferred.

He is charged with providing food and lodging for the men after their arrival. He is charged with providing transportation back to the local board for any selected man who, at the induction station, is found not acceptable to the land or naval forces.

429. *Induction.* After examination at the induction station, the selected men found acceptable will be inducted into the land and naval forces. An officer of the Army, Navy, or Marine Corps will administer a prescribed oath to each of the men. 431. *Time allowed replacements to report. a.* A replacement shall be entitled to at least five days in which to wind up his affairs before reporting to the local board for delivery (par. 418). 432. Induction stations for replacements. *a.* The corps area commander (or representative of the Navy or Marine Corps) will notify each Governor as to the location of induction stations for replacements and the day or days they are to report. The Governor in turn shall give to the local boards concerned the information given on a call (par. 415).

d. The delivery list (Form 151) when returned by the induction station commander will show any man who failed to report at the induction station and whether selected men were found accept-

EXECUTIVE ORDER 8576**LABOR REGULATIONS**

By virtue of the authority vested in me
by section 1753 of the Revised Statutes
of the United States, I hereby prescribe
the following regulations governing the
employment of unclassified laborers in
the executive civil service of the United
States:

**REGULATION I—APPLICABILITY OF
REGULATIONS**

SECTION 1. These regulations shall be
applicable in such areas or localities or
to such parts of the executive civil serv-
ice as the Civil Service Commission may
determine.

SECTION 2. It shall be the duty of all
officers in the executive civil service to
aid the Commission in all proper ways in
carrying these regulations into effect.

**REGULATION II—QUALIFICATION OF
APPLICANTS**

SECTION 1. Applicants for appointment
as unclassified laborers must be citizens
of or owe allegiance to the United States,
be physically and mentally qualified, be
of good character and habits, and must
not have reached the retirement age ap-
plicable to them.

SECTION 2. An applicant may be re-
jected for any of the following reasons:

(a) Dismissal from the service for de-
linquency or misconduct.

(b) Physical or mental unfitness.

(c) Criminal, infamous, dishonest, im-
moral, or notoriously disgraceful conduct.

(d) Intentionally making a false state-
ment as to any material fact, or prac-
ticing any deception or fraud in securing
examination, registration, certification,
or appointment.

(e) Refusal to furnish testimony in
matters arising under the Civil Service
Act, Civil Service Rules, or these regula-
tions.

(f) Habitual use of intoxicating bever-
ages to excess.

(g) Illegality of appointment applied
for.

Any of the reasons stated in the fore-
going subdivisions from (b) to (g), in-
clusive, shall also be sufficient cause for
removal from the service.

SECTION 3. The political or religious opinions or affiliations of any applicant, eligible, or employee shall not be inquired into or considered, except as to such membership in political parties or organizations as constitutes by law a disqualification for government employment.

REGULATION III—METHOD OF RATING

Applicants shall be rated upon their physical ability to perform manual labor as determined by physicians designated by the Civil Service Commission and upon such preliminary tests as the Commission may prescribe. Where preliminary tests are given, ratings on physical ability will be assigned only to a sufficient number of those attaining the highest ratings in such tests to meet the needs of the service: *Provided*, that those entitled to priority under section 1 of Regulation IV hereof shall have their names entered at the head of the list, subject to the physical examination.

REGULATION IV—ELIGIBILITY

SECTION 1. The names of eligibles rated at 85 or more shall be registered by sex in order of their ratings on physical condition, except that the following shall have priority: (1) Honorably discharged soldiers, sailors, and marines. (2) The widows of honorably discharged soldiers, sailors, and marines. (3) Wives of honorably discharged soldiers, sailors, and marines who are not qualified because of service-connected disability or who are over 55 years of age and are not qualified because of disability.

SECTION 2. Eligibility shall be for one year, but the period may be extended by the Civil Service Commission for all those on any register if it is deemed inexpedient to hold a new examination.

SECTION 3. A laborer separated from the service without delinquency or misconduct may have his name restored to the register of eligibles in the discretion of the Commission for the remainder of his period of eligibility.

REGULATION V—CERTIFICATION, APPOINTMENT, AND ASSIGNMENT

SECTION 1. No person who is to perform mere manual labor in areas or parts of the service where these regulations are in force shall be appointed otherwise

than in accordance with these regulations, except that suitable registers for the classified service may be used to fill laborer positions. Unclassified laborers appointed from a classified register shall thereby acquire a classified status, but the position shall remain unclassified and subject to these regulations.

SECTION 2. When an appointment is desired, the employing officer shall request certification, specifying sex, duties, salary, and the duration of the employment. The highest three eligibles who have not already been considered three times by the employing officer shall be certified by the Civil Service Commission.

SECTION 3. Whenever there are less than three eligibles on the register, certification shall be made with a view to regular appointment. If the employing officer shall elect not to make regular appointment from such certification and temporary appointment is required, the eligible or eligibles shall be considered by the employing officer with a view to temporary appointment. Such temporary appointment, if made, may be continued until three eligibles are provided. If selection is not made from the certification for either regular or temporary appointment under this section, the temporary appointment may be made under Regulation VII hereof.

SECTION 4. An appointing officer who passes over an eligible veteran and selects a non-veteran shall file with the Civil Service Commission a statement setting forth in detail his reasons for so doing, which reasons shall not be made available to the veteran or to any one else except in the discretion of the appointing officer. The Commission shall review these reasons and in every instance in which they are not regarded as adequate shall so advise the head of the appropriate department or independent establishment for his consideration.

SECTION 5. The person selected shall be duly notified by the employing officer and shall be given a full and fair trial.

SECTION 6. A laborer with an unclassified status may not be appointed to a classified position except through open competitive examination, nor assigned to the duties of such position except incidentally and then only with the prior approval of the Commission or the district manager of the appropriate civil

service district. A laborer with an unclassified status may not be promoted to a classified position except through open competitive examination, or with the approval of the Civil Service Commission in accordance with the provisions of Schedule B of the Civil Service Rules, or as may otherwise be provided by regulation of the Civil Service Commission.

REGULATION VI—DEMOTION FROM CLASSIFIED POSITIONS

A classified employee may be placed in an unclassified laborer position (with corresponding change in designation) upon certificate of the Civil Service Commission, subject to the passing of a strength test given by the Civil Service Commission, which test may be waived by agreement between the appointing officer and the Commission. In the field service, a classified employee occupying a non-educational position may be placed in an unclassified position (with corresponding change in designation) upon authority of the manager of the appropriate civil service district.

REGULATION VII—TEMPORARY APPOINTMENT

SECTION 1. Temporary appointment shall be made from the highest three eligibles willing to accept for the duration of the employment specified, and the name of the eligible selected shall remain on the register for regular appointment.

SECTION 2. Whenever there are no eligibles upon the register and the public interest requires that the vacancy be filled before eligibles can be provided by the Civil Service Commission, the Commission or district manager of the appropriate civil service district may authorize temporary appointment without examination. Such appointment, if made, shall continue only for such period as may be necessary for making appointment through certification, and in no case, without prior approval of the Commission, shall extend beyond thirty days from the date of the receipt by the appointing officer of the Commission's certification of eligibles.

SECTION 3. When a position must be filled immediately to meet an emergency and time does not permit the securing of the prior approval of the Commission or district manager, temporary appointment may be made of a suitably quali-

fied available person. This provision shall not apply to positions in Washington, D. C., or in cities in which district managers' headquarters are located. No person shall be thus employed for more than thirty calendar days in any period of twelve months unless specifically authorized by the Commission or district manager.

REGULATION VIII—REINSTATEMENT

SECTION 1. A person separated without delinquency, misconduct, or inefficiency from a field-service position under these regulations may be reemployed under the same department or independent agency within one year without certificate of the Civil Service Commission.

SECTION 2. Except as provided in section 1 of this Regulation, a person separated from the service under these regulations may be reinstated upon certificate of the Commission, subject to the following limitations:

(a) Reinstatement may be made upon requisition by the appointing officer having a vacancy to fill: *Provided*, that such requisition is made within one year of separation if the period of service was less than two years, within two years if the period of service was two years or more but less than three years, within three years if the period of service was three years or more but less than four years, within four years if the period of service was four years or more but less than five years, and without time limit if the period of service was five years or more: *Provided further*, that the applicant is otherwise eligible under the provisions of the Executive Order of June 2, 1920, relating to the reinstatement of employees: *Provided further*, that the time limit may be waived in the case of reinstatements to positions in Federal agencies concerned with preparedness and the national-defense program.

(b) A former unclassified employee entitled to military preference in registration and appointment may be reinstated without time limit.

(c) A former unclassified employee retired upon annuity under the Civil Service Retirement Act by reason of total disability who is eligible for reinstatement by reason of recovery and termination of annuity, shall be eligible for

reinstatement, subject to the conditions and limitations of these regulations.

(d) No person may be reinstated to a position under these regulations who did not have a status thereunder at the time of separation, or who was not eligible for such status through examination.

(e) No person may be reinstated to a position under these regulations without passing an appropriate non-competitive examination testing fully his fitness for the position when the Commission shall so require.

REGULATION IX—TRANSFER

After he has completed six months of service, an unclassified laborer may be transferred to another department or agency upon certificate of the Commission.

REGULATION X—PROMOTION

A person employed under these regulations may not be promoted, except where general authority has been granted by the Commission, until he has completed six months of service, unless his name was within reach for appointment at the higher salary at time of appointment or would have been so within reach had it remained on the register.

REGULATION XI—REMOVAL

SECTION 1. No unclassified laborer other than temporary shall be removed from the service except for such cause as in the judgment of the employing officer will promote the efficiency of the service, and no trial or hearing shall be required except at the discretion of such officer.

SECTION 2. The reasons for each removal shall be made of record in the office in which the person is serving and shall be open to the inspection of the Commission.

SECTION 3. In harmony with statutory provisions, when reductions are being made in the force no unclassified laborer entitled to military preference in appointment shall be discharged, dropped, or reduced in rank or salary before any employee not entitled to military preference in competition with him if his record is good; nor shall any unclassified laborer entitled to military preference in

appointment be discharged, dropped, or reduced in rank or salary before any employee not entitled to military preference in competition with him if his efficiency rating is better than, or equal to, that of such non-preference employee.

REGULATION XII—INCLUSION IN THE UNCLASSIFIED SERVICE

A person holding a position when it becomes subject to these regulations shall, upon recommendation to the Commission by the head of the department or establishment in which he is employed, acquire a status hereunder subject to the following conditions:

(a) That he was appointed at least six months prior to the effective date of the application of the regulations.

(b) That he shall qualify in such appropriate non-competitive examination as the Commission may prescribe.

(c) That he is not disqualified by any provision of these regulations or of the Civil Service Act or of any other statute, or Executive order.

Any such person who fails to meet the above-stated conditions may, in the discretion of the head of the department or agency concerned, be retained without acquiring such a status.

REGULATION XIII—REPORT OF CHANGES

Appointments and changes under these regulations shall be reported to the Civil Service Commission in accordance with the provisions of Civil Service Rule XIII. The designation should be shown as "unclassified laborer."

REGULATION XIV—SUPPLEMENTARY REGULATIONS

The Civil Service Commission may prescribe supplementary regulations not inconsistent herewith necessary for the administration of these regulations.

This order supersedes the Executive order of June 5, 1922, prescribing regulations governing the employment of unclassified laborers in the executive civil service, and all orders amendatory thereof.

sified civil service, for the purpose of either improving or injuring the prospects or chances of any such applicant or eligible. The penalty for violation of this section by applicants or eligibles shall be cancellation of application or eligibility, as the case may be, and such other penalty as the Civil Service Commission may deem appropriate. The penalty for violation of this rule on the part of officers or employees in the executive civil service shall be such disciplinary action as the Commission shall direct.

Section 6 of Rule II is amended to read as follows:

6. Excepted employees—when classified. Except as provided in section 7 of this rule, a person holding a position when it is placed in the classified (competitive) service or otherwise is made subject to competitive examination shall, upon recommendation to the Commission by the head of the department or agency in which he is employed have all the rights which he would have acquired if appointed thereto by competitive examination: *Provided:* (a) That he has rendered six months of satisfactory active service in the civilian executive branch of the Federal Government immediately prior to the effective date of the change in status of the position, and continues to serve in such position for 60 days thereafter; (b) that he shall pass such appropriate noncompetitive tests of fitness as the Commission may prescribe; and (c) that he is not disqualified by any provision of section 3 of Civil Service Rule V or of any other civil service rule or by any provision of the Civil Service Act or any other statute or executive order: *Provided further,* that in conferring a classified competitive status upon any employee under this or any other rule or any statute or executive order, the Commission (a) may, in its discretion, exempt from the physical requirements established for any position any employee who has rendered long and faithful service in a civil capacity for the Government, and (b) may consider a person whose name is carried on the compensation rolls of the Employees' Compensation Commission as having rendered satisfactory active service in the position in which he last served for

the period which his name is carried on such rolls.

Any person who fails to meet the above-stated requirements of this section may, in the discretion of the head of the agency concerned, be retained in the position in which he is serving without acquiring a classified (competitive) status, but such employee may not be promoted, transferred, or assigned to any other classified (competitive) position.

Section 7 of Rule II is amended to read as follows:

7. Classification in post offices. The Postmaster General shall promptly notify the Commission of each order for the advancement of any post office from the third class to the second class, or for the consolidation of any post office with one in which the employees are classified as competitive. On the effective date of any such order, section 6 of this rule shall apply to the positions, officers, and employees of the offices affected, and all other provisions of these rules shall become applicable to all officers and employees who so qualify and to all such positions thereafter filled in the same manner as they apply to those in offices now classified. The Postmaster General shall, upon the date he reports the advancement of any post office from the third to the second class, or as soon thereafter as is practicable, notify the Commission as to which of the employees in such office he recommends for classification. Section 6 of this rule shall also apply to the position of postmaster of any office which may have been heretofore or may be hereafter relegated to the fourth class.

Section 8 of Rule II is amended to read as follows:

8. Appointment without competitive examination in rare cases. Whenever the Commission shall find that the duties or compensation of a vacant position are such, or that qualified persons are so rare, that in its judgment such position cannot, in the interest of good civil-service administration, be filled at that time through open competitive examination, it may authorize such vacancy to be filled without competitive examination; and in any case in which such authority is given, evidence satis-

factory to the Commission of the qualifications of the person to be appointed without competitive examination shall be required. A detailed statement of the reasons for its action in any case arising hereunder shall be made in the records of the Commission and shall be published in its annual report. Any person heretofore or hereafter appointed under this rule shall acquire a competitive classified status under such regulations as the Commission may prescribe, but may not be transferred or assigned to any other position without the express prior approval of the Commission. Any subsequent vacancy in such position shall not be filled without competitive examination except upon express authority of the Commission in accordance with this section.

Rule II is further amended by adding thereto at the end thereof the following section to be numbered 9:

9. *Service beyond seas.* A citizen of the United States who has rendered faithful service for not less than 7 years beyond the seas in a civil capacity not in contravention of the civil service laws or rules may be given a classified status under such regulations as the Commission may prescribe, upon certification by the head of the department or office in which he served that the case is one of exceptional merit: *Provided*, that shortly before such employment he resided for a substantial period of time in the United States.

Section 2 of Rule III is amended to read as follows:

2. *Noncompetitive examinations.* The Commission may give noncompetitive examinations to test fitness for (a) reinstatement, and (b) appointment to positions excepted from the classified service under these rules or by Executive order; and may give noncompetitive examination for transfer or promotion when in its opinion competitive examinations are not practicable.

Section 1 (b) of Rule IV is amended to read as follows:

(b) Where qualified special examiners are not available in the Federal service, the Commission may designate individuals outside the service specially qualified by experience and training, and of out-

standing reputation in their own field, to serve on a board of examiners for a particular examination, and may compensate them for such service on a per-diem basis.

Section 2 of Rule IV is amended to read as follows:

2. *Cooperation with other boards, commissions, and agencies.* The Commission shall render all practicable assistance to the Philippine and Puerto Rico civil service boards, and such other Federal, State, or local agencies as shall request its cooperation and offer like cooperation or adequately provide its share of the expense, and shall conduct or join in conducting examinations, upon their request, under such regulations as may be jointly agreed upon. The Commission may, in its discretion, certify eligibles from appropriate registers maintained by the Philippine and Puerto Rico civil service boards and the civil service boards of State and local agencies: *Provided*, that in the opinion of the Commission the examinations from which such registers were established meet the requirements of these rules and the standards established for examinations for the Federal classified civil service.

Section 1 of Rule V is amended to read as follows:

1. *Citizenship.* No person shall be admitted to examination unless he is a citizen of or owes allegiance to the United States.

Section 3 of Rule V is amended to read as follows:

3. *Disqualifications.* The Commission may, in its discretion, refuse to examine an applicant for appointment or reinstatement or to certify an eligible for any of the following reasons: (a) Dismissal from the service for delinquency or misconduct; (b) physical or mental unfitness for the position for which he applies: *Provided*, that the Commission may, in its discretion, exempt from the physical requirements established for any position a disabled honorably discharged soldier, sailor, or marine, upon a certificate of the United States Veterans' Administration attesting that he has completed an appropriate and sufficient rehabilitatory course of training for the duties of the class of positions in which employment is sought: *Provided further*,

that the Commission may, in its discretion, waive the physical requirements in the case of a disabled veteran not so trained to permit his examination; (c) criminal, infamous, dishonest, immoral, or notoriously disgraceful conduct; (d) intentionally making a false statement as to any material fact, or practicing any deception or fraud in securing examination, registration, certification, or appointment; (e) refusal to furnish testimony as required by Rule XIV; (f) habitual use of intoxicating beverages to excess; and (g) illegality of appointment applied for.

Any of the reasons stated in the foregoing subdivisions from (b) to (g), inclusive, shall also be sufficient cause for removal from the service.

Section 4 of Rule V is amended to read as follows:

4. *Age limits.* The Commission may, with the approval of the proper appointing officer, change by regulation the existing age limits for entrance to the examinations under these rules, but persons entitled to veteran preference may be examined without regard to age except for such positions as the Commission shall specify: *Provided*, that they have not reached the retirement age for the position sought.

The second paragraph of section 1 of Rule VI is amended to read as follows:

Employees in any positions in the executive civil service who have a classified civil service status and who are qualified to enter any open competitive examination may, upon earning a passing mark therein, be placed also upon a separate list of eligible Government employees, which list may be certified separately in accordance with the civil service rules to fill vacancies occurring in the positions for which the examination is held. Age limitations may be waived and physical requirements modified for employees otherwise eligible to compete in such examinations. Employees eligible to compete in any such examination shall be granted annual leave of absence for the time required to take such examination.

Section 3 of Rule VI is amended to read as follows:

3. *Term of eligibility.* The term of

eligibility shall be one year beginning with the date on which the name of the eligible is entered on the register. This term may be extended, in the discretion of the Commission, for all eligibles on the register when the conditions of good administration render it inexpedient to hold a new examination. After two years, the Commission may, in its discretion, as to examinations in which experience was part of the test, require a supplementary examination of additional and interim experience and reestablish the register after the rerating of such experience. In such cases those eligibles who fail to file additional experience data, as required by the Commission, or who fail to meet the requirements or to receive a passing mark on rerating, shall be dropped from the register.

Section 2 (b) of Rule VII is amended to read as follows:

(b) *Selections.* The nominating or appointing officer shall make selections for the first vacancy from not more than the highest three persons certified, or on the register, with sole reference to merit and fitness, unless objection shall be made and sustained by the Commission to one or more of the persons certified, for any of the reasons stated in Rule V, section 3, or in the case of positions in Federal agencies concerned in preparedness and the national-defense program, for such other reasons as may be approved by the Commission. For the second vacancy the nominating or appointing officer shall make selection from not more than the highest three remaining who have not been within his reach for three separate vacancies, or against whom objection has not been made and sustained in the manner indicated. The third and any additional vacancies shall be filled in like manner. More than one selection may be made from the three persons next in order for appointment, or from two persons if the register contains the names of only two, subject to the requirements of section 3 of this rule as to the apportionment.

An appointing officer who passes over an eligible veteran and selects a non-veteran shall file with the Civil Service Commission a statement setting forth in

detail his reasons for so doing, which reasons shall not be made available to the veteran or to anyone else except in the discretion of the appointing officer. The Commission shall review these reasons and in every instance where they are not regarded as adequate shall so advise the head of the appropriate department or independent establishment for his consideration.

Any eligible who has been within reach for three separate vacancies in his turn may be subsequently selected, subject to the approval of the Commission, from the certificate on which his name last appeared, if the condition of the register has not so changed as to place him in other respects beyond reach of certification.

Section 2 (c) of Rule VII is amended to read as follows:

(c) *Probationary appointment.* A person selected for appointment shall be duly notified by the appointing officer and upon accepting and reporting for duty shall receive from such officer a certificate of probational appointment. The first six months of service under this appointment shall be a probationary period, but the Commission and the department concerned may by regulation fix a longer probationary period for any specified positions. If and when, after a full and fair trial, the conduct or capacity of the probationer is not satisfactory to the appointing officer, the probationer may at any time thereafter during this period be so notified in writing, with a full statement of reasons, and this notice shall terminate his service. Efficiency-rating reports of all probationers shall be filed periodically within the department at such times and in such form as the regulations of the Commission shall provide. If at the end of the probationary period the probationer's service rating has been satisfactory, to the extent required by regulation, a certificate to that effect filed within the department and his retention in the service shall confirm his absolute appointment. If, however, his service rating has been unsatisfactory as so provided, his service shall be terminated at the end of the probationary period.

A probationer separated from the service without delinquency or miscon-

duct may be restored to the register of eligibles in the discretion of the Commission for the remainder of any period of eligibility thereon.

Section 1 of Rule VIII is amended to read as follows:

1. *Pending regular filling of vacancy.* Temporary appointment without examination and certification by the Commission shall not be made to a competitive position in any case, except when the public interest so requires, and then only upon the prior authorization of the Commission; and any appointment so authorized shall continue only for such period as may be necessary to make appointment through certification of eligibles, and in no case, without prior approval of the Commission, shall extend beyond 30 days from the date of the receipt by the appointing officer of the Commission's certificate. When a vacancy is to be filled by promotion, transfer, or reinstatement under the civil service rules and a temporary appointment is authorized by the Commission under the provisions of this section pending the promotion, transfer, or reinstatement, such temporary appointment shall in no case continue beyond the period of 30 days without prior approval of the Commission.

Section 3 of Rule VIII is amended to read as follows:

3. *Pending full certification.* Whenever there are less than three eligibles on any appropriate register for a position in which a vacancy exists, the Commission shall, upon requisition from the proper appointing officer, certify those eligibles who are on the register, who shall be considered by the appointing officer with a view to probational appointment. If the appointing officer shall elect not to make probational appointment from such certification and temporary appointment is required, the eligible or eligibles shall be considered by the appointing officer with a view to temporary appointment. Such temporary appointment may continue until three eligibles are provided. If selection is not made from the certification for either probational or temporary appointment under the provisions of this section, the temporary appointment, if required, may be made under the provisions of these rules.

Section 1 of Rule IX is amended to read as follows:

1. *Certificate required—conditions.* A person separated from a civilian position in the Federal service after absolute appointment may, in the discretion of the Commission, be reinstated upon certificate of the Commission subject to the following limitations:

(a) Reinstatement may be made upon requisition by the appointing officer having a vacancy to fill: *Provided*, that such requisition is made within 1 year of separation if the period of service was less than 2 years, within 2 years if the period of service was 2 years or more but less than 3 years, within 3 years if the period of service was 3 years or more but less than 4 years, within 4 years if the period of service was 4 years or more but less than 5 years, and without time limit if the period of service was 5 years or more: *Provided further*, that the applicant is otherwise eligible under the conditions of the Executive order of June 2, 1920, relating to the reinstatement of employees: *Provided further*, that the time limit may be waived in the case of reinstatements to positions in Federal agencies concerned with preparedness and the national-defense program.

(b) A former classified employee entitled to military preference in appointment may be reinstated without time limit.

(c) A former classified employee retired upon annuity under the Civil Service Retirement Act by reason of total disability who is eligible for reinstatement by reason of recovery and termination of annuity, shall be eligible for reinstatement, subject to the conditions and limitations of the civil service rules.

(d) No person may be reinstated to a position in the classified service who did not have a classified status at the time of separation, or who was not eligible for such status through examination.

(e) No person may be reinstated to a position in the classified service without passing an appropriate noncompetitive examination testing fully his fitness for the position when the Commission shall so require.

Section 2 of Rule IX is amended to read as follows:

2. *Probationer.* A person separated from the service during or at the end of his probationary period may be reinstated, subject to the other provisions of the civil service rules, under the following conditions:

(a) If involuntarily separated without delinquency or misconduct, he may be reinstated to serve a new probation in any part of the service in any position for which he is qualified or can qualify in an appropriate noncompetitive examination; but reinstatement in the same position in or under the same department or agency will be to complete probation.

(b) If separated by reason of voluntary resignation, he may be reinstated only in the same office, in a position for which originally eligible, to complete probation.

Section 3 of Rule IX is revoked.

Section 2 of Rule X is amended to read as follows:

2. *Transfers from excepted to competitive position.* No person may be transferred to a position in the classified service who does not have a classified (competitive) status or eligibility for such status.

Section 5 of Rule X is amended to read as follows:

5. *Without certificate.* Transfers otherwise in accordance with these rules may be made without certificate of the Commission in the following cases, unless different tests are prescribed for original entrance to the position to which transfer is proposed and unless otherwise provided by regulations of the Commission:

(a) Within the apportioned service of a department or agency.

(b) From a department or office in Washington, D. C., to field branches of the same department or agency.

(c) Within an agency in the non-apportioned service.

(d) Within the field service of a department or agency.

Section 8 of Rule X is amended to read as follows:

8. *Philippine service.* An officer or employee occupying a competitive position

in the Philippine classified service who has served 3 years or more therein may be transferred to the Federal classified service, subject to the provisions of these rules; but the Commission may authorize the transfer of an officer or employee who has served 2 years in the Philippine classified service and who has been separated by necessary reduction of force or by displacement by a Filipino, if he is especially recommended by the Department of the Interior because of his efficiency and good character. In all cases of proposed transfer from the Philippine classified service the Interior Department shall furnish the Commission, for its consideration, all relevant information contained in its files, together with the service record of the employee.

Section 11 of Rule X is revoked.

Section 5 of Rule XII is amended to read as follows:

5. *Retention of soldiers and sailors.* In harmony with statutory provisions, when reductions are being made in the force, in any part of the classified service, no employee entitled to military preference in appointment shall be discharged, dropped, or reduced in rank or salary before any employee not entitled to military preference in competition with him if his record is good; nor shall any unclassified laborer entitled to military preference in appointment be discharged, dropped, or reduced in rank or salary before any employee not entitled to military preference in competition with him if his efficiency rating is better than, or equal to, that of such non-preference employee.

EXECUTIVE ORDER 8588

PRESCRIBING REGULATIONS GOVERNING THE PAYMENT OF EXPENSES OF TRANSPORTATION OF HOUSEHOLD GOODS AND PERSONAL EFFECTS OF CERTAIN CIVILIAN OFFICERS AND EMPLOYEES OF THE UNITED STATES

By virtue of and pursuant to the authority vested in me by the act of Octo-

ber 10, 1940, Public No. 839, 76th Congress, entitled "An Act To provide for uniformity of allowances for the transportation of household goods of civilian officers and employees when transferred from one official station to another for permanent duty", I hereby prescribe the following regulations governing the allowance and payment from Government funds of expenses now or hereafter authorized by law for the packing, crating, drayage, transportation, and unpacking of household goods and personal effects of civilian officers and employees of any of the executive departments or establishments of the United States when transferred from one official station to another for permanent duty:

SECTION 1. When any civilian officer or employee of any of the executive departments or establishments of the United States, hereinafter called employee, is transferred from one official station to another for permanent duty and the payment of expenses of transportation of his household goods and other personal effects is authorized by law, such expenses, when specifically authorized or approved by the head of the department or establishment concerned, shall be allowed and paid in accordance with the provisions of these regulations.

SECTION 2. Maximum Allowances for Transportation. (a) *Weight:* The actual costs of transportation of the household effects and other personal property of the employee, not in excess of 5,000 pounds gross, and of the packing, crates, boxes, lift vans, or other temporary containers required for the shipment, shall be allowed: *Provided,* That employees who have no dependents living with them shall be entitled to the transportation of household effects and other personal property not in excess of 2,500 pounds gross. Gross weight shall include the net weight of the property and the weight of the usual containers of the property, but shall not include the weight of packing, crates, boxes, or lift vans which have no connection with the property except for the purposes of the immediate shipment and which do not constitute a continuing part of the property of the employee.

For the application of the limitations prescribed by this subsection the gross weight of the property shall be computed as being 80 per cent of the combined weight of the property and the packing and crating used for the shipment: *Provided*, That in case of shipments involving transportation by vessel over all or part of the distance the gross weight of the property shall be computed as being 50 per cent of the combined weight of the property and the packing, crating, boxing, and lift vans used for the shipment: *And provided further*, That when shipment is by motor freight the gross weight of the property shall be the actual weight of the goods transported. Thus, transportation will be allowed at Government expense for property when packed, crated, boxed, or placed in lift vans for shipment, within the following maximum weights:

| | Pounds |
|----------------------------------------------------------------------------|--------|
| <i>Employees having dependents living with them</i> | |
| Shipment involving transportation by vessel over all or part of route..... | 10,000 |
| Shipment by rail only..... | 6,250 |
| Shipment by motor freight only..... | 5,000 |
| <i>Employees having no dependents living with them</i> | |
| Shipment involving transportation by vessel over all or part of route..... | 5,000 |
| Shipment by rail only..... | 3,125 |
| Shipment by motor freight only..... | 2,500 |

(b) *Volume*: Where charges for transportation are computed on a basis of measurement rather than weight, charges will be allowed regardless of weight for not to exceed 29 measurement tons of 40 cubic feet each, inclusive of packing, crating, and lift vans: *Provided*, That employees who have no dependents living with them shall be allowed charges for not to exceed 22 measurement tons.

(c) *Weight and Volume on Same Shipment*: When shipment must be made over such a route that the transportation necessarily involves charges based upon weight over part of the distance and upon measurement over another part of the distance, the following conditions shall apply: (1) if the weight does not exceed the limitations prescribed in subsection (a) payment shall be allowed for actual charges over the entire distance regardless of whether the

measurement is in excess of the limitations imposed by subsection (b); (2) if both weight and measurement are in excess of the prescribed limitations payment shall not be allowed for the excess by weight over that part of the distance where charges are based on weight, or for the excess by measurement over that part of the distance where charges are based on measurement.

SECTION 3. Allowances for Packing, Crating, Unpacking, and Uncrating. The actual costs of packing, crating, unpacking, and uncrating shall be allowed: *Provided*, That no charges shall be allowed for the packing, crating, unpacking, and uncrating of property in excess of the weight or measurement allowable under section 2 of these regulations.

SECTION 4. Allowances for Drayage. The actual costs of drayage to and from the common carrier shall be allowed: *Provided*, That in no case shall costs of drayage be allowed where door-to-door common carrier rates are applicable.

SECTION 5. Means of Shipment. Shipment shall be made by the most economical means, taking into consideration the costs of packing, crating, drayage, unpacking, and uncrating: *Provided*, That, in computing comparative costs, the allowance which may be made for the saving of charges for packing, crating, drayage, unpacking, and uncrating resulting from the use of motor freight shall in no case exceed \$2.50 per hundred pounds: *And provided further*, That, when the head of the department or agency determines it to be in the interest of the Government, he may specifically authorize the shipment by express of articles required for immediate use at the new official station (for example, professional books, wearing apparel, bedding, or kitchen utensils, but not furniture or jewelry), which shall in no case exceed a weight of 500 pounds for employees having dependents living with them or 250 pounds for employees having no dependents living with them.

SECTION 6. Use of Government Bill of Lading. Shipment shall be made on Government bill of lading whenever possible; otherwise reimbursement shall be made to the employee for transportation

expenses actually and necessarily incurred within the limitations prescribed by these regulations. If property in excess of the amount allowable under these regulations is shipped on a Government bill of lading with the authorized allowance the employee shall immediately upon completion of the shipment pay to the proper officer of the department or establishment an amount equal to the charge for the transportation of such excess.

SECTION 7. *Computation of Excess Costs.* Excess costs payable by the employee shall be computed from the total charges according to the ratio of excess weight to the total weight of the shipment.

SECTION 8. *Use of Lift Vans.* Charges allowable hereunder for packing and crating and for transportation shall include expenses incurred in hiring, transporting, and packing lift vans when shipments are made in whole or in part by water, but shall not include charges in connection with any shipment of empty lift vans or for payment of storage charges or import duties on lift vans.

SECTION 9. *Items Not Allowable.* For the purposes of these regulations household goods and other personal effects shall not include groceries, provisions, wines, liquors, animals not necessary in the performance of official duties, birds, or automobiles.

SECTION 10. *Valuation.* The valuation of property as declared for shipping purposes shall not exceed that at which the lowest freight rates will apply. Should the employee desire a higher valuation, he must assume all costs of transportation in excess of the charges at the lowest rate.

SECTION 11. *Shipment from Point Other Than Last Official Station.* The expenses of transportation allowable hereunder shall be payable whether the shipment is from the last official station of the employee to the new one, or from some previous place of residence of the employee to the new official station, or partially from both: *Provided*, That the expenses payable shall in no case exceed the costs of shipment by the most economical route from the last official station to the new: *And provided fur-*

ther, That no expenses shall be allowable for the transportation of property acquired en route from the last official station to the new.

SECTION 12. *Time Limit.* All shipments allowable under these regulations shall begin within six months of the effective date of the transfer of the employee unless an extension is specifically granted by the head of the department or establishment: *Provided*, That in no case shall payment be allowable for shipments begun after two years from the effective date of the transfer.

SECTION 13. *Shipment by American Vessels.* All shipments of property by water shall be made on ships registered under the laws of the United States where such ships are available.

SECTION 14. *Transfer for Convenience of Employee.* If a transfer is made at the request and primarily for the convenience or benefit of an employee, no payment shall be allowed from Government funds for the packing, crating, drayage, transportation, unpacking, or uncrating of the household goods or other personal effects of the employee.

SECTION 15. *Preparation of Vouchers.* In preparing vouchers for payments under these regulations the following conditions shall be observed:

(a) *Statement of Weight:* When charges for transportation are based upon weight, the actual (not estimated) weight shall be shown.

(b) *Itemization of Charges:* Where services rendered cover, in addition to transportation, such other services as packing, crating, drayage, unpacking, and uncrating, the total charge for the services shall be itemized so as to show the charge for each service.

(c) *Payment by More Than One Voucher:* Where all the services rendered in connection with moving the household effects of an employee are not covered by a single voucher, vouchers covering payment for subsequent charges shall bear a reference to prior vouchers.

SECTION 16. *Exemption of Foreign Service Officers.* The provisions of these regulations shall not apply to the transportation of effects of officers and employees of the Foreign Service of the Department of State: *Provided*, That

section 14 shall have full force and effect with respect to such transfers.

SECTION 17. *Effective Date.* This order shall be effective as of October 10, 1940, and shall be published in the FEDERAL REGISTER.

EXECUTIVE ORDER 8623**SUSPENSION OF EIGHT-HOUR LAW AS TO PERSONS EMPLOYED BY THE GOVERNMENT IN THE CONSTRUCTION OF CERTAIN ARMY AND NAVY BASES IN BRITISH POSSESSIONS IN THE ATLANTIC OCEAN**

WHEREAS the Government of the United States has acquired from the Government of Great Britain, by lease, certain Army and Navy bases in British possessions in the Atlantic Ocean; and

WHEREAS the United States has commenced the construction of aviation and other Army and Navy facilities at these bases; and

WHEREAS the interests of the national defense require the construction of these facilities at the earliest practicable date; and

WHEREAS by section 1 of the act of August 1, 1892, 27 Stat. 340, as amended by the act of March 3, 1913, 37 Stat. 726 (U.S.C., title 40, sec. 321), the service of all laborers and mechanics employed by the Government upon any public work of the United States, and of all persons employed by the Government to perform services similar to those of laborers and mechanics in connection with dredging or rock excavation in any river or harbor of the United States, is limited to eight hours in any one calendar day *except in case of extraordinary emergency*; and

WHEREAS it appears that, unless the eight-hour limitation is suspended as to persons employed by the Government upon such work, it will be impossible, because of the isolation of such places from sources of labor supply in the United States, to accomplish the work necessary to the establishment of the aviation and other Army and Navy facilities within the time required by the interests of the national defense; and

WHEREAS the application to these projects of the eight-hour limitation would involve such a departure from local labor practices and regulations as would be likely to adversely affect the local labor situation; and

WHEREAS I find that by reason of the foregoing an extraordinary emergency exists:

NOW, THEREFORE, by virtue of the authority vested in me by said section 1 of the said act of August 1, 1892, as

amended by the said act of March 3, 1913, and as President of the United States, I hereby suspend the above-mentioned provisions of law prohibiting more than eight hours of labor in any one day of persons employed by the Government of the United States as to all work authorized and performed at the aforesaid leased bases.

EXECUTIVE ORDER 8641

AMENDING SECTION VIII, VOLUME ONE OF THE SELECTIVE SERVICE REGULATIONS

By virtue of the authority vested in me by the Selective Training and Service Act of 1940 (Pub. No. 783, 76th Cong.), I hereby amend Section VIII, Volume One of the Selective Service Regulations, by adding thereto the following paragraph:

176. *Parole.*—*a.* Any person who has heretofore or may hereafter be convicted of a violation of any of the provisions of the Selective Training and Service Act of 1940, or any amendment thereto, or any rules or regulations prescribed thereunder, shall at any time after such conviction be eligible for release from custody on parole for service in the land or

naval forces of the United States, or for work of national importance under civilian direction, or for any other special service established pursuant to said Act, in the manner and under the conditions hereinafter set out.

b. The parole provided for in subparagraph *a* hereof may be granted by the Attorney General to any person required to register under the provisions of the Selective Training and Service Act of 1940 and any proclamation of the President thereunder, if in the judgment of the Attorney General it is compatible with the public interest and the enforcement of the Selective Training and Service Act of 1940, upon the recommendation of the Director of Selective Service. Before recommending the parole of any such person, the Director of Selective Service shall determine, and include in his recommendation, whether such person should be paroled for (1) induction into the land or naval forces of the United States; or (2) induction into the land or naval forces of the United States for non-combatant service as such service has been or may hereafter be defined; or (3) assignment to work of national importance under civilian direction in lieu of induction into the land or naval forces of the United States; or (4) assignment to such other special service as may be established pursuant to the Selective Training and Service Act of 1940. If the parole is granted, it shall conform to such recommendation.

c. The parole provided for in subparagraph *a* hereof may be granted by the Attorney General to any person not required to register under the provisions of the Selective Training and Service Act of 1940 and any proclamation of the President thereunder, if in the judgment of the Attorney General it is compatible with the public interest and the enforcement of the Selective Training and Service Act of 1940. Such person shall thereupon be inducted into the land or naval forces of the United States if he is acceptable to such forces, or be assigned to any special service established pursuant to the Selective Training and Service Act of 1940 upon such terms and conditions as may be specified by the At-

torney General, and the Attorney General is authorized to establish or designate such special services.

d. Any person who is paroled for service in the land or naval forces of the United States but is not actually inducted into said forces, or who after induction and before completion of the service specified in the order granting the parole is discharged from such forces, may, upon recommendation of the Director of Selective Service, then be assigned by the Attorney General to work of national importance under civilian direction or to any special service established pursuant to the Selective Training and Service Act of 1940, or may be returned to a penal or correctional institution to complete the sentence originally imposed with or without deduction for the time spent on parole as the Attorney General may determine.

e. If in the opinion of the Director of Selective Service any person paroled for assignment to work of national importance under civilian direction or other special service established pursuant to the Selective Training and Service Act of 1940 fails or refuses to perform such work or service or abide by the rules of conduct established in connection therewith, the Director of Selective Service shall so notify the Attorney General, who may revoke the parole of such person and return him to the penal or correctional institution to complete the sentence originally imposed with or without deduction for the time spent on parole as the Attorney General may determine.

f. The Attorney General shall impose such terms and conditions as he may deem proper upon any person released on parole, and shall supervise the parolee to see that he abides by the terms and conditions of the parole; provided, however, that such power of supervision shall be suspended while the parolee is in the active land or naval forces of the United States.

g. The parole herein authorized may be revoked at any time in the discretion of the Attorney General or his authorized agent; provided, however, that such power of revocation shall be suspended

while the parolee is in the active land or naval forces of the United States. Upon revocation of the parole, the parolee shall thereupon be returned to the proper penal or correctional institution to complete the sentence originally imposed with or without deduction for the time spent on parole as the Attorney General may determine, or until reparole.

h. The Attorney General and the Director of Selective Service are authorized to prescribe such rules and regulations not inconsistent herewith as may be necessary for the proper administration of their respective functions and duties set forth in this paragraph.

i. Nothing in these regulations shall be construed as limiting or restricting the application of the act entitled "An act to parole United States prisoners, and for other purposes," approved June 25, 1910 (36 Stat. 819), as amended.

(d) To investigate issues between employers and employees, and practices and activities thereof, with respect to such controversy or dispute; conduct hearings, take testimony, make findings of fact, and formulate recommendations for the settlement of any such controversy or dispute; and make public such findings and recommendations whenever in the judgment of the Board the interests of industrial peace so require;

(e) To request the National Labor Relations Board, in any controversy or dispute relating to the appropriate unit or appropriate representatives to be designated for purposes of collective bargaining, to expedite as much as possible the determination of the appropriate unit or appropriate representatives of the workers.

3. Whenever a controversy or dispute is certified to the Board, in accordance with section 2, the Chairman, in accord-

ance with regulations prescribed by the Board, shall designate as a division of the Board such members as he deems necessary to take action with respect to such controversy or dispute, and to perform in connection therewith any of the duties enumerated in section 2; provided (a) that no less than three members shall be assigned to any such division, and (b) that each of the three groups represented on the Board shall be represented on any such division.

4. Whenever a controversy or dispute which has not been certified to it in accordance with section 2 is brought to the attention of the Board, it shall refer the matter to the Department of Labor.

It is hereby declared to be the duty of employers and employees engaged in production or transportation of materials essential to national defense to exert every possible effort to settle all their disputes without any interruption in production or transportation. EXECUTIVE ORDER 8734

ESTABLISHING THE OFFICE OF PRICE ADMINISTRATION AND CIVILIAN SUPPLY IN THE EXECUTIVE OFFICE OF THE PRESIDENT AND DEFINING ITS FUNCTIONS AND DUTIES

By virtue of the authority vested in me by the Constitution and the statutes, and in order to define further the functions and duties of the Office for Emergency Management with respect to the national emergency as declared by the President on September 8, 1939, for the purpose of avoiding profiteering and unwarranted price rises, and of facilitating an adequate supply and the equitable distribution of materials and commodities for civilian use, and finding that the stabilization of prices is in the interest of national defense and that this Order is necessary to increase the efficiency of the defense program, it is hereby ordered:

1. There shall be in the Office for Emergency Management of the Executive Office of the President an Office of Price Administration and Civilian Supply, at

the head of which shall be an Administrator appointed by the President. The Administrator shall receive compensation at such rate as the President shall determine and, in addition, shall be entitled to actual and necessary transportation, subsistence, and other expenses incidental to the performance of his duties.

2. Subject to such policies, regulations, and directions as the President may from time to time prescribe, and with such advice and assistance as may be necessary from the other departments and agencies of the Federal Government, and utilizing the services and facilities of such other departments and agencies to the fullest extent compatible with efficiency, the Administrator shall:

a. Take all lawful steps necessary or appropriate in order (1) to prevent price spiraling, rising costs of living, profiteering, and inflation resulting from market conditions caused by the diversion of large segments of the Nation's resources to the defense program, by interruptions to normal sources of supply, or by other influences growing out of the emergency; (2) to prevent speculative accumulation, withholding, and hoarding of materials and commodities; (3) to stimulate provision of the necessary supply of materials and commodities required for civilian use, in such manner as not to conflict with the requirements of the War, Navy, and other departments and agencies of the Government, and of foreign governments, for materials, articles, and equipment needed for defense (such requirements are hereinafter referred to as "military defense needs"); and (4) after the satisfaction of military defense needs to provide, through the determination of policies and the formulation of plans and programs, for the equitable distribution of the residual supply of such materials and commodities among competing civilian demands.

b. Make studies of the Nation's civilian requirements for materials and commodities, the supply of goods and services, the status and trend of prices and factors thereof, and the impact of the defense program upon civilian living standards; exercise the powers of the President in requesting such studies pursuant to Section 336 (a) of Title III of the Tariff Act of 1930 (Title 19, U.S.C., Sec. 1336 (a)); and conduct such investigations, hold

such hearings, and obtain such reports as may be necessary or desirable to carry out this Order.

c. Determine and publish, after proper investigation, such maximum prices, commissions, margins, fees, charges, or other elements of cost or price of materials or commodities, as the Administrator may from time to time deem fair and reasonable; and take all lawful and appropriate steps to facilitate their observance.

d. Advise and make recommendations to other departments and agencies, whenever the Administrator deems it appropriate, in respect to the purchase or acquisition of materials and commodities by the Government, the prices to be paid therefor, and in respect to such of their other activities as may affect the price of materials and commodities.

e. Inform the Office of Production Management of the amount, character, and relative importance of materials and commodities needed for civilian use; and advise and consult with the Office of Production Management with reference to its procurement, production planning, priority, and other actions the effect of which may be to diminish the supply of materials and commodities available for civilian use.

f. Establish and maintain liaison with such departments and agencies of the Government and with such other public or private agencies and persons as the Administrator may deem necessary or desirable to carry out the provisions of this Order.

g. Formulate programs designed to assure adequate standards for, and the most effective use of, consumer goods; stimulate the utilization of substitutes by civilians for consumer goods and commodities of limited supply; develop programs with the object of stabilizing rents; and promote civilian activities which will contribute to the purposes of this Order.

h. Recommend to the President the exercise of the authority vested in him by the following named Acts, whenever, in the opinion of the Administrator, such action by the President will enable the Administrator to carry out and secure compliance with the provisions of Section 2a and 2c of this Order:

(1) Section 9 of the Selective Training and Service Act of 1940 (Public No. 783, 76th Congress).

(2) Section 120 of the National Defense Act (Title 50, U.S.C., Sec. 80).

(3) Section 1 (15) of Title 49, U.S.C.

(4) The Act of October 10, 1940 (Public No. 829, 76th Congress).

1. Perform the functions and exercise the authority vested in the President by the following named Acts, in so far as and only to the extent that the authority conferred by such Acts will, in the opinion of the Administrator, enable him to carry out and secure compliance with the provisions of Section 2a and 2c of this Order: Section 713 (a)-7 of Title 15, U.S.C., Supp. V; Section 4 of the Act approved June 7, 1939 (Title 50, U.S.C., Supp. V., Sec. 98c); and Section 5 of the Reconstruction Finance Corporation Act, as amended by the Act approved June 25, 1940 (Public No. 664, 76th Congress): subject to the disapproval by the Secretary of War or the Secretary of the Navy of each proposed action thereunder.

j. Advise upon proposed or existing legislation, and recommend such additional legislation as may be necessary or desirable, relating to prices, rents, or the increase in supply and the equitable distribution of materials and commodities for civilian use.

k. Keep the President informed in respect to progress made in carrying out this Order; and perform such other related duties as the President may from time to time assign or delegate to him.

3. The Administrator may provide for the internal organization and management of the Office of Price Administration and Civilian Supply, and may appoint such advisory committees as he finds necessary to the performance of his duties and responsibilities. The Administrator shall obtain the President's approval for the establishment of the principal subdivisions of the Office and the appointment of the heads thereof.

4. There shall be in the Office of Price Administration and Civilian Supply a Price Administration Committee consisting of the Administrator as Chairman, the Secretary of the Treasury, the Secretary of Agriculture, the Federal Loan Administrator, the Chairman of the

Tariff Commission, the Chairman of the Federal Trade Commission, the Director General and Associate Director General of the Office of Production Management, or such alternate as each may designate, and such other members as the President may subsequently appoint. The Committee shall from time to time, upon request by the Administrator, make findings and submit recommendations to the Administrator in respect to the establishment of maximum prices, commissions, margins, fees, charges, and other elements of cost or price of materials or commodities as provided under paragraph 2c above.

5. Within the limits of such funds as may be appropriated to the Office of Price Administration and Civilian Supply or as may be allocated to it by the President through the Bureau of the Budget, the Administrator may employ necessary personnel and make provision for necessary supplies, facilities, and services. However, the Office of Price Administration and Civilian Supply shall use such statistical, informational, fiscal, personnel, and other general business services and facilities as may be made available to it through the Office for Emergency Management or other agencies of the Government.

EXECUTIVE ORDER 8743

EXTENDING THE CLASSIFIED CIVIL SERVICE

By virtue of the authority vested in me by section 1 of the act of November 26, 1940, entitled "Extending the Classified Executive Civil Service of the United States" (54 Stat. 1211), by the Civil Service Act (22 Stat. 403), and by section 1753 of the Revised Statutes of the United States, it is hereby ordered as follows:

SECTION 1. All offices and positions in the executive civil service of the United States except (1) those that are temporary, (2) those expressly excepted from the provisions of section 1 of the said act of November 26, 1940, (3) those excepted from the classified service under Schedules A and B of the Civil Service Rules, and (4) those which now have a classified status, are hereby covered into the classified civil service of the Government.

SECTION 2. Section 1 of this order shall become effective on January 1, 1942, except that as to positions affected thereby which are vacant at any time after June 30, 1941, and before January 1, 1942, it shall become effective when the vacancies

first exist during such period, and appointments to such vacant positions shall be made in accordance with the Civil Service Rules as amended by section 3 of this order, unless prior express permission is given by the Civil Service Commission for appointment without regard thereto.

SECTION 3. (a) Upon consideration of the report of the Committee on Civil Service Improvement (House Document No. 118, 77th Congress) appointed by Executive Order No. 8044 of January 31, 1939, it is hereby found and determined that the regulations and procedures hereinafter prescribed in this section with respect to attorney positions in the classified civil service are required by the conditions of good administration.

(b) There is hereby created in the Civil Service Commission (hereinafter referred to as the Commission) a board to be known as the Board of Legal Examiners (hereinafter referred to as the Board). The Board shall consist of the Solicitor General of the United States and the Principal Legal Examiner of the Civil Service Commission, as members *ex officio*, and nine members to be appointed by the President, five of whom shall be chosen from the chief law officers of the Executive departments, agencies, or corporate instrumentalities of the Government, two from the law-teaching profession, and two from attorneys engaged in private practice. The President shall designate the chairman of the Board. Five members shall constitute a quorum, and the Board may transact business notwithstanding vacancies thereon. Members of the Board shall receive no salary as such, but shall be entitled to necessary expenses incurred in the performance of their duties hereunder.

(c) It shall be the duty of the Board to promote the development of a merit system for the recruitment, selection, appointment, promotion, and transfer of attorneys in the classified civil service in accordance with the general procedures outlined in Plan A of the report of the Committee on Civil Service Improvement, appointed by Executive Order No. 8044 of January 31, 1939.

(d) The Board, in consultation with the Civil Service Commission, shall determine the regulations and procedures

under this section governing the recruitment and examination of applicants for attorney positions, and the selection, appointment, promotion, and transfer of attorneys, in the classified service.

(e) The Commission shall in the manner determined by the Board establish a register or registers of eligibles from which attorney positions in the classified service shall be filled: *Provided*, That any register so established shall not be in effect for a period longer than one year from the date of its establishment. Upon request of the Board, the Commission shall designate appropriate regions or localities and appoint regional or local boards of examiners composed of three persons approved by the Board, within or without the Federal service, to interview and examine such applicants as the Board may recommend.

(f) The number of names to be placed upon any register of eligibles for attorney positions shall be limited to the number recommended by the Board; and such registers shall not be ranked according to the ratings received by the eligibles, except that persons entitled to veterans' preference as defined in section 1 of Civil Service Rule VI shall be appropriately designated thereon.

(g) Any person whose name has been placed upon three registers of eligibles covering positions of the same grade, and who has not been appointed therefrom, shall not thereafter be eligible for placement upon any subsequently established register covering positions of such grade.

(h) The eligibles on any register for attorney positions shall be apportioned among the several States and Territories and the District of Columbia upon the basis of population as ascertained at the last preceding census, and the Commission shall certify to the appointing officer for each vacancy all the names on the appropriate register which meet the apportionment requirements: *Provided*, That whenever the Board shall be of the opinion that apportionment of eligibles on any register for attorney positions is not warranted by conditions of good administration, it shall so notify the Commission, which shall thereafter certify all the persons on such register to the appropriate appointing officer. The appointing officer shall make selections for any vacancy or vacancies in attorney

positions from the register so certified, with sole reference to merit and fitness.

(i) Any position affected by this section which is vacant after June 30, 1941, may be filled before available registers have been established pursuant to this section only by the appointment of a person who has passed a noncompetitive examination prescribed by the Commission with the approval of the Board, and such person after the expiration of six months from the date of his appointment shall be eligible for a classified civil-service status upon compliance with the provisions of section 6 of Civil Service Rule II, other than those provisions relating to examination.

(j) The incumbent of any attorney position covered into the classified service by section 1 of this order may acquire a classified civil-service status in accordance with the provisions of section 6 of Civil Service Rule II: *Provided*, That the noncompetitive examination required thereunder shall be prescribed by the Commission with the approval of the Board.

(k) The Commission with the approval of the Board shall appoint a competent person to act as Secretary to the Board; and the Commission shall furnish such further clerical, stenographic, and other assistants as may be necessary to carry out the provisions of this section.

(l) The Civil Service Rules are hereby amended to the extent necessary to give effect to the provisions of this section.

SECTION 4. The noncompetitive examinations prescribed pursuant to sections 3 and 6 of this order and section 2 (a) of the said act of November 26, 1940, shall, among other things, require any person taking such examination to meet such reasonable standards of physical fitness and personal suitability as the Civil Service Commission may prescribe.

SECTION 5. Persons who on the effective date of section 1 of this order are on furlough or leave without pay from any position covered into the classified service by that section may be recalled to duty within one year of the date that they are furloughed or given leave without pay, and may be continued in such positions thereafter but shall not thereby acquire a classified civil-service status.

If they are not recalled to duty within the time specified herein, they shall be separated from the service.

SECTION 6. Any person who in order to perform active service with the military or naval forces of the United States has left, or leaves, a position (other than a temporary position) which is covered into the classified civil service under section 1 of this order shall be reinstated in the department or agency to the position in which he last served or to a position of like seniority, status, and pay in the same department or agency, and upon reinstatement thereto may acquire a classified civil-service status: *Provided*, (1) that he has been honorably discharged from the military or naval service, (2) that he makes application for reinstatement within forty days of such discharge, (3) that the head of the department or agency concerned recommends within one year of his reinstatement that he be permitted to acquire a classified civil-service status and certifies that he has served with merit for at least six months, and (4) that he qualifies in such suitable noncompetitive examination as the Commission may prescribe.

SECTION 7. Executive Order No. 8044 of January 31, 1939, is hereby revoked so far as it applies to positions covered into the classified civil service by this order.

EXECUTIVE ORDER 8747

EXECUTIVE ORDER 8748**APPROVING REGULATIONS OF THE CIVIL SERVICE COMMISSION RELATING TO EFFICIENCY-RATING BOARDS OF REVIEW**

By virtue of the authority vested in me by section 9 of the Classification Act of 1923 (42 Stat. 1490), as amended by section 7, Title II of the act of November 26, 1940, Public No. 880, 76th Congress, I hereby approve the following regulations prescribed by the Civil Service Commission:

REGULATIONS RELATING TO EFFICIENCY-RATING BOARDS OF REVIEW

Pursuant to the authority vested in the Civil Service Commission by section 9 of the Classification Act of 1923 (42 Stat. 1490), as amended by section 7, Title II of the act of November 26, 1940, Public No. 880, 76th Congress, the following regulations are hereby prescribed with respect to efficiency-rating boards of review:

1. There shall be established in each department and independent establishment having positions and employees subject to section 9 of the Classification Act of 1923 (42 Stat. 1490), as amended by section 7 of the act of November 26, 1940, Public No. 880, 76th Congress, one or more boards of review for the purpose of considering and passing upon the merits of efficiency ratings assigned to such employees.

2. The head of each department or independent establishment shall determine the number and jurisdiction of boards of review to be established within his department or establishment, subject to the approval of the Civil Service Commission. The jurisdiction of each board of review shall be specific and shall be exclusive of that of any other such board.

3. (a) Each board of review shall be composed of three members, and there shall be an alternate member provided for each principal member who shall serve during the absence of such principal member or when the principal member

is unable to serve for any other reason and who shall succeed the principal member in the event that he is unable to serve to the end of his term of office. Members of boards of review and alternate members shall be appointed or designated for one-year terms.

(b) One member of each board of review and an alternate to such member shall be designated by the head of the department or establishment served by such board.

(c) Another member of each board of review and an alternate to such member shall be designated by election by the employees whose efficiency ratings are under the jurisdiction of the board in such manner as shall be determined by the Civil Service Commission.

(d) The chairman of each board of review and an alternate chairman shall be designated by the Civil Service Commission.

(e) All members of boards of review and all alternate members shall be officers or employees of the executive branch of the Federal government; provided, however, that in the case of boards of review serving agencies not in the executive branch, such members and alternate members (except chairmen and alternate chairmen) shall be appointed or elected from the branch of government to which such agencies respectively belong.

4. Each appeal from an efficiency rating shall be submitted in writing to the chairman of the appropriate board of review within ninety days of the date that notice of such rating was delivered to the employee. Boards of review may waive this requirement for good and sufficient reasons, as in cases (a) where it appears that appellants were not in a position to make an appeal within the ninety-day period, (b) where employees elected to avail themselves of the grievance procedures in their own departments or establishments before proceeding with appeals under these regulations, or (c) where new evidence is discovered after the close of the ninety-day period which would have a bearing on the decision concerning the appeal. All efficiency ratings which require the dismissal, demotion, or reduction in salary of employees subject to the approval of the Civil Service Commission under section 9 of the Classifica-

tion Act of 1923 as amended shall, on the request of the Civil Service Commission, be scheduled for hearings before the boards of review in the same manner as if appealed by such employees.

5. Hearings conducted on efficiency-rating appeals shall be on as informal a basis as possible and yet permit the presentation of all information necessary to ascertain the correctness of the rating in question or the rating which should be assigned the employee. Stenographic reports shall be required only by the unanimous vote of the board and then only when they are necessary to the best interests of the Government and employee. At hearings before the board of review each employee-appellant shall be entitled to appear with a representative selected by him. The employee-appellant and his representative, and such representatives of the department or establishment as are designated by the head thereof, shall be afforded an opportunity to submit orally or in writing any information deemed by the board of review to be pertinent to the case, and shall be afforded an opportunity to hear or examine, and to reply to, information submitted to such board by other parties.

6. After ascertaining the pertinent facts in each case, the board of review shall proceed to determine such adjustment in the efficiency rating as it deems proper, or sustain the efficiency rating appealed from without change. Decisions shall be made by a majority vote. Notices of decisions of boards of review shall be communicated to the heads of the departments or independent establishments and to the employee-appellants in writing and shall contain summary statements of the facts on which the decisions are based. Copies of the decisions of the boards shall also be forwarded to the Civil Service Commission.

7. These regulations shall become effective on July 1, 1941.

WHEREAS on the 27th day of May, 1941, a Presidential proclamation was issued, declaring an unlimited national emergency and calling upon all loyal citizens in production for defense to give precedence to the needs of the Nation to the end that a system of government which makes private enterprise possible may survive; and calling upon all our loyal workmen as well as employers to merge their lesser differences in the larger effort to insure the survival of the only kind of government which recognizes the rights of labor or of capital, and calling upon all loyal citizens to place the Nation's needs first in mind and in action to the end that we may mobilize and have ready for instant defensive use, all of the physical powers, all of the moral strength and all of the material resources of the Nation; and

WHEREAS North American Aviation, Inc., at its Inglewood plant in the City of Los Angeles, State of California, has contracts with the United States for the manufacture of military aircraft and other material and articles vital to the defense of the United States; and the United States owns aircraft in the course of production, raw material, machinery, and other property situated in the said Company's plant, and

WHEREAS a controversy arose at said plant over terms and conditions of employment between the company and the workers which they have been unable to adjust by collective bargaining; and whereas the controversy was duly certi-

fied to the National Defense Mediation Board, established by the Executive Order of March 19, 1941; and whereas before the negotiations had been concluded before the said Board, and in violation of an agreement between the bargaining representatives of the company and the workers authorized to appear before the Board and conduct the negotiations, production at said plant of said aircraft and other articles and materials vital to the defense of the United States was interrupted by a strike which still continues, and

WHEREAS the objectives of said proclamation of May 27, 1941 are jeopardized and the ability of the United States to obtain aircraft essential to its armed forces and to the national defense is seriously impaired by said cessation of production, and

WHEREAS for the time being and under the circumstances hereinabove set forth it is essential in order that such operations be assured and safeguarded that the plant be operated by the United States;

NOW, THEREFORE, I, Franklin D. Roosevelt, pursuant to the powers vested in me by the Constitution and laws of the United States, as President of the United States of America and Commander in Chief of the Army and Navy of the United States, hereby authorize and direct that the Secretary of War immediately take possession of and operate the said plant of North American Aviation, Inc., through such person or persons as he may designate, to produce the aircraft and other articles and material called for by its contracts with the United States or otherwise, and to do all things necessary or incidental thereto. The Secretary of War shall employ or authorize the employment of such employees, including a competent civilian advisor on industrial relations, as are necessary to carry out the provisions of this order. And I hereby direct the Secretary of War to take such measures as may be neces-

WHEREAS there is evidence that available and needed workers have been barred from employment in industries engaged in defense production solely because of considerations of race, creed, color, or national origin, to the detriment of workers' morale and of national unity:

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and the statutes, and as a prerequisite to the successful conduct of our national defense production effort, I do hereby reaffirm the policy of the United States that there shall be no discrimination in the employment of workers in defense industries or government because of race, creed, color, or national origin, and I do hereby declare that it is the duty of employers and of labor organizations, in furtherance of said policy and of this order, to provide for the full and equitable participation of all workers in defense industries, without discrimination because of race, creed, color, or national origin;

And it is hereby ordered as follows:

1. All departments and agencies of the Government of the United States concerned with vocational and training programs for defense production shall take special measures appropriate to assure that such programs are adminis-

tered without discrimination because of race, creed, color, or national origin;

2. All contracting agencies of the Government of the United States shall include in all defense contracts hereafter negotiated by them a provision obligating the contractor not to discriminate against any worker because of race, creed, color, or national origin;

3. There is established in the Office of Production Management a Committee on Fair Employment Practice, which shall consist of a chairman and four other members to be appointed by the President. The Chairman and members of the Committee shall serve as such without compensation but shall be entitled to actual and necessary transportation, subsistence and other expenses incidental to performance of their duties. The Committee shall receive and investigate complaints of discrimination in violation of the provisions of this order and shall take appropriate steps to redress grievances which it finds to be valid. The Committee shall also recommend to the several departments and agencies of the Government of the United States and to the President all measures which may be deemed by it necessary or proper to effectuate the provisions of this order.

PRESCRIBING REGULATIONS GOVERNING VACATION PAY FOR FIELD SERVICE EMPLOYEES OF THE WAR DEPARTMENT, THE NAVY DEPARTMENT, THE COAST GUARD, AND THE PANAMA CANAL WHO FOREGO VACATIONS DURING THE EMERGENCY

By virtue of and pursuant to the authority vested in me by section 3 of the act of June 3, 1941, Public Law 100, 77th Congress, I hereby prescribe the following regulations to govern the administration of section 7 of the act of June 28, 1940, 54 Stat. 676, 678, and section 2 of the act of June 3, 1941, Public Law 100, 77th Congress, providing for payment of compensation in lieu of annual leave to certain employees of the War Department, the Navy Department, the Coast Guard, and The Panama Canal who are required to forego their vacations:

SECTION 1. Except as provided in section 2 of these regulations, the Secretary of War, the Secretary of the Navy, the Secretary of the Treasury, and the Governor of The Panama Canal may authorize payment of compensation in lieu of annual leave to those employees of the field services of the War Department, the Navy Department, the Coast Guard, and The Panama Canal whose services cannot be spared without detriment to the national defense and who, through being required to forego their vacations, would permanently forfeit because of excess accumulation, or because of lack of accumulation privileges, any leave due them under existing law and regulations. Such compensation shall be only for the portion of the requested leave which otherwise would be forfeited and shall be, in addition to their regular pay, the equivalent of the pay they would have drawn for such leave: *Provided*, That any compensation in lieu of annual leave

shall not be subject to deductions for retirement purposes.

SECTION 2. Employees to which section 1 hereof is applicable who are engaged in construction, manufacturing, processing, and similar pursuits, and whose services are of a character in demand by private industry and cannot be spared without detriment to the national defense, may be allowed compensation in lieu of current annual leave due them under existing law and regulations, regardless of the amount of accumulated leave to their credit: *Provided*, That the maximum leave in lieu of which such compensation may be paid shall not exceed the amount of accrued leave to the credit of the employee at the time of the payment and in any calendar year shall not exceed the current annual leave to which he is entitled during that calendar year and which he has not taken.

SECTION 3. The number of days for which an employee is granted compensation in lieu of annual leave shall be deducted from the leave to which he is entitled by law or regulation.

SECTION 4. The Secretary of War, the Secretary of the Navy, the Secretary of the Treasury, and the Governor of The Panama Canal may delegate to such subordinate officers as they deem necessary the authority to require employees to forego annual leave when their services cannot be spared without detriment to the national defense and to authorize payment of compensation in lieu of annual leave to such employees in accordance with the provisions of these regulations. Such officers shall be required to authorize specifically in advance all payments of compensation in lieu of annual leave, and specifically to certify that each employee for whom such compensation is authorized was required to forego his vacation because his services could not in the judgment of the certifying officer be spared without detriment to the national defense at that time or at any time during the then current calendar year and that it had been determined that additional qualified employees could not be secured to meet the requirements of the situation. If the employee is deemed to be entitled to compensation under the terms of section 2 above, it must be further certified that he is engaged in construction, manufac-

turing, processing, or a similar pursuit and that his services are of a character in demand by private industry.

SECTION 5. No employee shall be required to forego his vacation who, because of his physical condition or the character or location of his employment or for any other exceptionally urgent reason, is determined by a responsible officer designated by the head of the proper department or agency to require, in the interest of health or efficiency, all or any portion of the annual leave to which he is entitled under existing law or regulation.

SECTION 6. The Secretary of War, the Secretary of the Navy, the Secretary of the Treasury, and the Governor of The Panama Canal may issue for their respective services necessary instructions not inconsistent herewith to carry out the provisions of section 7 of the act of June 28, 1940, *supra*, and section 2 of the act of June 3, 1941, *supra*.

EXECUTIVE ORDER 8842

REGULATIONS PERTAINING TO WITHIN-GRADE SALARY ADVANCEMENTS FOR EMPLOYEES CLASSIFIED UNDER THE SALARY SCHEDULE OF EXECUTIVE ORDER NO. 6746 OF JUNE 21, 1934

By virtue of the authority vested in me as President of the United States, I hereby prescribe the following regulations pertaining to within-grade salary advancements for employees whose positions are classified in accordance with the salary schedule contained in Executive Order No. 6746 of June 21, 1934:

1. The compensation increments within each of the several grades established in Executive Order No. 6746 shall be:

| | |
|---------------------------------|-------|
| Grades 1 to 7, inclusive..... | \$60 |
| Grades 8 to 12, inclusive..... | \$100 |
| Grades 13 to 16, inclusive..... | \$200 |
| Grades 17 to 19, inclusive..... | \$250 |

2. So far as possible within the limits of available appropriations, all employees whose positions are classified in accordance with the salary schedule contained in Executive Order No. 6746, who have not attained the maximum rate of compensation for the grade to which their positions are respectively allocated, shall be advanced in compensation one increment within the grade at the beginning of the next quarter following the completion of: (1) Each eighteen months of service if such employees are in grades in which the increments are \$60 or \$100, or (2) each thirty months of service if such employees are in grades in which the increments are \$200 or \$250, subject to the following conditions:

(a) An employee shall not be advanced if he has received an equivalent increase in compensation from any cause during such period, except increases made pursuant to section 4 of this order.

(b) An employee shall not be advanced unless his current efficiency is good or better than good. The term "good" shall have the meaning attributed to it in the system of efficiency rating approved by the Civil Service Commission for the agency concerned, and each agency affected by this order shall maintain such a system.

(c) The service and conduct of the employee shall be certified by the head of the department or agency, or such official as he may designate, as otherwise satisfactory.

(d) In any case in which the granting of a full increment would have the effect of increasing an employee's salary to an amount in excess of the maximum for his grade, only that part of the increment which will increase his salary to such maximum shall be granted.

3. The initial increment payable hereunder shall be effective October 1, 1941, and service rendered prior to that date up to a maximum of eighteen or thirty months, as the case may be, may be counted in meeting the requirements as to length of service under section 2 hereof.

4. Within the limits of available appropriations, and in recognition of especially meritorious services, the head of any department or agency is authorized

to make additional within-grade compensation advancements, but any such additional advancements shall not exceed one increment, and no employee shall be eligible for more than one additional advancement hereunder within each of the time periods specified in section 2 hereof. All actions under this section and the reasons therefor shall be reported to the Civil Service Commission. The Commission shall consolidate the information so received and transmit it to Congress.

5. No increase in compensation to meet the minimum rate established by the head of the agency concerned for the grade to which the employee's position is allocated shall be construed as a within-grade salary advancement.

EXECUTIVE ORDER 8843

REGULATION OF CONSUMER CREDIT

DECLARATION OF NECESSITY AND PURPOSE

WHEREAS a large volume of credit is being devoted to financing and refinancing purchases of consumers' goods and services through extensions of credit that usually are made to individuals and to a large extent are on an instalment payment basis; and

WHEREAS the conditions under which such credit is available have an important influence upon the volume and timing of demand, not only for the particular goods and services purchased on credit but also for goods and services in general; and

WHEREAS liberal terms for such credit tend to stimulate demand for consumers' durable goods the production of which requires materials, skills, and equipment needed for national defense; and

WHEREAS the extension of such credit in excessive volume tends to generate inflationary developments of increasing consequence as the limits of productive capacity are approached in more and more fields and to hinder the accumulation of savings available for financing the defense program; and

HEREAS the public interest requires control of the use of instalment credit financing and refinancing purchases of consumers' durable goods the production of which absorbs resources needed for national defense, in order (a) to facilitate the transfer of productive resources to defense industries, (b) to assist in curbing unwarranted price advances and profiteering which tend to occur when the supply of such goods is curtailed without corresponding current of demand, (c) to assist in restraining general inflationary tendencies, to support or supplement taxation imposed to restrain such tendencies, and to promote the accumulation of savings available for financing the defense program, (d) to aid in creating a backlog of demand for consumers' durable goods,

(e) to restrain the development of consumer debt structure that would depress effective demand for goods and services in the post-defense period; and **WHEREAS** in order to prevent evasion and avoidance of this order and such regulations as may be prescribed to effectuate its purposes, means should also be available for regulating the use of other instalment credit and other forms of credit usually extended to consumers or on consumers' durable goods; and

WHEREAS it is appropriate that such credit be controlled and regulated through an existing governmental agency which has primary responsibilities with respect to the determination and administration of national credit policies:

NOW, THEREFORE, by virtue of the authority vested in me by section 5 (b) of the act of October 6, 1917, as amended, and by virtue of all other authority vested in me, and in order, in the national emergency declared by me on May 26, 1941, to promote the national defense and protect the national economy, I am hereby ordered as follows:

ADMINISTRATION

SECTION 1. (a) The Board of Governors of the Federal Reserve System (hereinafter called the Board) is hereby designated as the agency through which transfers of credit between and payments by or to banking institutions (as defined herein pursuant to section 5 (b) of the aforesaid Act) which constitute,

or arise directly or indirectly out of, any extension of credit of a type set out in section 2 (a) of this order shall be investigated, regulated and prohibited.

(b) The Board shall, whenever it deems such action to be necessary or appropriate, take any lawful steps herein authorized and such other lawful steps as are within its power to carry out the purposes of this order, and may, in administering this order, utilize the services of the Federal Reserve Banks and any other agencies, Federal or State, which are available and appropriate.

(c) In order to facilitate the coordination of the Board's functions under this order with other phases of the program for national defense and for protecting the national economy, there shall be a committee consisting of the Secretary of the Treasury, the Federal Loan Administrator, and the Administrator of the Office of Price Administration and Civilian Supply, or such alternate as each shall designate, and such other members as the President shall subsequently appoint. The Board shall maintain liaison with the committee, and in formulating policies with respect to down-payments, maturities, terms of repayment, and other such questions of general policy shall consult with the committee and take into consideration any suggestions or recommendations it may make.

REGULATIONS

SECTION 2. (a) Whenever the Board shall determine that such action is necessary or appropriate for carrying out the purposes of this order, the Board shall prescribe regulations with respect to transfers and payments which constitute, or arise directly or indirectly out of, any extension of instalment credit for the purpose of purchasing or carrying any consumers' durable good except a residential building in its entirety; and the Board may in addition, to the extent deemed by it to be desirable and feasible in order to prevent evasion of such regulations as may be so prescribed or in order to control forms of credit the use of which might defeat the purposes of this order and such regulations, prescribe regulations with respect to transfers and payments which constitute, or arise directly or indirectly out of, (1) any other

extension of instalment credit, or (2) any other extension of credit for the purpose of purchasing or carrying any consumers' durable good, or (3) any other extension of credit in the form of a loan other than a loan made for business purposes to a business enterprise or for agricultural purposes to a person engaged in agriculture. Such regulations may be prescribed by the Board at such times and with such effective dates as the Board shall deem to be in accordance with the purposes of this order.

(b) Such regulations may from time to time, originally or by amendment, regulate or prohibit such transfers and payments or exempt them from regulation or prohibition and may classify them according to the nature of the transactions or goods or persons involved or upon such other basis as may reasonably differentiate such transfers and payments for the purposes of regulations under this order, and may be made applicable to one or more of the classes so established; and, without limiting the generality of the foregoing, such regulations may require transactions or persons or classes thereof to be registered or licensed; may prescribe appropriate limitations, terms, and conditions for such registrations or licenses; may provide for suspension of any such registration or license for violation of any provision thereof or of any regulation, rule, or order prescribed hereunder, may prescribe appropriate requirements as to the keeping of records and as to the form, contents, or substantive provisions of contracts, liens, or any relevant documents; may prohibit solicitations by banking institutions which would encourage evasion or avoidance of the requirements of any regulation, license, or registration under this order; and may from time to time make appropriate provisions with respect to—

(1) The maximum amount of credit which may be extended on, or in connection with any purchase of, any consumers' durable good;

(2) The maximum maturity, minimum periodic payments, and maximum periods between payments, which may be stipulated in connection with extensions of credit;

(3) The methods of determining purchase prices or market values or other bases for computing permissible extensions of credit or required down-payments; and

(4) Special or different terms, conditions, or exemptions with respect to new or used goods, minimum original cash payments, temporary credits which are merely incidental to cash purchases, payment or deposits usable to liquidate credits, and other adjustments or special situations.

(c) On and after the effective date of any regulation prescribed by the Board with respect to any extension of credit of a type set out in section 2 (a), and notwithstanding the provisions of any other proclamation, order, regulation, or license under the aforesaid Act, all transfers and payments which are in violation of such regulation shall be and hereby are prohibited to the extent specified in such regulation.

(d) Neither this order nor any regulation issued thereunder shall affect the right of any person to enforce any contract, except that after the effective date of any such regulation every contract which is made in connection with any extension of credit and which violates, or the performance of which would violate, any provision of such regulation (other than a provision designated therein as being for administrative purposes), and every lien, pledge, seller's interest in a conditional sale, or other property interest, subject to the provisions of such contract or created in connection therewith, shall be unenforceable by the person who extends such credit or by any person who acquires any right of such person in such contract; provided that such disability shall not apply to any person who extends such credit, or acquires such right for value, in good faith and without knowing or having reason to know the facts by reason of which the making or performance of such contract was or would be such a violation.

REPORTS

SECTION 3. Reports concerning the kinds, amounts, and characteristics of any extensions of credit subject to this order, concerning transfers and payments which arise out of any such ex-

ons of credit, or concerning circumstances related to such extensions of it or such transfers or payments or the regulation thereof, shall be filed in such forms, under oath or otherwise, at such times and from time to time, and by such persons, as the Board may prescribe by rule, regulation, or order as necessary or appropriate for enabling the Board to perform its functions under this order. The Board may require any person to furnish, under oath or otherwise, complete information relative to any transaction within the scope of this order, including the production of any books of account, contracts, letters, or other papers, in connection therewith in the custody or control of such person.

DEFINITIONS

SECTION 4. For the purposes of this order, unless the context otherwise requires, the following terms shall have the following meanings, provided that the Board may in its regulations give such terms more restricted meanings:

(a) "Person" has the meaning set forth in section 5 (b) of the act of October 6, 1917, as amended.

(d) "Consumers' durable good" includes any good, whether new or used, which is durable or semi-durable and is used or usable for personal, family or household purposes, and any service connected with the acquisition of any such good or of any interest therein.

(e) "Extension of credit" means any loan or mortgage; any instalment purchase contract, any conditional sales contract, or any sale or contract of sale under which part or all of the price is payable subsequent to the making of such sale or contract; any rental-purchase

contract, or any contract for the bailment or leasing of property under which the bailee or lessee either has the option of becoming the owner thereof or obligates himself to pay as compensation a sum substantially equivalent to or in excess of the value thereof; any contract creating any lien or similar claim or property to be discharged by the payment of money; any purchase, discount, or other acquisition of, or any extension of credit upon the security of, any obligation or claim arising out of any of the foregoing; and any transaction or series of transactions having a similar purpose or effect.

(f) An extension of credit is an extension of "instalment credit" if the obligor undertakes to repay the credit in two or more scheduled payments or undertakes to make two or more scheduled payments or deposits usable to liquidate the credit, or if the extension of credit has a similar purpose or effect, or if it is for the purpose of financing a business enterprise which makes such extensions of credit.

(g) An extension of credit is "for the purpose of purchasing or carrying any consumers' durable good" if it is directly or indirectly for the purpose of financing or refinancing the purchase of any consumers' durable good or is directly or indirectly secured by any consumers' durable good, or if the extension of credit has a similar purpose or effect, or if it is for the purpose of financing a business enterprise which makes such extensions of credit.

PENALTIES

SECTION 5. Whoever willfully violates or knowingly participates in the violation of this order or of any regulation prescribed hereunder, shall be subject to the penalties applicable with respect to violations of section 5 (b) of the said act of October 6, 1917, as amended.

EXECUTIVE ORDER 8853

DEFINING MANILA BAY DEFENSIVE SEA AREA

In virtue of the authority vested in me by the act of the United States, it is ordered as follows:

The following-described area is hereby established and reserved, for purposes of defense, as a naval defensive area, to be known as "Manila Bay Defensive Sea Area":

The territorial waters of Manila Bay, Philippines, and its approaches and tributaries, to the contour line of extreme high tide shown on the latest U.S.C. and G.S. charts.

Beginning southwest true from Luzon at its approximate position, Latitude 14°10'15" North, Longitude 120°23'13" East

to the seaward limit of territorial waters, thence southeasterly along the seaward limit of territorial waters to the parallel of Latitude 14°10'15" North, thence east along that parallel of Latitude to meet the shore at Hamilo Point in approximate Latitude 14°10'15" North, Longitude 120°34'24" East.

A vessel not proceeding under United States Naval or other United States authorized supervision, shall not enter or navigate the waters of Manila Bay Defensive Sea Area except during daylight, when good visibility conditions prevail, and then only after specific permission has been obtained. Advance arrangements for entry into or navigation through or within the Manila Bay Defensive Sea Area must be made, preferably by application at a United States Naval District Headquarters in advance of sailing, or by radio or visual communication on approaching the seaward limits of the area. If radio telegraphy is used, the call "NQO" shall be made on a frequency of 500 kcs and permission to enter the port shall be requested. The name of the vessel, purpose of entry, and name of the master must be given in the request. If visual communications are used, the procedure shall be essentially the same.

A vessel entering or navigating the waters of Manila Bay Defensive Sea Area does so at its own risk.

Even though permission has been obtained, it is incumbent upon a vessel entering the Manila Bay Defensive Sea Area to obey any further instructions received from the United States Navy, or other United States authority.

A vessel may expect supervision of its movements within the Manila Bay Defensive Sea Area, either through surface craft or aircraft. Such controlling surface craft and aircraft will be identified by a prominent display of the Union Jack.

These regulations are subject to amplification by the local United States Naval authority as necessary to meet local circumstances and conditions.
